.....  
Every effort has been made in preparing this book to provide accurate and up-to-date information that  
is in accord with accepted standards and practice at the time of publication. The authors, editors,  
and publishers can make no warranties that the information contained herein is totally free from error,  
not least because clinical standards are constantly changing through research and regulation. The authors,  
editors, and publishers therefore disclaim all liability for direct or consequential damages resulting from  
the use of material contained in this book. Readers are strongly advised to pay careful attention to information  
provided by the manufacturer of any drugs or equipment that they plan to use.
