INDEX

- Alcyonium (British), 101
Alcyonium ceylonicum, 101
- Bohn, G., 64
Butler, Samuel, 49
- Carteria sp., 129
Chemical stimulators (hormones), 135
Chemotaxis, 139
Chlamydomonadineæ, 128
Chlamydomonas, 129
Chlorophyll, 87
Chloroplast, 85, 86, 105
- Convoluta paradoxa** :
Background, influence of, 45, 48, 50
Behaviour in constant darkness, 65
Bristles, 8
Cilia, 7
Digestion of green cells by, 83, 97
Digestive system, 11
Eggs, 13; periodicity of production of, 24
Egg-laying, conditioned by illumination, 81
Eyes, 9, 64
Fat, 89
Feeding habits, 81, 83, 97, 98
- Convoluta paradoxa (cont.)** :
General aspect, 5
Glands (pigmented), 9, 54
Gravi-perception, 10
Gullet, 11
Habitat, 7, 19
Mouth, 11
Otocyst, 9
Paradoxa zone, 17
Periodicity of egg-laying, 24, 34
Phototropism, 42
Secretion of fat by yellow-brown cells of, 92
Starvation, resistance to, 94
Tidal migration, 21
Tropistic response to light, 42
Uric acid, effects on egg-laying, 150
Vacuoles, 11
Yellow-brown cells of, 75, 84, 91, 95, 147
- Convoluta roscoffensis** :
Background, influence of, 45, 48, 50
Chlorophyll in, 87
Cilia, 7
Dark-rigor, 60
Digestion of yellow-brown cells by, 95

INDEX

- Convoluta roscoffensis* (cont.):**
 Digestive system, 11
 Eggs and egg-capsules, 13, 56;
 periodicity of laying of, 26
 Excretory organs (absence of),
 147
 Eyes, 9
 Feeding habits of, 77, 81, 97
 General aspect, 5
 Gravi-perception, 10, 39
 Green cells of, 75, 84, 105;
 algal nature of, 118; *life*
 history of, 132; *origin*, 108
 Gullet, 11
 Habitat, 7, 14, 18
 Light-rigor, 60
 Mouth, 11
 Nucleus, 110
 Nuclear degeneration, 112
 Ootocyst, 9
 Periodicity of ascent, 62; of
 egg-laying, 26
 Photosynthesis by the green
 cells of, 81, 87
 Phototonic effect of stimulation,
 59
 Phototonus, 59
 Phototropism, 41, 52
 Reaction to monochromatic
 light, 54
 Regeneration of, 27
 Response to vibration, 15
 Rhythmic ascent and descent,
 19, 62
 Roscoffensis zone, 17
 Simultaneous stimuli, 44, 45
 Size, 16
 Starch in green cells, 87
 Starvation, resistance to, 94
 Tidal rhythm, 63, 67
 Tonic influence of light, 67
 Tropistic response to light, 41
- Convoluta roscoffensis* (cont.):**
 Vacuoles, 11
 Vibration, response to, 62,
 67
 Copepods, tropism of, 69
- Dictyota dichotoma*, 34
 Directive stimuli, 40
- Echinocardium* sp., 100
Elysia sp., 100
Eudendrium racemosum, 33
Euglena viridis, 103
 Eye-spot, 102, 110
- Flagella, 124
 Fungi, 156
- Geddes, P., 87
 Goebel, K., 33
 Gravi-perception (by roots), 38
 Green cells of animals, 82,
 100
 Green cells of *C. roscoffensis*,
 algal nature of, 128; *colourless*
 phase of, 126; *cultivation of*,
 115; *structure and life history*,
 110, 123
 Green light, and marine organ-
 isms, 54
- Haberlandt, G., 105
 Hering, Prof. E., 49
 Hippolyte varians, 47
 Hormones, 135
 Hydra viridis, 100
- Ivy, 32
- Lankester, Sir Ray, 114
 Leucoplast, 105, 109
 Lichens, 107

INDEX

163

- Light, influence of, on plants, 32;
on regeneration of polyps, 33
- Loeb, J., 29, 69
- Macrocytes, 124
- Microcytes, 124
- Mneme (memory hypothesis), 49
- Monochromatic light, 54
- Mysis sp., 47
- Nervous impulses, 39
- Nitrogen-compounds in sea-water,
145, 154
- Nitrogen-fixing bacteria, 143
- Nitrogen-hunger, 145
- Nitrogen-problem, 142
- Noctiluca, coloured cells of, 101
- Otocyst, 9
- Palmella, 128
- Photosynthesis by green plants,
78; by *C. roscoffensis*, 87
- Phototropism of Copepods, 69
- Prawns, 45
- Protoplasm (cell), 79
- Pseudomonas radiciicola*, 143
- Pyrenoid, 85
- Reflex action, 43
- Reflex arcs, 40
- Reproduction, periodicity of, in
brown sea-weeds, 84
- Rhizobium leguminosarum* (= *Pseudomonas radiciicola*), 143
- Roscoffensis* zone, 17
- Salamandra atra*, 29
- S. maculosa*, 29
- Saprophytism, origin of, 157
- Schimper, A. F. W., 114
- Secretion, 135
- Semon, R., 48
- Simultaneous stimulation, 54
- Stareh, 87
- Starling, E. H., 134
- Starvation, 94
- Symbiosis, 106, 143, 153
- Tactic response to stimulation,
41
- Tonic effect of light-stimulation,
58, 67
- Tropistic response to stimulation,
41, 69
- Unconscious memory, 49
- Uric acid, absorption of, by *C. paradoxus*, 149
- Vacuoles (digestive), 11
- Von Graff, 149
- Vöchting, H., 83
- Williams, J. L., 34
- Yellow-brown cells of animals,
82, 100; of *C. paradoxus*, 75, 84,
91, 95, 147
- Zoobothrium* sp., 100
- Zoochlorella*, 101, 105
- Zooxanthella*, 101
