- Japanese, 35–36, 58, 62, 71, 102
- lateral time. *See* axes
- linear time, 156
- Mandarin Chinese, 33–35, 55, 58, 63–64, 66, 91, 92–94, 95, 100, 102, 116, 126, 130, 140, 141–144, 153–154
- mapping enforcement principle. *See* metaphor, theoretical treatments of
- mappings, metaphorical, 14–19, 25–26, 30, 48, 60, 64, 71, 78, 90, 94, 103, 134, 149–150
- Mayan languages  
 Tzeltal, 54–55, 67
- measures, real-life, 128–130
- mental spaces theory. *See* metaphor, theoretical treatments of
- mental timeline. *See* timeline
- metaphor identification procedure, 21
- metaphor, theoretical treatments of  
 blending theory, 20  
 classical approach, 9  
 comparison view, 10  
 conceptual metaphor theory, 15–16  
 correlation principle, 18  
 dynamic view, 21  
 generic-level structure, 18, 34  
 interactional view, 13  
 invariance principle, 17–18  
 mapping enforcement principle, 18  
 mental spaces theory, 19  
 neural theory, 32  
 primary metaphor theory, 31–33  
 resemblance metaphor, 21  
 specific-level structure, 34
- metaphors, conceptual  
 actions as transfers, 18  
 affection as warmth, 32  
 anger as a pressurized container, 34–36  
 animals as people, 17  
 arguments as war, 31  
 character perception as contact between perceiver and perceived, 150  
 conduit metaphor, 30  
 crime as a beast, 22  
 crime as a virus, 22  
 difficulty as hardness, 32  
 earlier as down, 67, 96, 104  
 earlier as left, 98, 99, 104, 107–108  
 earlier as right, 99  
 earlier as up, 66, 104  
 great chain of being metaphor, 17  
 happiness as being off the ground, 34  
 happy as light, 33–34  
 happy as up, 33  
 ideas as food, 16  
 immorality as down, 42  
 knowledge as vision, 32, 60, 150  
 later as down, 66, 104  
 later as left, 99  
 later as right, 98, 99, 104, 107–108  
 later as up, 67, 96  
 less as down, 40–41  
 less as left, 40–41  
 life as a journey, 64, 150  
 love as a journey, 16, 21, 31  
 love as a nutrient, 21  
 love as a war, 21, 22  
 love as an economic exchange, 22  
 means as paths, 32  
 morality as up, 42  
 more as right, 40–41  
 more as up, 31, 40–41  
 more power as up, 38  
 musical pitch as height, 42  
 musical pitch as thickness, 43  
 negative as down, 41  
 negative as left, 41  
 people as animals, 17, 18  
 positive as right, 41

- positive as up, 41  
 quantity as vertical elevation, 32  
 sadness as down, 21  
 sequence as relative position on a path, 62, 64–65  
 similarity as proximity, 32, 38  
 social organizations as plants, 16  
 strength as durability, 18  
 theories as buildings, 16  
 time as a resource, 23, 157  
 time as a valuable commodity, 23  
 time as length, 2, 156  
 time as money, 2, 23, 31  
 time as motion, 2, 71, 84  
     time as motion of an object, 24  
     time as motion over a landscape, 24, 98  
     time as quantity, 156  
 metric time, 101, 103, 104, 107  
 military time, 107  
 motion verbs, 69–70, 73–80  
 motivations, approach and avoidance, 113–123  
 moving attention, 99  
 moving ego, 24–26, 43–47, 68, 90–93, 96–98, 113–132, 153–156  
 moving time, 24–26, 43–47, 68, 90–93, 96–98, 113–132, 153–156  
  
 natural disaster, 142  
 neural theory. *See* metaphor, theoretical treatments of  
  
 orthography direction, 99–101, 104  
  
 Papuan languages  
     Yupno, 54, 95–96  
 pathogen threat, 143  
 Persian, 33, 34  
 person, grammatical, 90  
 personality, 119, 123–128  
 Polynesian languages  
     Marquesan, 53  
     Tongan, 53  
 Pormpuraaw, 108–109  
 primary metaphor theory. *See* metaphor, theoretical treatments of  
  
 prototypical person, 112  
 protracted duration, 1  
 psychological reality, of metaphors, 37–48  
  
 reaction time studies, 39–42, 82, 101–103  
 reference point  
     ego-reference-point, 27, 58–62  
     time-reference-point, 27, 62–66  
 resemblance metaphor. *See* metaphor, theoretical treatments of  
  
 sequential time, 26–27, 47, 57  
 sign language, 59–60, 67  
 source domain. *See* domains, source and target  
 Spanish, 69–70, 73–80, 101, 135–138
