## P R E F A C E

I HAVE no great love for prefaces, holding that, as a general rule, a book should give a sufficient account of itself. Yet the reader may care to know that what is here set down is essentially a transcript from life. Since, however, the book is a picture rather than a photograph, the judicious will expect certain disguises and reticences, and will understand that the author has here and there exercised some freedom in the use of his material.
