<i>Preface</i>	<i>page xi</i>
1 Probability Distributions and Insurance Applications	1
1.1 Introduction	1
1.2 Important Discrete Distributions	2
1.3 Important Continuous Distributions	5
1.4 Mixed Distributions	9
1.5 Insurance Applications	11
1.6 Sums of Random Variables	18
1.7 Notes and References	24
1.8 Exercises	24
2 Utility Theory	27
2.1 Introduction	27
2.2 Utility Functions	27
2.3 The Expected Utility Criterion	28
2.4 Jensen's Inequality	29
2.5 Types of Utility Function	31
2.6 Notes and References	36
2.7 Exercises	36
3 Principles of Premium Calculation	39
3.1 Introduction	39
3.2 Properties of Premium Principles	39
3.3 Examples of Premium Principles	40
3.4 Notes and References	50
3.5 Exercises	51

4	The Collective Risk Model	53
4.1	Introduction	53
4.2	The Model	54
4.3	The Compound Poisson Distribution	57
4.4	The Effect of Reinsurance	60
4.5	Recursive Calculation of Aggregate Claims Distributions	64
4.6	Extensions of the Panjer Recursion Formula	73
4.7	The Application of Recursion Formulae	80
4.8	Approximate Calculation of Aggregate Claims Distributions	84
4.9	Notes and References	90
4.10	Exercises	90
5	The Individual Risk Model	95
5.1	Introduction	95
5.2	The Model	95
5.3	De Pril's Recursion Formula	96
5.4	Kornya's Method	99
5.5	Compound Poisson Approximation	103
5.6	Numerical Illustration	107
5.7	Notes and References	110
5.8	Exercises	110
6	Introduction to Ruin Theory	114
6.1	Introduction	114
6.2	A Discrete Time Risk Model	115
6.3	The Probability of Ultimate Ruin	116
6.4	The Probability of Ruin in Finite Time	120
6.5	Lundberg's Inequality	122
6.6	Notes and References	125
6.7	Exercises	126
7	Classical Ruin Theory	127
7.1	Introduction	127
7.2	The Classical Risk Process	127
7.3	Poisson and Compound Poisson Processes	129
7.4	Definitions of Ruin Probability	131
7.5	The Adjustment Coefficient	132
7.6	Lundberg's Inequality	135
7.7	Survival Probability	137
7.8	The Laplace Transform of ϕ	140
7.9	Recursive Calculation	144

Contents

ix

7.10	Approximate Calculation of Ruin Probabilities	153
7.11	Notes and References	156
7.12	Exercises	156
8	Advanced Ruin Theory	160
8.1	Introduction	160
8.2	A Barrier Problem	160
8.3	The Severity of Ruin	161
8.4	The Maximum Severity of Ruin	166
8.5	The Surplus Prior to Ruin	168
8.6	The Time of Ruin	174
8.7	Dividends	200
8.8	Notes and References	207
8.9	Exercises	208
9	Reinsurance	211
9.1	Introduction	211
9.2	Application of Utility Theory	211
9.3	Reinsurance and Ruin	215
9.4	Notes and References	229
9.5	Exercises	230
	<i>Appendix</i>	232
	<i>Solutions to Exercises</i>	234
	<i>References</i>	289
	<i>Index</i>	292
