Kavka, G., 45–46
Levi, I., 22–23, 107, 146, 216–18
Libet-type scenarios
matching games, 69–71
rock, paper or scissors, 65
Lottery, 65, 68–69
Mackie, J. L., 20–21
Matching game. See Libet-type scenarios: matching game
Maximization. See Expected utility: maximization of
McClennen, E. F., 115–16, 133–34
Meacham, C. J. G., 115–16, 134–36
Mellor, D. H., 124, 161, 174–75
Mood candles example, 77–80, 90
Morgenstern, O., 180–85
Neighborhood, of Newcomb predictor, 49
Newcomb Insurance, 198–99
Newcomb predictor
reliability of, 20–21, 25, 96–97, 123, 142–43
Newcomb problem
abstract structure of, 3–4, 21–23, 77, 138–40
as rewarding irrationality, 44, 52, 129
explanation of, 1, 19, 43, 55, 140, 201
other variants of, 119–20, 169–70
pseudo variants of, 151–59
realistic variants of
economic variants, 32–35, 105–6
medical variants, 4, 9, 23–32, 126–27, 172–73
prisoners' dilemma, 35–41, 97–98, 100–4, 188–92
voting variants, 4–5, 109–12, 194
transparent variant, 11, 50–51, 115, 120, 199–200
Newcomb-reveal. See Newcomb problem: transparent variant
Newcomb's hospital, 84–89, 94–95
Newxin puzzle, 49–52
Nozick, R., 1, 43, 123
Opportunities, 11, 63, 151–54, 157–58
C-opportunities, 84–71
E-opportunities, 63–65
Outcomes, 2, 75, 139
Parfit, D., 73–74, 84
Pargetter, R., 30–32
Pearl, J., 81, 90, 202, 205–7
Policy ineffectiveness proposition, 105–6
PP. See Principal principle
Predictor. See Newcomb predictor
Price, H., 10, 216
Principal principle, 176–79
Prisoners' dilemma. See Newcomb problem: realistic variants of: prisoners' dilemma
Psycho Insurance, 197–98
Psychobutton. See Psychopath Button
Psychopath Button, 193–94
Quantum entanglement, 10
Quinn, W., 52–54
Rationality, 44, 97, 104, 112–13, 115, 169, 182, 213
as instrumental, 42, 116, 119
Reichenbach, H., 204
Resolve choice, 47, 50–51, 133–34. See also Constrained maximization
Sargent, T., 105–6
Savage, L. J., 76, 177
Schelling, T., 117–18
Screening off, 78–81, 90, 92. See also Common cause; Event classes, restrictions to; Tickle defense
Self-torturer puzzle, 52–54
Semi-Frustrater, the.
Screening off, 78
Simpson's Paradox, 59–60
Social science, 97
Solution concept, 186
