|---|-----------------|
| <i>Preface</i>  | <i>page</i> vii |
| <i>Acknowledgements</i>                                 | ix              |
| <b>1 Fundamentals</b>                                   | 1               |
| 1.1 Units and unit conversions                          | 1               |
| 1.2 Absolute and ratio methods                          | 11              |
| 1.3 Rate problems                                       | 23              |
| 1.4 Scientific notation                                 | 28              |
| 1.5 Chapter problems                                    | 39              |
| <b>2 Gravity</b>  | 41              |
| 2.1 Newton's Law of Gravity                             | 41              |
| 2.2 Newton's Laws of Motion                             | 51              |
| 2.3 Kepler's Laws                                       | 55              |
| 2.4 Chapter problems                                    | 64              |
| <b>3 Light</b>  | 66              |
| 3.1 Light and spectrum fundamentals                     | 66              |
| 3.2 Radiation laws                                      | 73              |
| 3.3 Doppler shift                                       | 86              |
| 3.4 Radial-velocity plots                               | 91              |
| 3.5 Chapter problems                                    | 100             |
| <b>4 Parallax, angular size, and angular resolution</b> | 102             |
| 4.1 Parallax  | 102             |
| 4.2 Angular size  | 106             |
| 4.3 Angular resolution                                  | 110             |
| 4.4 Chapter problems                                    | 120             |

|  |     |
|--|-----|
| <b>5 Stars</b>                           | 122 |
| 5.1 Stellar parallax                     | 122 |
| 5.2 Luminosity and apparent brightness   | 126 |
| 5.3 Magnitudes                           | 130 |
| 5.4 H–R diagram                          | 139 |
| 5.5 Chapter problems                     | 151 |
| <b>6 Black holes and cosmology</b>       | 152 |
| 6.1 Density                              | 153 |
| 6.2 Escape speed                         | 159 |
| 6.3 Black holes                          | 164 |
| 6.4 The expansion of the Universe        | 169 |
| 6.5 The history and fate of the Universe | 183 |
| 6.6 Chapter problems                     | 189 |
| <i>Further reading</i>                   | 191 |
| <i>Index</i>                             | 192 |
