.....
Every effort has been made in preparing this book to provide accurate and
up-to-date information which is in accord with accepted standards and
practice at the time of publication. Although case histories are drawn from
actual cases, every effort has been made to disguise the identities of the
individuals involved. Nevertheless, the authors, editors and publishers can
make no warranties that the information contained herein is totally free from
error, not least because clinical standards are constantly changing through
research and regulation. The authors, editors, and publishers therefore
disclaim all liability for direct or consequential damages resulting from the use
of material contained in this book. Readers are strongly advised to pay careful
attention to information provided by the manufacturer of any drugs or
equipment that they plan to use.
