 Murray praises single expansion engine,
 337
- Scarlett family
 major role in reviving PSNC, 222
 patronage of PSNC, 204
- Scarlett, James (Baron Abinger)
 attorney-general under Canning, 209
 high-income barrister, 209
 sympathy for Canning's politics, 209
 Whig MP, 209
- Scarlett, Peter Campbell
 account includes Wheelwright's project,
 209
 diplomat in Rio de Janeiro, 209
 meets Wheelwright on West Coast, 209
Peru spectacle, 215
 political importance of coal to Chile, 220
 proposes a canal across Panama, 209
 PSNC director, 212
Times reviews his account of travels, 209
 travels across S. America (1835), 209
 youngest son of James, 209
- Scarlett, Robert (MP)
 brother of Peter Campbell, 212
 PSNC director, 212
- School of Naval Architecture, 47
- Scotia* (Cunard)
 final Cunard mail paddle-steamer,
 311–12
 Mansel's role in designing, 311–12
- Scotsman, The*, 25
 spectacle of *Forth's* launch at Leith, 147
- Scott, John
 Alfred Holt's friendship, 338–39
 builder of *Oneida*, 348
 compound-engine defence, 329
 Greenock shipbuilder and engineer, 323
 iron screw experimental *Thetis*, 323,
 338–39
 marketing high-pressure motive power, 327
 model experiments, 324
 printed report of *Thetis's* engine trials, 327
 printed report on *Thetis* sea voyages, 327
 record-breaking clipper *Lord of the Isles*,
 324
 reputation as naval architect, 324
 studies at Glasgow University, 309, 324
 tea-clipper builder, 340
 thermodynamic language of, 327
Thetis high-pressure engines, 328
 trials with high-pressure steam, 324
- Scott, Sinclair
 Greenock engine builders, 232
 side-lever engine for RMSP, 142
- Scott, Sir Walter
 likely inspiration for Anderson, 233
 Romantic novelist, 228
 Sutherland's literary favorite, 357
- Scottish Christian Journal*, 23
- Scotts of Greenock. *See also* Scott, John
 RMSP contract for two steamships, 141
 subcontract one hull to Macmillan, 141
- screw steamers
 advantage of coal economy, 367
 disadvantage for mail lines, 367
 enhanced sailing qualities of, 367
 Grantham as advocate of, 269–70
Great Britain problems, 7
 HMS *Rattler* trials, 7
 less good time-keeping than paddle, 367
 lower-powered engines of, 367
 more economical in light weather, 367
 passenger discomfort, 7–8
 sail-assistance of, 367
 steadying effects of sail, 367
 uncomfortable rolling of, 367
