

## THE EUROPEAN ACCOUNT PRESERVATION ORDER REGULATION

The European Account Preservation Order (EAPO) Regulation provides a protective measure for creditors wishing to freeze the bank account of their debtor, preventing the transferral or withdrawal of funds. Courts can issue freezing measures over bank accounts located in other member states, thereby establishing a new remedy for cross-border debt recovery in Europe. This book provides a detailed article-by-article commentary of the EAPO Regulation. It describes its legislative history and structure and carries out a critical analysis of its provisions and recitals, focusing on the practical implementation of the instrument. The commentary also provides additional focus on the interplay between the EAPO Regulation and the existing EU instruments and framework, and examines specific issues that the implementation of the Regulation might raise in member states. This is an important resource tool for practitioners, legal scholars and students interested in the theoretical and practical implications of the EAPO Regulation.

GILLES CUNIBERTI is Professor of Private International Law at the University of Luxembourg. He was a member of the expert group that assisted the European Commission in issuing the first draft of the EAPO Regulation and was also involved in the drafting of legislation implementing the EAPO Regulation in Luxembourg.

SARA MIGLIORINI is a senior research fellow in the Centre of Comparative, European and International Law of the University of Lausanne (Switzerland).
