[More information](#)

INDEX.

- Accumulation, on land, 68–75
- Alluvial Plain, 73
- Alluvium, 73
- Alps, uplift of, 198
- Alteration of rocks, 115–120
- Ammonites, 180
- Arched strata, 14
- Ashes, volcanic, 108, 109
- Auvergne, volcanoes of, 105, 106

- Basalt, 113
- Basin, of strata, 17
- Bath Oolites, 178
- Beaches, 63, 65
- Bedding, of strata, 12
- Beds, 11, 12
- Belemnites, 181
- Block mountains, 94, 95
- Boulder-clay, 203–209
- Boulders, glacial, 59, 60
- Bronze implements, 220

- Calcareous rocks, 81
- Cambrian rocks, 150–156
- Carboniferous rocks, 161–168
- Caverns, 45; relics in, 216, 217
- Chalk, 185–190
- Cleavage, 19, 119, 120
- Cliffs, sea, 63
- Climate, 121–126

- Coal measures, 163
- Coastal deposits, 78
- Colorado, gorge of, 41
- Cones, volcanic, 102–108
- Conglomerate, 79
- Contorted beds, 17
- Corallian rocks, 179
- Coral reefs, 81, 137
- Crags, of Pliocene age, 201
- Craters, 104
- Cretaceous rocks, 185–190
- Crevasses, 54
- Cropping out, 16
- Crystals, 9

- Deltas, 74
- Deposits, 24, 25, 76–83
- Depression, 86
- Deserts, 47–50, 72, 74, 98, 123, 125
- Destruction of land, 22, 23
- Devonian rocks, 158–161
- Dip of beds, 14
- Domes, 17
- Dunes, 72
- Dykes, 107, 113

- Early Stone period, 212–218
- Earthquakes, 25, 85
- Elevation, 86
- Eocene rocks, 191–197

INDEX.

Erosion, 27-67, 91-99

Fan-structure, 93

Faults, 19

Felspar, 79

Fjords, 86, 87

Flint, 78, 186, 187

Flint implements, 213-215

Fold-mountains, 92, 93

Foliation, 20

Fossil plants, 134

Fossils, 127-138

Frost, 98

Frost, action of, 28, 29

Gault, 186

Glacial period, 124

Glaciers, action of, 51-61; movement of, 52-54

Glassy rocks, 9, 109

Gorges, 39, 40

Granite, 113

Graptolites, 152

Great Ice Age, 203-209

Greenland, 61

Greensand, 186

Hampshire Basin, 192

Hastings sands, 185

Himalayas, uplift of, 198

Ice, action of, 35, 51-61

Ice Age, Great, 203-209

Icefall, 54

Igneous rocks, 8, 100-114

Implements, stone, 213

Inclined strata, 14

Intermediate rocks, 100

Iron implements, 220

Joints, 18

Jurassic rocks, 177-184

Kimeridge clay, 179

Lakes, 74, 93

Lamination, 13

Late Stone period, 213, 218, 219

Lava, 101

Lias, 178

Limestones, 80-83, 118

London Basin, 192

London clay, 192; fossils of, 195

Magnesian Limestone, 171, 172

Man, appearance of, in Britain, 213-218

Millet-seed sands, 50, 72

Millstone grit, 163

Miocene times, 198-202

Moraines, 55, 56, 206

Mountains, 88, 92-94, 97, 98

Mountain Limestone, 162, 163

Movements of earth's crust, 84-90; influence of, on surface features, 91-99

Muds, mudstones, 55, 56, 206

Needles, of rock, 64

New Red Sandstone, 169-176

Niagara, Falls of, 38, 39

Nummulites, 194

Old Red Sandstone, 158-161

Oolites, 178

Ooze, 82, 83

Ordovician rocks, 150-157

Organic deposits, 25

Outcrop, 16

Oxford clay, 149

Permian rocks, 169-176

Petrifactions, 127

Phosphate of lime, 80

Planes formed by sea, 66

Cambridge University Press

INDEX.

229

- Plateaux, 88, 94, 112
 Pleistocene period, 203–218
 Pliocene beds, 201, 202
 Plutonic rocks, 100, 113
 Portland beds, 179
 Pot-holes, 39, 40
 Precambrian rocks, 145–150
 Primary rocks, 142, 143, 148–168
 Purbeck beds, 179
 Pyramids of Egypt, 194

 Quartz, 78, 79

 Rain, action of, 29, 30
 Rainwash, 71
 Recent period, 218–221
 Rivers, action of, 35–46, 96–98
 River-terraces, 73; human relics
 in, 217
 Rock, definition of, 6; sedimentary,
 8; igneous, 8

 Saddles, of strata, 17
 Sand-blast, 48, 49
 Sandstones, 79, 115
 Schist, 20, 120
 Scratches, glacial, 59
 Scree, 71
 Sea, action of, 62–67
 Sea-lochs, 86, 87
 Secondary rocks, 142, 143, 177–190
 Sedimentary rocks, 8
 Series, 143
 Serpentine, 118

 Shales, 13, 79
 Shingle-spits, 65
 Silica, 80
 Silurian rocks, 150–157
 Slates, 20, 120
 Snow-fields, 52
 Soils, 69, 71, 130
 Sphinx, of Egypt, 49
 Stages, 143
 Strata, 11
 Stratification, 12
 Strike, 15
 Systems, 142

 Tertiary rocks, 142, 143, 191–221
 Transportation of sediment, 27,
 31–34
 Triassic rocks, 169–176
 Trilobites, 153
 Troughs, of strata, 14, 17
 Tundras, 125

 Unconformity, 66, 87, 141
 Underclay, 163

 Veins, volcanic, 113
 Vesicles in lava, 111, 112
 Volcanoes, 100–112
 Volcanic rocks, 100–112

 Waterfalls, 38, 39
 Weald clay, 185
 Weathering of rocks, 27–31
 Wind, action of, 32, 33, 47–50
