978-1-107-41428-0 - Conduction of Electricity Through Gases: Third Edition: Volume II

Sir J. J. Thomson and G. P. Thomson

Table of Contents

[More information](#)

## CONTENTS OF VOLUME II

CHAP.	PAGE
I. Some Properties of Cathode Rays . . . . .	1
II. Wave Properties of Cathode Rays . . . . .	17
III. The Collisions of Electrons with Gas Molecules . . . . .	43
IV. Ionisation by Positive Ions . . . . .	117
V. Reflected and Secondary Electrons from Solids . . . . .	180
VI. Ionisation by X-rays . . . . .	222
VII. Ionisation due to Chemical Action, the Bubbling of Air through Water, and the Splashing of Drops . . . . .	278
VIII. Discharge through Gases at Low Pressures . . . . .	292
Section A. The Dark Space . . . . .	293
Section B. The Negative Glow . . . . .	349
Section C. The Faraday Dark Space . . . . .	358
Section D. The Positive Column . . . . .	362
Section E. The Striated Positive Column . . . . .	380
Section F. Anode Drop in Potential and Anode Glow . . . . .	401
Section G. Effect of Magnetic Force on the Electric Discharge . . . . .	406
Section H. The 'Abnormal' Discharge . . . . .	417
Section I. Gas Rectifiers and Relays . . . . .	428
Section J. The Ring Electrodeless Discharge . . . . .	431
Section K. Intermittence in the Electric Discharge . . . . .	447
Section L. Disintegration of the Cathode and Adsorption of Gas . . . . .	458
IX. Spark Discharge . . . . .	470
X. The Electric Arc . . . . .	574
Name Index . . . . .	599
Subject Index . . . . .	605
