CONTENTS

Preface ix

Acknowledgments xi

NANOMECHANICS, TRIBOLOGY AND NANOSTRUCTURES

**Comprehensive Mechanical and Tribological
Characterization of Ultra-Thin-Films** 3
Norm Gitis, Michael Vinogradov, Ilja Hermann,
and Suresh Kuiry

**Mechanical Response of a Single and Released InP
Membrane** 9
Eric Le Bourhis and Gilles Patriarche

Indentation Response of Nanostructured Turfs 15
A.A. Zbib, S. Dj. Mesarovic, D.F. Bahr,
E.T. Lilleodden, J. Jiao, and D. McClain

Effect of Hydrostatic Pressure on Indentation Modulus 21
W.M. Mook and W.W. Gerberich

SIZE EFFECTS AND INDENTATION OF THIN FILMS

**Microstructural Investigation of the Deformation Zone
Below Nano-Indents in Copper** 29
Martin Rester, Christian Motz, and Reinhard Pippan

**Microstructure and Mechanical Properties Characterization
of Nanocrystalline Copper Films** 35
Nursiani Indah Tjahyono and Yu Lung Chiu

*** Mechanical Properties of 3C-SiC Films for MEMS
Applications** 41
Jayadeep Deva Reddy, Alex A. Volinsky,
Christopher L. Frewin, Chris Locke, and
Stephen E. Sadow

*Invited Paper

Cambridge University Press

978-1-107-40859-3 - Fundamentals of Nanoindentation and Nanotribology IV: Materials

Research Society Symposium Proceedings: Volume 1049

Editors: Eric Le Bourhis, Dylan J. Morris, Michelle L. Oyen, Ruth Schwaiger and Thorsten Staedler

Table of Contents

[More information](#)

Strength Measurement in Brittle Thin Films	49
Oscar Borrero-Lopez, Mark Hoffman, Avi Bendavid, and Phil J. Martin	

NANOTRIBOLOGY AND FRICTION

Measurement of Ultrathin Film Mechanical Properties by Integrated Nano-Scratch/Indentation Approach	57
Ashraf Bastawros, Wei Che, and Abhijit Chandra	

Theory of Lubrication Due to Poly-Electrolyte Polymer Brushes	63
Jeffrey B. Sokoloff	

Tip-Induced Calcite Single Crystal Nanowear	69
Ramakrishna Gunda and Alex A. Volinsky	

Study on the Local Damage Mechanisms in WC-Co Hard Metals During Scratch Testing	75
Siphilisiwe Ndlovu, Karsten Durst, Heinz Werner Hoepfel, and Mathias Goeken	

MODELING, SIMULATION AND ANALYSIS OF INDENTATION DATA

Mapping of the Initial Volume at the Onset of Plasticity in Nanoindentation	85
T.T. Zhu, K.M.Y. P'ng, M. Hopkinson, A.J. Bushby, and D.J. Dunstan	

* Quasi-Static and Oscillatory Indentation in Linear Viscoelastic Solids	93
Yang-Tse Cheng and Che-Min Cheng	

Indentation of Nonlinearly Viscoelastic Solids	99
Michelle L. Oyen	

Determination of Residual Stress and Yield Stress Simultaneously by Indentation Method with Dual Indenters	105
Baoping Xu, Xinmei Wang, and Zhufeng Yue	

*Invited Paper

Table of Contents

[More information](#)

Instrumented Indentation Contact with Sharp Probes of Varying Acuity	111
Dylan J. Morris	
An Algorithm to Determine the Plastic Properties of Materials Based on the Loading Data in Single Sharp Indentation	117
Akio Yonezu, Hiroyuki Hirakata, and Kohji Minoshima	
Plasticity Characteristics Obtained Through Instrumental Indentation	123
Yuliy Milman, Sergey Dub, and Alex Golubenko	
Nanoindentation Analysis of Plasticity Evolution During Spherical Microindentation of Bulk Metallic Glass	129
Byung-Gil Yoo and Jae-il Jang	
Reverse Plasticity in Nanoindentation	135
Yongjiang Huang, Nursiani Indah Tjahyono, Jun Shen, and Yu Lung Chiu	
Uniaxial Compression Behavior of Bulk Nano-Twinned Gold From Molecular Dynamics Simulation	141
Chuang Deng and Frederic Sansoz	
<i>NANOMECHANICS OF POLYMERS, TIME DEPENDENT CHARACTERIZATION</i>	
Interfacial Characterization of Multiple Layer Coatings on Thermoplastic Olefins (TPO)	149
Aaron M. Forster, Chris A. Michaels, Justin Lucas, and Lipiin Sung	
Viscoelastic Behavior of a Centrally Loaded Circular Film Being Clamped at the Circumference	157
Michelle L. Oyen, Kuo-kang Liu, and Kai-tak Wan	
Analysis of Indentation Creep	163
D.S. Stone and A.A. Elmustafa	
Haasen Plot Activation Analysis of Constant-Force Indentation Creep in FCC Systems	169
Vineet Bhakhri and Robert J. Klassen
