

Mutual Intercultural Relations

In culturally diverse societies, one of the biggest questions on our minds is ‘how shall we all live together?’ *Mutual Intercultural Relations* offers an answer to this fundamental and topical issue. By exploring intercultural relationships between dominant/national and non-dominant/ethnic populations in seventeen societies around the world, the authors are each able to chart the respective views of those populations and to generate ‘general’ principles of intercultural relations. The research reported in this book is guided by three psychological hypotheses which are evaluated by empirical research: multiculturalism, contact and integration. It was also carried out comparatively in order to gain knowledge about intercultural relations that may be general and not limited to a few social and political contexts. Understanding these general principles will help in the development of public policies and programmes designed to improve the quality of intercultural relations in culturally diverse societies around the world.

John W. Berry is an emeritus professor at Queen’s University and a chief research fellow at the National Research University Higher School of Economics in Moscow. He has received honorary doctorates from the University of Athens, and the University of Geneva and has published over thirty books in the areas of cross-cultural and intercultural psychology with various colleagues. He is a fellow of the Canadian Psychological Association, the Netherlands Institute for Advanced Study, the International Association for Cross-Cultural Psychology and the International Academy for Intercultural Research. His main research interests are in the role of culture in human development and in acculturation and intercultural relations, with an emphasis on applications to immigration, multiculturalism, educational and health policy.

Culture and Psychology

Series Editor

David Matsumoto, *San Francisco State University*

As an increasing number of social scientists come to recognize the pervasive influence of culture on individual human behaviour, it has become imperative for culture to be included as an important variable in all aspects of psychological research, theory and practice. *Culture and Psychology* is an evolving series of works that brings the study of culture and psychology into a single, unified concept. The series includes:

Ute Schönplflug, *Cultural Transmission: Psychological, Developmental, Social, and Methodological Aspects*

Evert Van de Vliert, *Climate, Affluence, and Culture*

David Matsumoto and Fons J. R. van de Vijver, *Cross-Cultural Research Methods in Psychology*

Angela K.-y. Leung, Chi-yue Chiu and Ying-yi Hong, *Cultural Processes: A Social Psychological Perspective*

Romin W. Tafarodi, *Subjectivity in the Twenty-First Century: Psychological, Sociological, and Political Perspectives*

Yair Neuman, *Introduction to Computational Cultural Psychology*

ROBERT C. ANNIS is the former director of the Rural Development Institute at Brandon University, Canada. He has served as a professor in the Departments of Native Studies, Psychology, and Rural Development. He received his Masters degree from Queen's University, Canada, and his PhD from Strathclyde University, Scotland. He has published numerous academic articles and reports concerning demographic, social, cultural, and community development issues facing rural Canadians, and is co-author of *On the Edge of the Forest: Cultural Adaptation and Cognitive Development in Central Africa*. (1986). Dr. Annis has served on the editorial advisory board for the *Journal of Rural and Community Development*, as book review editor for the *Journal of Cross-Cultural Psychology*, and as editor of the *Bulletin of Cross-Cultural Psychology*. He is interested in the interface of policy, research, and practice, and has volunteered his time and expertise to numerous organizations. He has served as a president of the Canadian Rural Restructuring Foundation and as a member of the International Comparative Rural Policy Studies Consortium. He currently serves as chair of the Board for Community Futures, British Columbia.

ALGAE K. Y. AU is a PhD candidate in the Department of Applied Social Sciences at the Hong Kong Polytechnic University. During her undergraduate studies, she received various awards including the Scholarship for Outstanding Students, and the Outstanding Thesis Award in Psychology, and was placed on the Dean's Honours List. Her main research interests include neurocognitive, social, and cross-cultural psychology. She has published several articles in these areas. In her doctoral thesis, she investigates the interaction effect of social axioms on academic achievement among adolescents in Hong Kong.

SHABANA BANO is Assistant Professor of Psychology at Banaras Hindu University, India. She received her PhD at Banaras Hindu University.

xvi *Contributor Biographies*

She has been a Shastri Fellow at the University of Guelph (Canada). Her research interests are focused on issues of social identity, acculturation, mutual attitudes, and intercultural relations of Hindu and Muslim groups in India. Different forms of schooling, such as Sanskrit and Quranic, and their influence on social-psychological development of children and adolescents have been a central theme of her research. She has widely published in scientific journals and edited books in these areas. She is the co-author of a textbook, *Industrial and Organizational Psychology*, which has been published in Hindi. She seeks to apply her research findings for the promotion of harmonious intercultural relationships in the multicultural society of India.

JOHN W. BERRY is Professor Emeritus of Psychology at Queen's University, Canada, and a research professor, National Research University Higher School of Economics, Moscow, Russia. He received his PhD from the University of Edinburgh, and honorary doctorates from the University of Athens, and the University of Geneva. He has published over 30 books in the areas of cross-cultural, intercultural, social and cognitive psychology with various colleagues. These include *Cross-Cultural Psychology: Research and Applications*, third edition (Cambridge University Press, 2011); *Handbook of Acculturation Psychology*, second edition (Cambridge University Press, 2016); and *Immigrant Youth in Cultural Transition* (2006). He is a fellow of the Canadian Psychological Association, the Netherlands Institute for Advanced Study, the International Association for Cross-Cultural Psychology, and the International Academy for Intercultural Research. From CPA, he received the Hebb Award for Contributions to Psychology as a Science, and the award for Contributions to the Advancement of International Psychology, the Interamerican Psychology Prize from the Sociedad Interamericana de Psicología, and the Lifetime Contribution Award from IAIR. His main research interests are in the areas of acculturation and intercultural relations, with an emphasis on applications to immigration, multiculturalism, and educational and health policy.

KLAUS BOEHNKE is vice dean of the Bremen International Graduate School of Social Sciences Jacobs University Bremen and Deputy Head of the International Laboratory for Sociocultural Research at the National Research University Higher School of Economics in Moscow. He received his PhD in Psychology from Berlin University of Technology (1985). After assistant and associate professorships at the Free University of Berlin, he became a professor in the Department

of Sociology of Chemnitz University of Technology in 1993, moving to Jacobs University Bremen in 2002. He has published some 400 academic pieces, including publications in *Science*, the *American Journal of Sociology*, and the *Journal of Personality*. He is president-elect of the International Association for Cross-Cultural Psychology. His research interests cover diverse topics of political socialization.

ASTERIA BRYLKA is a researcher in the Institute for Social Innovation and Impact (ISII) at the University of Northampton, United Kingdom. She completed her PhD in Social Psychology at the University of Helsinki, Finland, in 2016. Her doctoral dissertation examined identity, and contact-related determinants of reciprocal intergroup relations in ethno-culturally diverse societies. Asteria has presented in various international conferences and published on topics such as intergroup relations and contact, national and ethnic identity, labour market discrimination and acculturation. Her research interest also includes social impact and well-being. Besides social psychology of intergroup relations, Asteria has a strong background in clinical and health psychology, and quantitative research methods.

ALOIS BUHOLZER is Professor of Educational and Social Sciences at the University of Teacher Education, Lucerne, Switzerland. He received his doctorate in educational sciences from the University of Zurich, Switzerland. He founded the Research Institute for Diversity Education, Lucerne. He now directs numerous research projects, including the evaluation of the national program on “Promotion of Integration” on behalf of the Federal Office of Migration. His research interest teaching-and-learning research with a principal focus on diversity and inclusion, as well as on the activities of teachers in inclusive schools. His current research deals with the formative assessment of teachers in inclusive school classes

SYLVIA XIAOHUA CHEN is a professor in the Department of Applied Social Sciences at the Hong Kong Polytechnic University, and also a Registered Psychologist and an associate fellow at the Hong Kong Psychological Society. She received her PhD in Psychology from the Chinese University of Hong Kong and her MA in counselling psychology from Santa Clara University, USA. Her research focuses on the social psychology of bilingualism and biculturalism, globalization and multiculturalism, personality and social behavior in cultural contexts, and cultural diversity and mental health. To this end, she has published over 60 journal articles and book chapters. She was a recipient of the

xviii *Contributor Biographies*

Early Career Award (from the International Association for Cross-Cultural Psychology), the Michael Harris Bond Award for Early Career Research Contributions, and the Jung-heun Park Young Scholar Award (both from the Asian Association of Social Psychology). She also received several academic awards from the American Psychological Association Division 52 (International Psychology), the Gallup Positive Psychology Institute, the Hong Kong Psychological Society, and the Hong Kong Association of University Women during 2004–2007. Currently, she serves as an associate editor of the *Journal of Cross-Cultural Psychology* and the *Asian Journal of Social Psychology*.

JUSTINE DANDY is a senior lecturer in the School of Arts and Humanities at Edith Cowan University. She was awarded her PhD from the University of Adelaide in 2000 and has held teaching and research positions at Flinders University and the University of Western Australia. Her research interests are in social and cross-cultural psychology, specifically cultural identity, intergroup relations, and attitudes to immigration, multiculturalism, and diversity. Her current research is focused on intercultural attitudes and relations in Australia and other culturally diverse communities. In 2011, she conducted a national study on drivers for social cohesion in multicultural Australian communities for the Ministerial Council for Multicultural Affairs. She has published extensively on attitudes to immigration and multiculturalism and is the Australian team leader for MIRIPS. She is a member of the board of the International Academy for Intercultural Research (2017–2021) and a member of the International Association for Cross-Cultural Psychology.

KEVIN DUNN is Professor of Geography and Urban Studies, Dean of Social Sciences and Psychology, Western Sydney University, Sydney, Australia. He received his PhD from the University of Newcastle (Australia). Professor Dunn's areas of research include the geographies of racism, immigration and settlement, Islam in Australia, and local government and multiculturalism. His books include *Landscapes: Ways of Imagining the World* (2003), and his recent articles are published in *Analyses of Social Issues and Public Policy*, *Race and Class*, *Ethnicities*, *The Australian Geographer*, *Studia Islamika*, the *Journal of Intercultural Studies*, and the *Australian Journal of Social Issues*. He is a fellow of the New South Wales Geographical Society and is its vice president. His Everyday Racism app received second prize in the UN competition for best community relations initiative in 2014 (from 600+ entrants).

The Everyday Racism app was also the 2014 Co-Winner of the UN global #peaceapp competition: <http://alltogethernow.org.au/news/everyday-racism-project-wins-prestigious-award/>. His co-authored *Introducing Human Geography: Globalisation, Difference and Inequality* (2000) was awarded first prize in the tertiary category for wholly Australian texts (the Australian Awards for Excellence in Educational Publishing).

MARIEKE VAN EGMOND is a scientific researcher at the University of Hagen, Germany. She obtained her Master of Sciences degree from the Radboud University, the Netherlands, and her PhD from the Bremen International Graduate School of Social Sciences at Jacobs University Bremen, in Germany, with special distinction. Upon completion of her doctoral research, she continued to work in the field of cross-cultural psychology on topics such as the strength of social norms across cultures, processes of acculturation and radicalization, and beliefs about learning and motivation from a cross-cultural perspective.

VICTORIA GALYAPINA is a leading researcher of the International Laboratory for Socio-Cultural Research and associate professor in the Department of Psychology at The National Research University Higher School of Economics, Moscow, Russia. She received her PhD in Social Psychology from the Institute of Psychology, Russian Academy of Sciences. She is a member of the International Association for Cross-Cultural Psychology. She has published more than 70 journal articles and book chapters in Russian and English. She has extensive practical experience in improving intercultural relations. She implemented scientific and practical projects on the psychological support of victims of armed conflicts and terrorist attacks in the North Caucasus. Her research interests focus on problems of intercultural relationships, mutual acculturation of ethnic minorities and majorities, and intergenerational transmission of values and social identity.

RYAN GIBSON is Libro Professor of Regional Economic Development in the School of Environmental Design and Rural Planning at the University of Guelph, Canada. He holds research and adjunct appointments with the Rural Development Institute at Brandon University, the International Centre for Northern Governance and Development at the University of Saskatchewan, and Saint Mary's University. He received his PhD from the Department of Geography at Memorial University of Newfoundland. Dr. Gibson's main research interests focus on rural development, governance, immigration and mobility,

and public policy. Recent book publications include *Place Peripheral: Place-based Development in Rural, Island, and Remote Communities* (2015) and *Building Community Resilience* (forthcoming in 2017). Dr. Gibson is the current president of the Canadian Community Economic Development Network, past-president of the Canadian Rural Revitalization Foundation, and chair of the Institute of Island Studies Advisory Board.

HECTOR GRAD is an associate professor in the Department of Social Anthropology of the Universidad Autónoma de Madrid, Spain. He received his PhD in Social Psychology at the Universidad Complutense de Madrid. His main research focuses on interdisciplinary national and international projects, studying how personal values and different constructions of nationalism affect the compatibility between national, regional, and supranational identities, and the intercultural relations in metropolitan societies. This research was published in the Spanish *Journal of Social Psychology and Journal of Language and Politics*, as well as in *Analysing Identities in Discourse* (2008) and *Families across Cultures: A 30-Nation Psychological Study* (Cambridge University Press, 2006). He is a fellow of the Institute of Migrations, Ethnicity and Social Development at the Universidad Autónoma de Madrid, and was Spanish Deputy Representative in the Rapid Response and Evaluation Network of the European Monitoring Centre on Racism and Xenophobia.

YONGXIA GUI is a lecturer in the School of Marxism at Henan University of Economics and Law in China, and teaches a general education psychology course. She received her PhD from Southwest University in Chongqing, China. She was awarded a scholarship from the China Scholarship Council to spend a year in Canada as a visiting graduate student at the University of Guelph, where she carried out research on Chinese international students. She has also carried out research on the adaptation of rural-to-urban migrant workers in China. Her current research deals with gender issues, especially the relationship between unmitigated communion (over-involvement with the problems of others) and psychological health.

ANDREA U. HAENNI HOTI is Professor of Educational and Social Sciences at the University of Teacher Education, Lucerne, Switzerland. She received her doctorate in educational sciences at the University of Fribourg, Switzerland. She has been a visiting scholar at Columbia University in New York (USA) and at the University of Hamburg

(Germany) with two grants from the Swiss National Science Foundation. She has also held a guest professorship at the University of Toronto (Canada) and at the University of Augsburg (Germany). She has carried out research projects on nationalism and xenophobia among Swiss youth and transcultural educational sciences. Her main research focus is on cultural diversity, acculturation, multilingualism, and equity in schools. Her latest research project examines the acculturation orientations of primary school students and their class teachers and how the perceived match or mismatch regarding these affects the quality of the teacher-student relationship and the psychosocial adaptation and educational success of the students.

KATJA HANKE is a senior researcher at GESIS-Leibniz Institute for the Social Sciences in Mannheim, Germany. She received her PhD from Victoria University of Wellington, New Zealand. After completing post-doctoral fellowships in Taiwan, and at the Bremen International Graduate School of Social Sciences in Germany, she was a University Lecturer and Marie Curie Fellow at Jacobs University Bremen, Germany. Her work focuses on cross-cultural and intercultural research methods. Her current research interests include intercultural relations, acculturation, applied social psychology, and measurement invariance testing.

SYBILLE HEINZMANN is a research collaborator and lecturer in foreign language didactics at the University of Teacher Education, St. Gallen, Switzerland. She received her doctorate in English Applied Linguistics from the University of Fribourg, Switzerland. Her research focuses on multilingualism and diversity in the school setting. Her main research topics are mobility, language-learning motivation, language attitudes, and intercultural skills. She has been a visiting scholar at the Department of Second Language Studies at the University of Hawai'i. Her current research examines the linguistic, motivational, and intercultural effects of exchange activities between primary school classes in German- and French-speaking Switzerland.

BRYANT P. H. HUI is a PhD student in Psychology and research associate at the University of Cambridge, England. He obtained his Masters degree in Social Sciences at the Hong Kong Polytechnic University, Hong Kong, where he developed a passion for research on cross-cultural, social, and health psychology. His Masters thesis examined the role of bicultural integration and multicultural ideology in facilitating psychological adaptation and intercultural contact, which has been

xxii *Contributor Biographies*

published in the *International Journal of Intercultural Relations*. His current research interests are centred on the interplay among individual, situational, and cultural factors in prosociality and well-being. He is also very keen on analysing multicultural (i.e., multi-town/state/nation) data sets using multilevel modelling and machine-learning algorithms.

CRISTIANO INGUGLIA is Assistant Professor of Developmental and Educational Psychology in Università degli Studi di Palermo, Italy. He received his PhD in Public Relations. He is involved in several international research projects in EU and non-EU countries. His research interests focus on the field of developmental psychology, as related to the social development of children, adolescents, and emerging adults, especially with regard to their positive development, acculturation processes, and socio-psychological adaptation, and the development of mutual intercultural relations.

INGA JASINSKAJA-LAHTI is Professor of Social Psychology at the Faculty of Social Sciences of the University of Helsinki, Finland. She has done extensive research on intergroup relations and immigrant integration in Finland and has published widely in international scholarly journals. Her most recent research interests concern the reciprocity of intergroup relations and identity negotiations in an immigration context with a focus on both majority-minority and minority-minority relations. Currently, she is leading the project focussing on inter-ethnic and inter-religious relations in Finland, Estonia, and Norway (SOPU; Kone Foundation), which is a multidisciplinary study on the building blocks of secure neighbourhood. She is also an associate editor of the *International Journal of Intercultural Relations*.

JOLANDA JETTEN is Professor of Social Psychology at the University of Queensland. She received her PhD from the University of Amsterdam. She received an ARC Future Fellowship and took up a three-year UQ Development Fellowship in 2017. Her research is concerned with group processes, social identity and intergroup relations, as represented by her most recent books: *The Wealth Paradox* and *The Social Cure*. She has published over 140 peer-reviewed articles, over 35 chapters and four books. Jolanda is the former co-chief editor of the *British Journal of Social Psychology (BjSP)* and currently serves as co-chief editor of *Social Issues and Policy Review*. She has also served as an associate editor for the *BjSP*, and is currently an associate editor with *Comprehensive Results in Social Psychology*. She was awarded the British

Psychological Society Spearman Medal in 2004 and the Kurt Lewin Medal from the European Association of Social Psychology in 2014. Jolanda is the former president of the Society of Australasian Social Psychology and served on the Australian Research Council College of Experts. She was elected as fellow of the Association of Social Sciences in Australia in 2015.

JÜRI KRUSVALL is a researcher and lecturer at the School of Governance, Law and Society, Tallinn University. He received his PhD from Tartu University in Psychology. His main research interests include sociology of interethnic relations, sociology of youth and education, and environmental sociology.

ROLAND KÜNZLE is Lecturer in Educational and Social Sciences at the University of Teacher Education, Lucerne, Switzerland. He has taught at the secondary-school-level for some years after studying mathematics and natural sciences at the University of Fribourg, Switzerland. His work consists in training teachers of kindergarten, primary, and secondary schools. As a research associate in the Department of Research and Development, he has been involved in various research projects in the following research areas: didactics of geography, dealing with acculturation and intercultural education, integrative promotion, career starts of teachers, new media, and school social work. His current research project examines the issue of the expectations held by different actors in school social work, being carried out at the University of Teacher Education, Lucerne, in cooperation with the Lucerne School of Social Work.

LARISSA KUS-HARBORD is a research advisor in the New Zealand Police Department (Response and Operations Research and Evaluation group). She received her PhD in Psychology from Victoria University of Wellington, New Zealand. She recently completed a Mobilitas post-doctoral research project “The Impact of Power Reversal, Social Changes, and Division between Ethnic Groups on Intergroup Relations and Subjective Well-Being” at the Institute of International Social Studies in Tallinn University. Her research interests and publications focus on acculturation, intergroup relations, subjective well-being, and social representations of history.

MARY ANNE LAURI is Professor of Social Psychology at the University of Malta and a visiting fellow at the London School of Economics and Political Science, UK. She received her PhD from the London School

xxiv *Contributor Biographies*

of Economics. She is past president of the Maltese Psychological Association. Between 2006 and 2016, she served as pro-rector at the University of Malta. She has co-authored several publications and published in both local and international journals. She sits on various boards both within and outside the University of Malta. Her areas of research include media psychology, social marketing, social representations, and well-being. She remains actively involved in political, media and voluntary organisations.

NADEZHDA LEBEDEVVA is a professor in the Department of Psychology and is the head of the International Laboratory for Socio-Cultural Research at The National Research University Higher School of Economics in Moscow, Russia. She received her PhD from the Institute of Psychology, Russian Academy of Sciences. She is academic director of the Masters Program on Applied Social Psychology of the Higher School of Economics and Tilburg University, The Netherlands. She is a member of the International Association for Cross-Cultural Psychology, and the International Academy for Intercultural Research. She is the author or editor of 26 books, and over 250 articles and book chapters on social and cross-cultural psychology. Her research interests are values, value transmission, identity, intercultural relations, acculturation, creativity and innovations, and social and cultural change.

ZARINA LEPHOKOVA is a senior researcher in the International Laboratory for Socio-Cultural Research and associate professor in the Department of Psychology at the National Research University Higher School of Economics, Moscow, Russia. She received her PhD from the National Research University Higher School of Economics, Moscow, Russia. She is a member of the International Association for Cross-Cultural Psychology. She has published a monograph *Adaptation Strategies of Migrants and Their Psychological Well-Being (the Cases of Moscow and the North Caucasus)* and over 30 articles in the areas of acculturation, cross-cultural, intercultural and social psychology with various colleagues. Her research interests focus on problems of intercultural relationships, mutual acculturation of ethnic minorities and majorities, multiple identities and their perceived incompatibility, social disidentification, and intergenerational transmission of values and social identity.

ALIDA LO COCO is Full Professor of Developmental and Educational Psychology and coordinator of the PhD program in Psychological

and Behavioral Sciences at the Department of Psychological, Educational and Training Science, Università degli Studi di Palermo, Italy. She is Rector's Delegate for Vocational Guidance. In past years, she was coordinator of the Developmental and Educational Psychology Section of the Italian Psychological Association. Her research interests are focused on such topics as social, emotional, and personality development; peer relationships and friendship, empathic responsiveness, students' academic and psychological adjustment, intercultural relations, autonomy and relatedness during adolescence, and cultural studies.

MARIANNA MAKAROVA is a PhD candidate at the School of Governance, Law and Society of Tallinn University, Estonia. Her research focus is on the relations between history, socio-economic status, and inter-group hierarchy on the one hand and identity formation, strength of identity, and identity motivation, on the other. Marianna works currently as the head of research development at the Estonian Integration and Migration Foundation, which is a state agency within the Estonian Ministry of Culture.

RAMESH C. MISHRA is Professor of Psychology at Banaras Hindu University, India. He received his DPhil from the University of Allahabad. He has been a post-doctoral research fellow and Shastri Research Fellow at Queen's University (Canada) and a visiting professor at the Universities of Konstanz (Germany) and Geneva (Switzerland). He has also been a fellow-in-residence at the Netherlands Institute of Advanced Study and a Fulbright Scholar-in-Residence at Wittenberg University (USA). He is the Fellow and a past president of the National Academy of Psychology (India). His research has focused on understanding ecological and cultural influences on human development. He is the co-author of *Ecology, Acculturation and Psychological Adaptation: A Study of Adivasis in Bihar* (1996), *Development of Geocentric Spatial Language and Cognition: An Eco-Cultural Perspective* (2010), *Ecology, Culture and Human Development: Lessons for Adivasi Education* (2017) and co-editor of *Psychology in Human and Social Development: Lessons from Diverse Cultures* (2003).

FROSSO MOTTI-STEFANIDI is Professor of Psychology at the National and Kapodistrian University of Athens, Greece. She received her PhD from the Institute of Child Development, University of Minnesota. She is a recipient of the Distinguished International Alumni Award of the

College of Education and Human Development of the University of Minnesota and a fellow of the Association for Psychological Science. She has served as president of the European Association of Developmental Psychology and as president of the European Association of Personality Psychology. She currently serves on the Governing Council of the Society for Research in Child Development. Her main research interests center on the study of immigrant youth adaptation, development, and acculturation. She has developed (together with Ann Masten, Jens Asendorpf, and Vassilis Pavlopoulos) the Athena Studies of Resilient Adaptation longitudinal project, which is framed from within a resilience developmental perspective. It includes two longitudinal studies one conducted before and the other during the Economic Recession in Greece. She is author of over 150 papers and chapters in Greek and English, two books in Greek, and is co-editor of the book *Positive Youth Development in Global Contexts of Social and Economic Change* (2017).

MARIANNE MÜLLER is Professor of Statistics at Zurich University of Applied Sciences and a Lecturer for Biostatistics at the Swiss Federal Institute of Technology, Zurich, and a statistician at the University of Teacher Education, Lucerne. She received her doctorate in mathematics at the University of Zurich, Switzerland. Within the framework of a postdoctoral fellowship of the Swiss National Fund, she then worked for two years at Queen Mary & Westfield College of the University of London in the field of experimental design. As a research associate at the Institute for Social and Preventive Medicine in Berne, she was jointly responsible for the design and data analysis in social and health science studies and thus became acquainted with the practical aspects of statistics. She is an expert in the field of scale development, in particular Rasch modeling and is involved in the software development for Rasch modeling within an international team of the European Rasch Training Group. She is the author of a fundamental book on statistics for health sciences, *Statistik für die Pflege. Handbuch für die Pflegeforschung und -wissenschaft* (2011).

PASQUALE MUSSO is a research fellow at the Università degli Studi di Palermo, Italy. He obtained his Master's degree in Developmental and Educational Psychology and a PhD in Public Relations at the University of Palermo, Italy. He has ongoing participation in different research projects in European and non-European countries. His research interests focus on issues in developmental psychology, as related to the social development of adolescents and emerging adults,

especially to their positive development, acculturation processes and socio-psychological adaptation, and the development of mutual intercultural relations. He is actively involved in international professional service as president-elect of the Early Researchers Union of the European Association of Developmental Psychology.

FÉLIX NETO is Professor Catedrático of Psychology in the Faculdade de Psicologia e de Ciências da Educação at the University of Porto, Portugal, and director of the Psychology Doctoral Programme at the University of Porto. He earned a PhD in Normal and Abnormal Anthropology from the École des Hautes Études en Sciences Sociales, France, and a PhD in Social Psychology from the Faculdade de Psicologia e de Ciências da Educação, Universidade do Porto, Portugal. He obtained a Habilitation in psychology at the University of Coimbra in 1990. He was previously coordinator of the Master on Cross-Cultural Relations at Universidade Aberta and director of the Center of Cognition and Emotion. His research interests focus on migration, gender stereotypes, racial attitudes, love, loneliness, forgiveness, happiness, and implicit cognitions. He is author of 18 books in the areas of social psychology and cross-cultural psychology, and over 300 papers published in Portuguese, English, French, Catalan, Spanish, and Italian.

JOANA NETO is an assistant researcher at the Universidade Católica Portuguesa, Portugal. She received her PhD in Cognitive Psychology, from the École Pratique des Hautes Études, France, and her Masters degree in Social Economics from the Universidade Católica Portuguesa, Portugal, and Masters degree in Human Resource Management and Economics from Universidade do Porto, Portugal. She has also worked as a social value analyst. Her research interests are focused on issues of cross-cultural, social and cognitive psychology and economics, social economics and international human resource management. She has published her research in these areas in scientific journals and edited books.

YIN PARADIES is Professor of Race Relations and deputy director (research) at the Alfred Deakin Research Institute for Citizenship and Globalisation, Deakin University, Australia. He received his PhD from the University of Melbourne, Australia. He has authored more than 150 publications and is an invited reviewer for over 70 journals, with his work published in the highest-ranking journals of several disciplines, including: *Social Science and Medicine*, *International Journal of*

xxviii *Contributor Biographies*

Epidemiology, Ethnic and Racial Studies, and the *Journal of General Internal Medicine*. He conducts interdisciplinary research on the health, social, and economic effects of racism as well as anti-racism theory, policy, and practice. With a focus on Australia and Brazil, his research is undertaken across diverse settings, including workplaces, schools, universities, housing, the arts, museums and healthcare.

VASSILIS PAVLOPOULOS is Associate Professor of Cross-Cultural Psychology at the Department of Psychology, National and Kapodistrian University of Athens, Greece. He received his PhD in Social Psychology from the National and Kapodistrian University of Athens. He is associate editor of *Psychology: The Journal of the Hellenic Psychological Society*. He has been coordinator of the Social Psychology section of the Hellenic Psychological Society. He has published more than 70 papers in English and in Greek, in the form of journal articles or book chapters. Also, he is co-editor of two social psychology volumes in Greek. His research interests focus on acculturation and intercultural relations, positive adaptation of immigrant youth, perceived discrimination, beliefs about justice, cross-cultural study of personal and political values, and the cultural correlates of behavioural intentions.

MAARIS RAUDSEPP is a senior researcher at the Institute of International and Social Studies in the School of Governance, Law and Society of Tallinn University, Estonia. She received her PhD in Psychology from the University of Tartu, Estonia. Her research focus is on the forms of group identity, representations of ethnic outgroups in the media, relations between ethnic self-esteem and attitudes towards the outgroup, social representations of human rights and equal treatment, promotion of intergroup trust, processes of acculturation, and autobiographical memory and personal meaning construction.

TUULI ANNA RENVIK is University Lecturer in Social Psychology at the Open University of the University of Helsinki, Finland. She received her PhD from the University of Helsinki. Her research interests include intergroup relations, acculturation, and immigrant integration. Most recently she has worked in a research project concerned with the most pertinent pre- and post-migration factors in the long-term adaptation of immigrants from Russia to Finland. Currently, she is involved in research projects on everyday understandings of multiculturalism, subjective perceptions of changing intergroup contexts, and prejudice reduction in schools.

LENA ROBINSON is Professor of Social Work and Human Services at Central Queensland University, Australia. She received her PhD at the University of Surrey, UK. She is an international scholar, who has delivered guest/public lectures and conference papers in London, India, South Africa, Ethiopia, Singapore, Indonesia, China, Australia, Canada, Sweden, and the United States. In 2003, she was a Fulbright scholar in residence at Central Connecticut State University. She has also worked in Mozambican and British universities. Professor Robinson has published and researched widely in the field of race, ethnicity, immigration, cross-cultural psychology, and social-work practice.

ANETTE ROHMANN is Professor of Community Psychology at the University of Hagen, Germany. She obtained her DrPhil at the University of Münster. Her current research interests include acculturation, social diversity and intercultural communication, cross-group contact, and theory-practice exchange. She is a member of the Research Center for the Psychological Study of Individual and Community Change, a research center at the University of Hagen dedicated to understanding how individuals and communities manage social, demographic and/or cultural change.

TATIANA RYABICHENKO is a research fellow at the International Laboratory for Sociocultural Research and a lecturer at the Department of Psychology National Research University Higher School of Economics, Russia. She obtained her Masters degree in Psychology from the Higher School of Economics, and is involved in several research projects of the laboratory sponsored by The Higher School of Economics and the Russian Science Foundation. She is a member of International Association for Cross-Cultural Psychology. Her research interests focus on intercultural relations, adaptation of migrants and ethnic minorities, cultural continuity, value transmission in ethnic minority and ethnic majority families, and comparative studies on individual values and acculturation

SABA SAFDAR is Director of the Centre for Cross-Cultural Research at the University of Guelph, Canada. She received her PhD from York University, Canada. With her graduate students, Professor Safdar conducts research examining the wide range of factors that are relevant in understanding the adaptation processes of newcomers including immigrants, refugees, and international students. Professor Safdar is associate editor of the *International Journal of Intercultural Relations*

xxx *Contributor Biographies*

and member of the editorial board of the *Journal of Cross-Cultural Psychology*. Professor Safdar has led and participated in large number of multidisciplinary and multicountry projects and has held academic appointments in Canada, the USA, the UK, France, Spain, India, and Kazakhstan.

DAVID LACKLAND SAM is Professor of Cross-Cultural Psychology at the University of Bergen, Norway. He obtained a BSc (Honors) degree in Psychology from the University of Ghana, before migrating to Norway as a student, where he received his PhD from the University of Bergen, Norway. He divides his position at the University of Bergen between the Department of Psychosocial Science (Faculty of Psychology) and the Centre for International Health (Faculty of Medicine and Dentistry). He teaches courses in cross-cultural psychology, medical anthropology and cultural psychiatry. His research interests include psychology of acculturation, and the role of culture in health. Sam has published extensively on young immigrants' psychological adaptation in general, and from a cross-cultural comparative perspective. Sam was co-editor of two books on acculturation (in 2006), and a co-author of the third edition of *Cross-cultural Psychology: Research and Applications* (Cambridge University Press, 2011). His latest book is the second edition of *the Cambridge Handbook of Acculturation Psychology* (2016), which he edited together with John W. Berry. Sam is a fellow of the International Academy of Intercultural Relations and is the incoming president of this Academy. He has also served as an executive board member of the International Association for Cross-Cultural Psychology.

GORDON SAMMUT is Senior Lecturer in Social Psychology at the University of Malta and a visiting fellow at the London School of Economics and Political Science. He received his PhD from the London School of Economics. His interests concern intercultural and intergroup relations, the theory of social representations, modalities of social influence, and issues relating to divergent perspectives in social relations. He is co-editor of *Papers on Social Representations* and chief-editor of *Cultural Encounters and Social Solidarity* (special issue: *Papers on Social Representations*, 2011), editor-in-chief of *The Cambridge Handbook of Social Representations* (2015), *Understanding Self and Others: Explorations in Intersubjectivity and Interobjectivity* (2013), and *Methods of Psychological Intervention: Yearbook of Idiographic Science*, Vol. VII.
