Every effort has been made in preparing this book to provide accurate and
up-to-date information that is in accord with accepted standards and
practice at the time of publication. Although case histories are drawn
from actual cases, every effort has been made to disguise the identities of
the individuals involved. Nevertheless, the authors, editors, and
publishers can make no warranties that the information contained herein
is totally free from error, not least because clinical standards are
constantly changing through research and regulation. The authors,
editors, and publishers therefore disclaim all liability for direct or
consequential damages resulting from the use of material contained in
this book. Readers are strongly advised to pay careful attention to
information provided by the manufacturer of any drugs or equipment
that they plan to use.
