	<i>Preface</i>	page ix
	<i>Notation</i>	xi
<b>1</b>	<b>Fields</b>	1
	1.1 Rings and fields	1
	1.2 Field automorphisms	6
	1.3 The multiplicative group of a finite field	9
	1.4 Exercises	10
<b>2</b>	<b>Vector spaces</b>	15
	2.1 Vector spaces and subspaces	15
	2.2 Linear maps and linear forms	17
	2.3 Determinants	19
	2.4 Quotient spaces	20
	2.5 Exercises	21
<b>3</b>	<b>Forms</b>	25
	3.1 $\sigma$ -Sesquilinear forms	25
	3.2 Classification of reflexive forms	27
	3.3 Alternating forms	30
	3.4 Hermitian forms	34
	3.5 Symmetric forms	38
	3.6 Quadratic forms	40
	3.7 Exercises	47
<b>4</b>	<b>Geometries</b>	51
	4.1 Projective spaces	51
	4.2 Polar spaces	54
	4.3 Quotient geometries	60

4.4	Counting subspaces	61
4.5	Generalised polygons	65
4.6	Plücker coordinates	71
4.7	Polarities	74
4.8	Ovoids	76
4.9	Exercises	83
<b>5</b>	<b>Combinatorial applications</b>	<b>93</b>
5.1	Groups	93
5.2	Finite analogues of structures in real space	99
5.3	Codes	105
5.4	Graphs	109
5.5	Designs	114
5.6	Permutation polynomials	117
5.7	Exercises	120
<b>6</b>	<b>The forbidden subgraph problem</b>	<b>124</b>
6.1	The Erdős–Stone theorem	124
6.2	Even cycles	125
6.3	Complete bipartite graphs	130
6.4	Graphs containing no $K_{2,s}$	132
6.5	A probabilistic construction of graphs containing no $K_{t,s}$	134
6.6	Graphs containing no $K_{3,3}$	135
6.7	The norm graph	137
6.8	Graphs containing no $K_{5,5}$	140
6.9	Exercises	144
<b>7</b>	<b>MDS codes</b>	<b>147</b>
7.1	Singleton bound	147
7.2	Linear MDS codes	148
7.3	Dual MDS codes	151
7.4	The MDS conjecture	152
7.5	Polynomial interpolation	154
7.6	The $A$ -functions	155
7.7	Lemma of tangents	157
7.8	Combining interpolation with the lemma of tangents	162
7.9	A proof of the MDS conjecture for $k \leq p$	164
7.10	More examples of MDS codes of length $q + 1$	165
7.11	Classification of linear MDS codes of length $q + 1$ for $k \leq p$	167
7.12	The set of linear forms associated with a linear MDS code	172

<i>Contents</i>		vii
7.13	Lemma of tangents in the dual space	174
7.14	The algebraic hypersurface associated with a linear MDS code	177
7.15	Extendability of linear MDS codes	182
7.16	Classification of linear MDS codes of length $q + 1$ for $k < c\sqrt{q}$	184
7.17	A proof of the MDS conjecture for $k < c\sqrt{q}$	189
7.18	Exercises	189
<b>Appendix A</b>	<b>Solutions to the exercises</b>	191
A.1	Fields	191
A.2	Vector spaces	200
A.3	Forms	206
A.4	Geometries	213
A.5	Combinatorial applications	229
A.6	The forbidden subgraph problem	233
A.7	MDS codes	238
<b>Appendix B</b>	<b>Additional proofs</b>	242
B.1	Probability	242
B.2	Fields	243
B.3	Commutative algebra	247
<b>Appendix C</b>	<b>Notes and references</b>	263
C.1	Fields	263
C.2	Vector spaces	264
C.3	Forms	264
C.4	Geometries	264
C.5	Combinatorial applications	266
C.6	The forbidden subgraph problem	269
C.7	MDS codes	270
C.8	Appendices	271
	<i>References</i>	272
	<i>Index</i>	282
