<i>List of Figures</i>	<i>page</i> x
<i>List of Logs</i>	xii
<i>Series Foreword</i>	xv
<i>Preface</i>	xvii
<i>Acknowledgments</i>	xix
Introduction to the Analysis	1
Research Context	1
Presentation Structure	4
Researching Mathematical Cognition	11
The Historical Development of Mathematical Cognition	12
The Methodology of Group-Cognitive Development	16
Analyzing Development of Group Cognition	22
Focus on Group Practices	22
Sequential-Interaction Analysis	31
The Display of Collaborative Development	38
Session 1: The Team Develops Collaboration Practices	44
Tab Welcome	46
Tab Hints Help	69
Tab Objects	72
Tab Dragging	77
Summary of Learning in Session 1	81
Session 2: The Team Develops Dragging Practices	88
Tab Equilateral	88
Tab Relationships	99
	vii

viii	<i>Contents</i>
Tab Where's Waldo	103
Tab Exploring	104
Summary of Learning in Session 2	105
Session 3: The Team Develops Construction Practices	109
Visual Drawings and Theoretical Constructions	109
Tab Bisector	111
Tab Perpendicular	123
Summary of Learning in Session 3	124
Session 4: The Team Develops Tool Usage Practices	129
Tab Right-Triangle	129
Tab Triangles	134
Tab Hierarchy	138
Summary of Learning in Session 4	139
Session 5: The Team Identifies Dependencies	142
The Inscribed Triangles Tab	142
Summary of Learning in Session 5	152
Session 6: The Team Constructs Dependencies	154
The Inscribed Triangles Tab, Continued	154
The Inscribed Squares Tab	157
Summary of Learning in Session 6	166
Session 7: The Team Uses Transformation Tools	171
The Transformations Tab	171
Summary of Learning in Session 7	182
Session 8: The Team Develops Mathematical Discourse and Action Practices	184
The Quadrilateral Tab	185
Poly1: Efficient Analysis	186
Poly2: Group Memory	188
Poly3: A Confused Attempt	202
Poly4: Vertices Swinging around Circles	204
Poly5: It's Restricted Dude	205
Poly6: A Rectangle?	206
Poly7: A Final Attempt	208
Summary of Learning in Session 8	209
What Did We Learn about What the Team Learned?	215

<i>Contents</i>	ix
Contributions to a Theory of Mathematical Group Cognition	217
How Mathematical Group Cognition Developed	218
Collaboration and the Development of Group Agency	220
The Group Discourse of Mathematical Dependency	225
Dynamic-Geometry Tools Mediating Group Cognitive Development	232
Dragging as Embodied Group Cognition	235
Constructing as Situated Group Cognition	237
Designing as Group Conceptualizing of Dependency	238
Constructing Mathematical Group Cognition	241
The Dialectic of Mathematical Cognition	241
Implications for Designing	243
Advances and Future Prospects	246
<i>References</i>	251
<i>Author Index</i>	261
<i>General Index</i>	263
