---

Every effort has been made in preparing this book to provide accurate and up-to-date information which is in accord with accepted standards and practice at the time of publication. Although case histories are drawn from actual cases, every effort has been made to disguise the identities of the individuals involved. Nevertheless, the authors, editors and publishers can make no warranties that the information contained herein is totally free from error, not least because clinical standards are constantly changing through research and regulation. The authors, editors and publishers therefore disclaim all liability for direct or consequential damages resulting from the use of material contained in this book. Readers are strongly advised to pay careful attention to information provided by the manufacturer of any drugs or equipment that they plan to use.

## PREFACE

**I**N the following pages I have recounted a rather laborious attempt to unravel the etiology of one of the least understood, but nevertheless one of the most insidious diseases known to Tropical Medicine.

Although the final results of this investigation cannot be regarded as conclusive, yet it is hoped that they are of some value and may serve as a basis for future investigators in other localities where sprue is indigenous.

P. H. BAHR.

PRESCOT, LANCS.

## CONTENTS

CHAP.		PAGE
I.	ORIGIN AND OBJECTS OF THE EXPEDITION . . . . .	1
II.	ACKNOWLEDGMENTS . . . . .	2
III.	A DESCRIPTION OF CEYLON, ITS INHABITANTS, VEGETATION, GEOLOGY AND PREVALENT DISEASES . . . . .	3
IV.	A DEFINITION OF SPRUE AND A DESCRIPTION OF ITS SYMPTOMS . . . . .	8
V.	HILL DIARRHOEA . . . . .	9
VI.	EXPLANATION OF THE TERM "SPRUE" . . . . .	10
VII.	SUMMARY OF THE PAST LITERATURE OF SPRUE . . . . .	11
VIII.	GENERAL GEOGRAPHICAL DISTRIBUTION OF SPRUE . . . . .	14
IX.	DISTRIBUTION OF SPRUE IN EUROPEANS IN CEYLON . . . . .	16
X.	CERTAIN FACTORS IN THEIR BEARING ON THE INCIDENCE OF SPRUE . . . . .	19
	(1) The race in its bearing on the liability to sprue . . . . .	19
	(a) The occurrence of sprue in native races in Ceylon . . . . .	19
	(b) Sprue in the Burghers of Ceylon . . . . .	21
	(c) Sprue in Europeans in Ceylon . . . . .	21
	(2) The incubation period; residence in the endemic area . . . . .	22
	(3) The special liability of the female sex . . . . .	22
	(4) The age incidence . . . . .	23
	(5) Occupation considered in relation to sprue . . . . .	23
	(6) The influence of housing . . . . .	23
	(7) Water supply in relation to sprue . . . . .	25
	(8) The influence of food and sanitation . . . . .	26
	(9) Possibility of an insect conveyer . . . . .	26
	(10) Previous disease considered as a predisposing cause . . . . .	26
XI.	SPRUE REGARDED AS AN INFECTIOUS DISEASE . . . . .	28
XII.	SYMPTOMS OF SPRUE AS MET WITH IN CEYLON . . . . .	31
	A. Typical or complete sprue . . . . .	32
	1. Cases with both marked tongue and diarrhoea symptoms . . . . .	32
	2. Cases with acute diarrhoea and subacute tongue symptoms . . . . .	33
	3. Cases with subacute tongue and mild diarrhoea symptoms . . . . .	35
	4. Chronic sprue cases . . . . .	35
	B. Incomplete sprue . . . . .	36
	1. Intestinal sprue . . . . .	36
	2. Chronic diarrhoea . . . . .	37
	3. Tongue sprue . . . . .	38

CHAP.	PAGE
XIII. INVESTIGATIONS ON THE CLINICAL PATHOLOGY OF SPRUE . . . . .	49
(1) Chemical composition of the stools . . . . .	53
(2) Urine . . . . .	57
(3) Saliva . . . . .	59
(4) Gastric juice . . . . .	59
(5) Blood . . . . .	60
XIV. THE MORBID ANATOMY AND PATHOLOGY OF SPRUE . . . . .	62
XV. THE AETIOLOGY OF SPRUE . . . . .	75
XVI. A STUDY OF THE YEASTS FOUND IN SPRUE LESIONS AND ATTEMPTS AT THEIR CLASSIFICATION ON A RATIONAL BASIS . . . . .	86
XVII. EVIDENCE IN FAVOUR OF AND AGAINST REGARDING SPRUE AS A BLASTOMYCOTIC INFECTION . . . . .	94
XVIII. TREATMENT . . . . .	97
XIX. DIFFERENTIAL DIAGNOSIS . . . . .	107
XX. CONCLUSIONS . . . . .	110
XXI. BIBLIOGRAPHY . . . . .	112
APPENDICES	
I. The population of Ceylon in 1911 . . . . .	118
II. The number of Europeans resident in the different Provinces . . . . .	119
III. Temperature and rainfall in Ceylon . . . . .	120
IV. Clinical account of cases of sprue in natives . . . . .	121
V. Details of various estate bungalows and their relation to sprue . . . . .	122
VI. A list of Ceylon mosquitoes . . . . .	124
VII. Incidence of sore sprue-like tongues in natives . . . . .	126
VIII. Details of Noguchi reactions . . . . .	127
IX. Table showing the relationship between the amount of fluid and proteid ingested and the amount of urine and urea excreted in two cases of sprue . . . . .	128
X. Blood counts of sprue cases . . . . .	129
XI. Detailed history of sprue cases with an account of post-mortem examination, morbid anatomy and microscopic pathology . . . . .	130
XII. Weights of organs in sprue and a comparison with those of normal subjects and those of a case of pernicious anaemia . . . . .	142
XIII. Tables showing the presence of yeast cells in cultures and in smears made from sprue post-mortems, and a comparison with similar preparations made from other post-mortems, mostly cases of diarrhoea . . . . .	142

*Contents*

ix

APP.	PAGE
XIV. (a) Table showing sugar reactions of a yeast as obtained after varying periods of incubation . . . . .	143
(b) Provisional classification of the yeasts of the genus <i>Monilia</i> ; together with the sources from which these organisms were obtained . . . . .	144
(c) Variations in the sugar reactions given by these yeasts at different periods and on different media . . . . .	145
XV. Various details of five sprue cases under treatment . . . . .	146
XVI. Details of twelve cases of apparent recovery from sprue, all still resident in Ceylon . . . . .	149

## LIST OF ILLUSTRATIONS

FIG.	PAGE
I. MAP OF CEYLON SHOWING DISTRIBUTION OF SPRUE CASES AND THEIR RELATION TO TEMPERATURE AND RAINFALL . . . . .	17
PLATES	
I. ILLUSTRATING THE CONDITION OF THE TONGUE IN SPRUE, ETC.. . . . .	<i>between pp. 20 and 21</i>
II. FIG. 1. CASE OF SPRUE SHOWING PIGMENTATION OF FOREHEAD. FIG. 2. CASE OF SPRUE SHOWING CHARACTERISTIC METEORISM . . . . .	<i>to face p. 34</i>
III. LONGITUDINAL MESIAL SECTIONS THROUGH THE TIP OF THE TONGUE SHOWING THE EPITHELIAL COVERING IN FIG. 1 A NORMAL TONGUE, FIG. 2 A SPRUE TONGUE . . . . .	,, 65
IV. ILLUSTRATING SECTIONS OF THE TONGUE AND SPLEEN IN SPRUE . . . . .	<i>between pp. 66 and 67</i>
V. SECTION OF OESOPHAGUS IN A CASE OF SPRUE . . . . .	<i>to face p. 68</i>
VI. SECTION OF ILEUM IN A CASE OF SPRUE . . . . .	,, 70
VII. FIG. 1. SMEAR PREPARED FROM GASTRIC MUCUS IN A CASE OF SPRUE, SHOWING GREAT NUMBERS OF YEAST CELLS AND MYCELLIAL THREADS. FIG. 2. CURIOUS STRIATED BODIES OF AN UNDETERMINED NATURE FOUND IN TONGUE-SCRAPINGS FROM EIGHT NATIVE CASES . . . . .	,, 80
VIII. FIG. 1. "TONGUE SPRUE" IN A HIGH-CASTE TAMIL BOY. FIG. 2. DEAD YEAST CELLS DERIVED FROM DIGESTED BREAD IN A SPRUE STOOL . . . . .	,, 84
