Every effort has been made in preparing this book to provide accurate and up-to-date
information which is in accord with accepted standards and practice at the time of
publication. Although case histories are drawn from actual cases, every effort has been
made to disguise the identities of the individuals involved. Nevertheless, the authors,
editors and publishers can make no warranties that the information contained herein is
totally free from error, not least because clinical standards are constantly changing through
research and regulation. The authors, editors and publishers therefore disclaim all liability
for direct or consequential damages resulting from the use of material contained in this
book. Readers are strongly advised to pay careful attention to information provided by the
