## INDEX

- Absolute pressure, 80  
   temperature, 112  
   zero of temperature, 49, 74  
 Adiabatic curves for steam, 94  
   equation for superheated steam, 156  
   expansion of steam, 57, 92, 128, 137,  
   643; of a gas, 58  
 Aeolipile, 2  
 Aero engines, 629  
 After-burning, 605  
 Air-cooled engines, 629  
 Air-engines, 572, 582  
   Buckett's, 582  
   Cayley's, 582  
   Ericsson's, 577  
   Joule's, 161  
   Rider's, 579  
   Robinson's, 578  
   Stirling's, 574  
   Wenham's, 582  
 Air preheaters, 539  
 Air-pump, 556  
 Air standard for internal-combustion  
   engines, 596  
 Air, supply of to furnaces, 492, 497  
 Alcohol as fuel, 611  
 Allan's link-motion, 390  
 "Amethyst" cruiser, 32  
 Ammonia, Mollier's chart for, 177  
   use of, in refrigerating machines, 170  
 Angular advance, 370  
 Ante-chamber engines, 636  
 Anti-priming pipe, 502  
 Aromatics, 610  
 Aspinall's governor, 448  
 Atkinson's gas-engine, 600  
 Atlantic type of locomotives, 568  
 Atmospheric engine, Newcomen's, 8  
 Automatic valve-gear, invention of, 10  
 Availability of heat for transformation,  
   70  
  
 Babcock and Wilcox boiler, 513  
 Back-pressure engines, 555  
   turbines, 245  
 Balance piston, 410  
 Balancing, 469  
   four-crank system, 471, 474  
   of locomotives, 478  
   primary and secondary, 480, 481  
   Yarrow-Schlick-Tweedy system, 474  
 Barnes, 40  
 Barnett, W., 585  
 Barsanti and Matteucci, 585, 587  
 Battle-cruiser "Hood," 30  
  
 Baumann, K., 252, 254  
 Beam engines, 9, 26, 549  
 Beardmore-Tosi engine, 635  
 Beauchamp-Tower, 275, 563  
 Beau de Rochas, 587  
 Beighton, Henry, 10  
 Bell-Coleman refrigerating machine, 180  
 Belleville boiler, 518  
 Belliss and Morcom engines, 558  
 Bell's "Comet," 28, 564  
 Belpaire, Th., 139  
 Benzene series, 610  
 Benzol, 611  
 Berg, E., 303  
 Bilgram's valve diagram, 382  
 Binary fluid engine, 131, 316  
 Bishop's disc engine, 564  
 Black-body radiation, 490  
 Blake-Beardmore boiler, 511  
 Blast furnace gas, 609  
 Bleeding steam for heating feed-water,  
   281, 306, 311, 313, 536  
 Bogie, 568  
 Boilers, circulation in, 537  
   Cornish, 498  
   dryback, 504  
   efficiency of, 489  
   electrolytic protection of, 538  
   forcing of, 489  
   for high pressures, 516, 526  
   Lancashire, 498  
   locomotive, 504  
   mountings, 502  
   multitubular, 503  
   Scotch marine type, 506  
   vertical, 509  
   water-tube, 512  
 Boulton, Matthew, 21  
 Boulvin, 139  
 Bourdon gauge, 503  
 Boyle's Law, 46  
 Brake dynamometer, 340  
 Brake horse-power, 318  
 Branca, G., 4  
 British Association Committee on  
   gaseous explosions, 604  
 British Jupiter engine, 629  
 British thermal unit, 39  
 British Thomson-Houston Company,  
   245, 282  
 Brown Boveri Turbines, 293, 309  
 Buckett's air-engine, 582  
 Bull engines, 23, 549  
 Bunsen and Roscoe, analysis of coal gas,  
   607

INDEX

- Burmeister and Wain, 635  
 Burstall, F. W., 614
- Callendar, H. L., 37, 41, 49, 78, 87, 109, 114, 193, 229, 613, 639  
   characteristic equation, 639  
   steam tables, 78, 639  
 Callendar and Barnes, 40  
 Callendar and Nicholson's experiments, 193, 197
- Calorific value of fuels, 497, 611  
 Calory, 39  
 Cambridge Instrument Company, 324  
 Cammell Laird and Co., 621  
 Campbell, W., 256  
 Carbonic acid, Mollier's chart for, 178  
   use of, in refrigerating machines, 170  
 Carburettor, 627  
 Carnot, Sadi, 35  
 Carnot's cycle, 63  
   entropy-temperature diagram for, 140  
   in air-engines, 574  
   with steam for working substances, 95  
 Carnot's principle, 67  
 Cascade heating of feed-water, 311, 313  
 Cataract of Cornish engines, 25  
 Cayley, Sir George, 582  
 Cecil, W., 585  
 Centrifugal governors, 419  
 "Century of Inventions," the, 4  
 Chain-grate, 542  
 Charles' Law, 46  
 Chimney draught, 493, 495  
 Chimney gases, analysis of, 497  
 Chorlton's duplex engine, 621  
 Circulation in boilers, 537  
 Clapeyron's equation, 115, 155  
 Clark, D. K., 191  
 Classification of engines, 548  
 Clausius, R., 35, 42  
 Clearance, 189  
 Clerk, Sir Dugald, 586, 589, 592, 606, 613  
   two-stroke cycle, 592, 603  
 Closed stokehold, 539  
 Coal, constituents of, 496  
   gas, analysis of, 607  
 Cochran boiler, 510  
 Coefficient of performance in refrigerating machines, 174  
 Coke-oven gas, 608  
 Coleman, 183  
 Collins, W. G., 324  
 Combustion calorimeter, 498  
   at constant volume in gas-engines, 594  
 Committee on steam nozzles, 230  
 Compound diagrams, receiver type, 355  
   Wolf type, 354  
 Compound engines, 24, 27, 352  
   expansion, 215, 352, 360  
   locomotives, 569, 570  
   turbines, Parsons', 31, 33, 241, 261  
   working in turbines, 241
- Compression in internal-combustion engines, influence of on the efficiency, 597  
 Condensate, separation of oil from, 536  
 Condensation and re-evaporation in the cylinder, 193, 199  
 Condensers, 555  
   invention of, 11  
 Conduction of heat through boiler plates, 487  
 Conservation of energy, 38  
 Constant volume type of gas-engines, 594  
 Contraflow principle, 535  
 Convection of heat, 486  
 Conveyers, mechanical, 541  
 Cook, Stanley, 303  
 Cooling tower, 556  
 Corliss trip gear, 437  
   valves, 414  
 Cornish boilers, 498  
   cataract, 417  
 Corrosion in boilers, prevention of, 538  
 Corrugated flues, 502, 507  
 Coupled engines, 551  
 Coupling-rods in locomotives, 567  
 Cowper, E. A., 27  
 Coxe stoker, 542  
 Cracking of oils, 611  
 Crampton's dust fuel, 544  
 Crank and connecting-rod, 19  
 Crank-effort diagrams, 449, 459, 461  
 Crawford Avenue turbine plant, 291  
 Critical point, 106  
   pressure, 108  
   temperature, 108  
   temperature of water, 152  
 Crosby indicator, 320  
 Cross-compound engines, 551  
 Crossley gas-engines, 588  
   oil-engines, 632  
   scavenging device, 614  
 Cugnot's steam carriage, 24  
 Curtis, 34, 242  
   wheel, velocity diagram of, 257  
 Cushioning in steam-engine cylinder, 190, 373  
 Cushion steam, 199  
 Cut-off, point of, 101  
 Cycle of operations, 63  
 Cylinder feed, 191, 198  
   volumes, ratio of, in compound engines, 359  
   walls, influence of, 191, 195, 201, 204
- Dalby, W. E., 387, 408, 470, 475, 482, 487  
 Daimler-Knight engine, 628  
 Dash-pot, 437  
 Davey, H., 446  
 De Caus, 3  
 De Glehn compound locomotives, 570

## INDEX

657

- De Laval's divergent nozzle, 222, 240  
 turbine, 33, 239  
 Della Porta, 3  
 Denny and Edgcombe's torsionmeter, 344  
 Denny and Johnson's torsionmeter, 342  
 Detonation, 598, 607, 612  
 Diagram efficiency in turbines, 256  
 factor, 351  
 of crank-effort, 449  
 Diesel engine, 584, 626  
 efficiency of, 637  
 forms of, 634  
 invention of, 448  
 Differential governor, 445  
 Direct-acting engines, 23, 548, 550, 559  
 Disengagement governors, 442  
 Divergent nozzle, 222  
 Donkin, Bryan, 204, 205, 209  
 Dopes, 612  
 Double-beat valves, 415  
 Double-ported valve, 410  
 Double-reduction gearing, Parsons', 303  
 Dowson, E., 588  
 gas, 609  
 Doxford oil-engine, 620, 636  
 Draught, 492  
 forcing of, 538  
 Drop-valves, 415  
 Dry air-pump, 556  
 Dry and wet compression, 171  
 Dryback boiler, 504  
 Drying of steam in throttling, 118  
 Drying pipes in air refrigerating machines, 183  
 Dudgeon's gear-wheel engine, 563  
 Dummy rings in steam turbines, 272  
 Dunkerley, S., 121  
 Dunlop's pneumatic governor, 447  
 Durham and Churchill's regulator, 445  
 Dürr boiler, 520  
 Durston, Sir A. J., 29  
 Dust fuel, 544  
 Du Tremblay's steam and ether engine, 131  
 "Duty" of an engine, 26  
 Dynamometer, absorption type, 340  
 Froude's, 341  
 torsion, 342  
 Dyne, 39
- Economizer, 492, 535  
 Edwards, H. D., 176  
 Efficiency, 1  
 in Carnot's cycle, 65  
 of a perfect heat-engine, 69  
 of a perfect steam-engine, 97  
 of furnaces, 494  
 of internal-combustion engines, Committee on, 596  
 Efficiency ratio, 106  
 in steam turbines, 234
- Ejector condenser, 557  
 Elder, John, 27  
 Electrolytic protection in boilers, 538  
 Emmet, W. L. R., 316  
 End-tightening device, Parsons', 262, 265  
 Energy, internal, 45, 58  
 Engine receiving heat at various temperatures, 121  
 English, Colonel, 192  
 English Electric Company, 281, 296, 621  
 Entropy, 133  
 and total heat, chart of, 157  
 of steam, 137, 641, 652  
 Entropy-temperature diagrams, 139, 162, 171  
 chart for water and steam, 149  
 Equivalent eccentric, 392  
 Erg, 39  
 Ericsson's air-engine, 577  
 Escher Wyss and Company, 276  
 Evans, Oliver, 22  
 Evaporative condensers, 556  
 Evaporators, 536  
 Ewing and Dunkerley, 121  
 Exhaust, 101  
 Exhaust steam turbine, 245, 305  
 injector, 534  
 Expansion valves, 403  
 Meyer's, 404  
 Rider's, 409  
 Expansive use of steam by Watt, 20  
 Explosive combustion, process of, 604
- Farcot's governor, 429  
 Feed-heating by bleeding steam from a turbine, 281, 306, 311, 313, 536  
 Feed-pumps, 529  
 water, measurement of, 334  
 water heaters, 492, 534  
 Fielding's rotary engine, 564  
 Field tubes, 511, 520  
 Filtrator, 537  
 First Law of Thermodynamics, 38  
 Fly-wheel, 462  
 Forced draught, 493  
 Forced lubrication, 558  
 Forcing of boilers, 489  
 Ford torsionmeter, 344  
 Formation of steam under constant pressure, 76, 81, 86  
 Forms of the steam-engine, 548  
 Four-crank engine, balancing of, 474  
 Fourier's series, application of, in balancing, 483  
 Four-stroke cycle, 587, 589  
 Fowler, Sir H., 504, 569  
 Fox's corrugated flues, 507  
 Frictional losses in turbines, 231  
 Froude, absorption dynamometer, 341  
 Fullagar's twin cylinder engine, 620, 636

INDEX

- Fulton, Robert, 29  
Furnaces, efficiency of, 494
- Galloway tubes, 500, 616  
Garratt locomotives, 571  
Gas-engines, 585, 600, 613, 616  
Gaseous explosions, Committee on, 604  
fuels, types of, 607  
Gasoline, 610  
Gas scale of temperature, 47  
thermometer, thermodynamical correction of, 114  
turbines, 625  
Gauge pressure, 80  
Gearing in marine steam turbines, 300  
Gear-wheel engines, 563  
General Electric Co. of Schenectady, 284  
Gibbs, J. Willard, 87, 139  
Giffard's injector, 530  
Gooch's link-motion, 390  
Goodenough and Mosher, 176  
Governing, 419  
of gas-engines, 591  
Governor, Aspinall's, 448  
conical pendulum type, 419, 424  
controlling force of, 430, 433  
disengagement type, 442  
Dunlop's, 447  
influence of friction on, 432  
loaded type, 421  
parabolic, 428  
relay, 444  
sensitiveness of, 426  
shaft, 422  
Siemens, 445  
stability of, 423  
supplementary (Knowles'), 443  
Gray, J. Macfarlane, 139, 392, 444  
Grease filters, 536  
Green's economizer, 535  
Gresley, H. N., 506, 569  
Griessmann, A., 121  
Griffiths, E. H., 40, 41  
Grindley, J. H., 121  
Gunpowder engines, 6
- Hackworth's valve-gear, 394  
Hall, S., 566  
Hall's pulsometer, 562  
Hallauer, 192, 206  
Hammer-blow in locomotives, 478  
Harland and Wolff, 635  
Hartnell, W., 420, 433  
Haslam's air machines, 183  
Head, J., 428  
Heat account in a real process, 163  
Heat-drop, 104, 146, 158, 165, 642  
in steam jet, 220  
in steam turbines, 234  
Heat-engines, efficiency of, 1  
Heat of formation of steam, 86, 90  
mechanical equivalent of, 40
- Heat-pumps, 168  
units of, 39  
Heat weight, 122  
Heating surface, 486  
Hero of Alexandria, 2, 243  
Hexane, 610  
Higher and lower calorific values of fuel, 497  
Hirn, G. A., 192, 210, 339  
Hit-and-miss governors, 591  
Hodgkinson, F., 284  
Holtzwarth's gas turbine, 625  
"Hood," turbines of, 270, 303  
Hooke's joint type of engines, 564  
Hopkinson, B., 322, 324, 602, 604, 620  
Hopkinson-Thring torsionmeter, 342  
Hornblower, J., 24, 352  
Hornsby-Ackroyd engine, 632  
Horse-power, 6, 22  
Hot-bulb engines, 591, 626, 631  
Howden-Ljungström preheater, 540  
Howden's system of forced draught, 539  
Hugon's gas-engine, 586  
Humphrey's gas pump, 622  
Hunting gear, 401  
Hunting in governors, 435  
Huygens' piston and cylinder engine, 7  
Hydrocarbons, 610  
Hydrokineter, 537
- Ice, contraction of, on melting, 118  
Ignition in gas-engines, 590  
Impulse blading, 255  
turbines, 241  
Indicated horse-power, estimate of, 350  
Indicating on a time basis, 325  
Indicator, 319  
balanced, 326  
"Cambridge micro," 324  
diagrams, 44  
diagrams, combination of in compound engines, 363  
diagrams, comparison of actual and ideal, 186  
directions for use of, 328, 330  
"Farmboro," 326  
invention of, by Watt, 20  
optical, 322  
Inglis, C. E., 484  
Injectors, 530  
compound, 532  
lifting and non-lifting, 531  
restarting, 531, 533  
Internal-combustion engines, 581, 584, 585  
Committee on efficiency of, 596  
Internal energy, 45, 58  
of a gas, 51  
of steam, 640, 644  
Irreversible actions, 56, 135  
exchanges of heat, 166  
Isentropic lines, 134

 Klein, J. F., 455  
 Knowles' governor, 443  
 Körting engine, 616  
  
 Labyrinth packing, 272, 297  
 Lagging of non-conducting material, 166  
 Lancashire boilers, 498  
 Lap, 370  
 Laval, G. de, 222, 239  
 Lead-ethide, 612  
 Lead in valves, 370  
 Lenoir's gas-engine, 585  
 Leupold, 22  
 Lewicki, 214  
 Lightfoot, 183  
 Linde's method of liquefying air, 74  
 Link-motion, Allan's, 390  
     Gooch's, 390  
     Stephenson's, 389  
 Liquid fuels, 610  
 Livens, F. H., 632  
 Ljungström, 244, 297, 540  
 Loaded governor, 421, 425  
 Locomotives, balancing of, 478  
     boilers, 504  
     classification of, 567  
     early, 28  
 Lopulco system, 544  
 Loring and Emery, experiments of, 192  
 Lupton, H. R., 559  
 "Lusitania," 30, 302  
  
 Macalpine, J. H., 484  
 McNaught, 27, 319  
 Mair, J. G., 339  
 Mallet locomotives, 506, 570  
 M. A. N. gas-engine, 616  
 Marine engines, 564  
     engines, trials, Research Committee on, 363  
     oil-engines, Trials Committee, reports of, 635, 636, 637  
     use of steam turbines, 300  
 Marshall, F. C., 29  
 Marshall valve-gear, 396  
 "Mauretania," 30, 302  
 Mechanical efficiency, tests of, 318, 340  
     equivalent of heat, 40  
     stoking, 540  
 Melting-point of ice, influence of pressure on, 118  
 Mercury and steam-engine, 132, 316  
 Merz and McLellan, 313  
 Metropolitan-Vickers Company, 278  
 Meyer's expansion valve, 404  
 Michell's thrust block, 274  
 Micro-indicator, 324  
 Midgley, 612  
 "Miner's Friend," the, 6  
 Missing quantity, 198, 199  
 Mollier, 87, 89  
     chart for ammonia, 177  
     chart for carbonic acid, 178  
     diagrams, 156  
 Mollier charts drawn with oblique co-ordinates, 176  
 Mond producer gas, 609  
 Monroe, W. S., 315  
 Moorby, W. M., 40  
 Motor ship "Asturias," 584, 635
