CONTENTS

CHAP.		PAGE
I.	THE TRIBUTE EXACTED BY TUBERCULOSIS The Annual Mortality. Its Age and Sex Distribution and the changes which these have undergone in the last half-century.	I
II.	THE DECLINE OF TUBERCULOSIS	8
III.	THE EXTENT TO WHICH EACH SEX HAS SHARED IN THE DECLINE OF TUBERCULOSIS	31
IV.	THE ETIOLOGY OF TUBERCULOSIS The Growth and Decline of the Doctrine of Contagion up to the time of the Discovery of the Tubercle Bacillus.	46
V.	THE ETIOLOGY OF TUBERCULOSIS (<i>contd</i>) The Discovery of the Tubercle Bacillus. The Relative Importance of Seed and Soil. The Argument against Contagiousness based on the Frequency of Infection. The Influence of "Dose" and of Individual Susceptibility, as shown by Experiments on Animals.	57
VI.	THE ETIOLOGY OF TUBERCULOSIS (<i>contd</i>) The Scanty Evidence of Contagion. Latency. The Comparative Immunity of Doctors and Nurses. The Question of Marital Infection. The Influence of Heredity.	67
VII.	THE ETIOLOGY OF TUBERCULOSIS (<i>contd</i>) Variation in the Relative Fatality of Tuberculosis in Men, Women, and Children in Different Localities, etc. The Nature of the "Phthisis" which is associated with certain Dusty Trades. The Prevention of Tuberculosis.	85
VIII.	PORTALS OF ENTRY OF TUBERCLE BACILLI. PRE-NATAL INFECTION	120
IX.	PORTALS OF ENTRY (<i>contd</i>). POST-NATAL INFECTION .	136
X.	THE RELATION BETWEEN ANIMAL AND HUMAN TUBERCULOSIS I. Early Investigations.	185

CHAP.		PAGE
XI.	THE RELATION BETWEEN ANIMAL AND HUMAN TUBERCULOSIS (<i>contd</i>) II. The Three Types of Tubercle Bacilli.	196
XII.	THE MEANS OF DISTINGUISHING THE THREE TYPES OF TUBERCLE BACILLI ONE FROM ANOTHER Morphological and Cultural Characters. The Reaction Curve	224
XIII.	THE MEANS OF DISTINGUISHING THE THREE TYPES OF TUBERCLE BACILLI ONE FROM ANOTHER (<i>contd</i>)	244
XIV.	THE STABILITY OF TYPE OF TUBERCLE BACILLI IN ARTIFICIAL CULTURE	286
XV.	THE STABILITY OF TYPE OF TUBERCLE BACILLI IN THE ANIMAL BODY The Alleged Attenuation of Mammalian Tubercle Bacilli in the Bodies of Cold-blooded Animals. The Question of Transformation of Mammalian into Avian Tubercle Bacilli and vice versa.	299
XVI.	THE STABILITY OF TYPE OF TUBERCLE BACILLI IN THE ANIMAL BODY (<i>contd</i>) The Question of Transformation of Human into Bovine Tubercle Bacilli in the Bodies of Various Animals.	317
XVII.	THE STABILITY OF TYPE OF TUBERCLE BACILLI IN THE ANIMAL BODY (<i>contd</i>) The Question of Transformation of Bovine into Human Tubercle Bacilli in Man and the Chimpanzee.	349
XVIII.	THE SUSCEPTIBILITY TO TUBERCULOSIS OF VARIOUS ANIMAL SPECIES Tuberculosis in the Ox.	373
XIX.	THE SUSCEPTIBILITY TO TUBERCULOSIS OF VARIOUS ANIMAL SPECIES (<i>contd</i>) Tuberculosis in Swine, Goats and Sheep.	396
XX.	THE SUSCEPTIBILITY TO TUBERCULOSIS OF VARIOUS ANIMAL SPECIES (<i>contd</i>) Tuberculosis in the Rabbit, Guinea-pig, Rat and Mouse.	426
XXI.	THE SUSCEPTIBILITY TO TUBERCULOSIS OF VARIOUS ANIMAL SPECIES (<i>contd</i>) Tuberculosis in the Horse, Ass, Camel, Antelope and Elephant.	461

CHAP.		PAGE
XXII.	THE SUSCEPTIBILITY TO TUBERCULOSIS OF VARIOUS ANIMAL SPECIES (<i>contd</i>) Tuberculosis in the Dog, Cat and Monkey.	486
XXIII.	THE SUSCEPTIBILITY TO TUBERCULOSIS OF VARIOUS ANIMAL SPECIES (<i>contd</i>) Tuberculosis in Birds.	525
XXIV.	TUBERCULOSIS IN MAN: THE TYPES OF TUBERCLE BACILLI WHICH CAUSE IT	546
XXV.	TUBERCULOSIS IN MAN: THE TYPES OF TUBERCLE BACILLI WHICH CAUSE IT (<i>contd</i>) Lupus.	614
XXVI.	THE PART PLAYED BY BOVINE INFECTION IN HUMAN TUBERCULOSIS	657
	APPENDIX General Dissemination of Tubercle Bacilli after Subcutaneous Injection. Persistence of Tubercle Bacilli of Human Type in the Tubules of the Cow's Udder. Danger of Immunizing Milch Cows with Living Tubercle Bacilli. Tubercle Bacilli from Bone and Joint Tuberculosis. A New Sub-type of Tubercle Bacilli. The Use of Antiformin for raising Primary Cultures.	672
	INDEX OF SUBJECTS	687
	INDEX OF AUTHORS	697
