Spirituality for the Godless

Many people describe themselves as secular rather than religious, but they often qualify this statement by claiming an interest in spirituality. But what kind of spirituality is possible in the absence of religion? In this book, Michael McGhee shows how religious traditions and secular humanism function as ‘schools of wisdom’ whose aim is to expose and overcome the forces that obstruct justice. He examines the ancient conception of philosophy as a form of ethical self-inquiry and spiritual practice conducted by a community, showing how it helps us to reconceive the philosophy of religion in terms of philosophy as a way of life. McGhee discusses the idea of a dialogue between religion and atheism in terms of Buddhist practice and demonstrates how a non-theistic Buddhism can address itself to theistic traditions as well as to secular humanism. His book also explores how to shift the centre of gravity from religious belief towards states of mind and conduct.

Michael McGhee is Honorary Senior Fellow in the Department of Philosophy at the University of Liverpool. A British philosopher who was educated at a Roman Catholic seminary, he later became a practising Buddhist. He is the author of Transformations of Mind: Philosophy as Spiritual Practice (Cambridge University Press, 2000), editor and co-editor of various collections on philosophy and spirituality, and a founding editor of Contemporary Buddhism.

Chad Meister, Bethel College, Indiana

This is a series of interdisciplinary texts devoted to major-level courses in religion, philosophy, and related fields. It includes original, current, and wide-spanning contributions by leading scholars from various disciplines that (a) focus on the central academic topics in religion and philosophy, (b) are seminal and up-to-date regarding recent developments in scholarship on the various key topics, and (c) incorporate, with needed precision and depth, the major differing perspectives and backgrounds – the central voices on the major religions and the religious, philosophical, and sociological viewpoints that cover the intellectual landscape today. Cambridge Studies in Religion, Philosophy, and Society is a direct response to this recent and widespread interest and need.

This book is dedicated to my wife, Rosemary, 
and to our daughters, Imelda, Eleanor, and Amy, 
in gratitude
Who would have thought my shrivel'd heart
Could have recover'd greenesse? It was gone
Quite under ground; as flowers depart
To see their mother-root, when they have blown;
    Where they together
    All the hard weather,
Dead to the world, keep house unknown
