

Contents

<i>Preface</i>	<i>page vii</i>
1 Basic Properties	1
1.1 The Definition of Catalan Numbers	1
1.2 The Fundamental Recurrence	2
1.3 A Generating Function	3
1.4 An Explicit Formula	4
1.5 Fundamental Combinatorial Interpretations	5
1.6 A Combinatorial Proof	12
2 Bijective Exercises	15
3 Bijective Solutions	56
4 Additional Problems	101
5 Solutions to Additional Problems	138
Appendix A In the beginning...	171
Appendix B History of Catalan Numbers (by Igor Pak)	177
B.1 Ming Antu	177
B.2 Euler and Goldbach	178
B.3 Euler and Segner	179
B.4 Kotelnikow and Fuss	180
B.5 The French School, 1838–1843	181
B.6 The British School, 1857–1891	182
B.7 The Ballot Problem	183
B.8 Later Years	185

B.9 The Name	186
B.10 The Importance	187
<i>Glossary</i>	191
<i>Bibliography</i>	201
<i>Index</i>	205
