Every effort has been made in preparing this book to provide
accurate and up-to-date information which is in accord with
accepted standards and practice at the time of publication. Although
case histories are drawn from actual cases, every effort has been made
to disguise the identities of the individuals involved. Nevertheless,
the authors, editors and publishers can make no warranties that
the information contained herein is totally free from error, not least
because clinical standards are constantly changing through research
and regulation. The authors, editors and publishers therefore
disclaim all liability for direct or consequential damages resulting
from the use of material contained in this book. Readers are strongly
advised to pay careful attention to information provided by the
manufacturer of any drugs or equipment that they plan to use.
