# INDEX

Aberration, 91  
Absolute orientation, 130  
Accuracy, azimuth, 21  
position of intersection, 21  
Adjustment of closure, bridging, 134  
Aerial costs, 142  
Aerial photography, 115  
Aerial survey, 115  
Air speed, 57  
Air station, 123  
Air-base, 57  
Air-mapping subdivisions, 119  
Anaglyph, multiplex, 126, 131  
Analytical method, azimuth and depression angles, 16  
Andrews, G. S., 91  
Angle, measurement of, 140  
Anharmonic ratios, 4  
Anharmonic rectifier, 112, 113, 152  
Astronomic control, 108  
Automatic plotting machines, 123  
Azimuth and depression, analytic method, 16  
ground-survey photographs, 22  
obliques, 10  
Azimuth grid, 19  
rectangular, 19  
Azimuth lines, 20  
Azimuth, precision of, 21  

Bagley, J. W., 100  
Bassel plane, 123  
Base check, 93  
Base-line, 57  
Base-lining, 57  
ZD-15, 80  
Base map, 118  
Bausch and Lomb multiplex, 131  
Binocular vision, 62  
Biprojective correspondence, 125  
Bridging, 124  
Block adjustment, 101  
Brock system, 123, 141  
Burns, E. L. M., 120  
Burns plotter, 17  

Camera and helio, 160  
Casella Ltd., 102  
Chapman, V. J., 118  
Chauvenet’s criterion, 107  
Chicago Aerial Survey Co., 92  
Check for, 166  
Checks, interpretation, 152  
Churches, 154  
Civil and military mapping, 120, 148  
Classification, air photographs, 7  
Closure in bridging, 134  
Collier, 101  

Colour code, 150  
Comparative precision, plotters, 87, 140, 172  
Compilation preparation for camera, 155  
topographic, 159  
Contour interval, 141, 144, 172  
Contour precision, 141, 144  
Contouring, 74  
Control, 30, 106, 119, 149, 152  
Coplanar cross-arms, 80, 128  
Correction, parallax, 72, 73  
special, 139  
Corresponding rays, 124  
Cost of air survey, factors, 142  
Coverage, 6 in. wide angle, 147  
Crab, 57  
Crone construction, 11  
Crone modification, 14  
Crone, use with perspective grid, 30  
Cross-arms, for observation of K, 79, 128, 131  
Cross-tilt, 139  
Curvature and refraction, 9  

Datum point, 72  
Depression angle, 2, 10  
Depression line, 119  
Diapositive printer, 131  
Dip of horizon, 8  
Displacement, definition, xvi  
Distortion, xvi, 91, 124, 132  
Double 60% overlap, 146  

Eden, T. A., 108  
Edge intensity, 132  
Elevation displacement, 4, 37, 98, 122  
Enamel paper, 160  
Engineer intelligence, 53  
Enlargements, 89, 142  
Epidiascope, 2, 109  
Epipolar plane, 123  
Error, adjustment for angular, of tilt and relief, 100  
observational and other, parallax, 85  
parallax bar heighting, 86  
slotted temple, formula, 105  
Extension, 134  

Fair-drawing, 119, 161  
subdivisions of, 162  
Ferro-prussiates, 160  
Filter, multiplex, 131  
Fine lines, reproduction from, 163  
Floating marks, 65, 67, 130  
Focal length, adjustment for, 18, 133  
Focal length, effect of, on model, 87  
Focal-plane shutter, 53  
Forestry interpretation, 118
INDEX
