

INDEX

Page numbers in bold type are those on which the description is given

GROUPS HIGHER THAN SPECIES

(Subgenera are in bold capitals, sections and subsections in capitals, and series and subspecies in ordinary type.)

- Apiculati, 17, 21, 37, **108**, 137
 APPENDICULATI, 35, **59**, 107
- Calvescentes, 31, **60**, 66
 Candicantes, 8, 34, **97**, 103
CHAMAEMORUS, 29, **44**
CYLACTUS, 29, **43**, 45
- DISCOLORES, 21, 22, 30, 34, 46, **59**,
 97
 DISCOLOROIDES, 33, **60**, 81
 Dispares, 21, 36, **108**, 127
- Euglandulosi, 21, 22, 41, **181**, 198
 Eugrati, 31, **60**
- Foliosi, 37, 38, **108**, 137
- GLANDULOSI, 40, **59**, 181
GLAUCOBATUS, 29, 30, **45**, 52
 Grandifolii, 21, 40, **108**, 172
 Gypsocaulones, 34, **97**
- Hedycarpi, 34, **97**, 100
 Hypoleuci, 35, 36, **107**, 114
 Hystrices, 21, 22, 40, 125, **181**, 182
- IDAEOBATUS**, 29, 30, **44**, 45, 46
- Imbricati, 33, 34, **60**, 94
 Incompositi, 39, **108**, 166
- Macrophylli, 32, **60**, 72
- MORIFERI**, 7, 8, 17, 21, 45, **46**, 52, 58
 Mucronati, 21, 36, **107**, 121
- Nemorenses, 35, **107**, 108
- Obscuri, 39, **108**, 159
- Pallidi, 37, 38, **108**, 144
 Piletosi, 32, **60**, 72
 Properi, 33, **60**, 81
 Pyramidales, 32, **60**, 77
- Radulae, 21, 37, **108**, 129
RUBUS, 24, 30, 31, 43, **46**, 52, 59
 Rudes, 21
- Scabri, 37, 38, **108**, 150
 Semisuberekti, 30, **47**, 50
 SPRENGELIANI, 8, 21, 35, **59**, 105
 Subdiscolores, 33, **60**, 88
 SUBERECTI, 8, 22, 30, **46**
 Suberekti veri, 30, **46**
 Subtomentosi, 21
 Subvirescentes, 33, 34, **60**, 83
 SYLVATICI, 8, 17, 21, 30, 31, 46, **59**
- Tomentosi, 17, 21
- TRIVIALES, 8, 15, 22, 30, **52**
- Vestiti, 21, 22, 35, **107**, 108
 VIRESCENTES, 31, **59**, 60
 Virescentes, 35, 36, **107**, 109

Index

INDEX TO SPECIES

Names of accepted species, subspecies and varieties are printed in ordinary type and synonyms in italics

- abietinus, 41, **185**
 absconditus, 41, **196**
 acclivatum, 33, **91**
 acidophyllus, 38, **150**
aciophyllus, 150
aciphyllus, 150
 aculeatissimus, 40, **190**
 acutidens, 36, **119**
 acutifrons, 38, **148**
 acutipetalus, 38, **141**
 Adamsii, 38, **143**
 adenanthus, 37, **131**
adenanthus, 138
 adenoleucus, 31, **55**
 adenolobus, Fig. 46; 41, **192**
 adornatiformis, 39, **160**
 adornatus, 41, **183**
adornatus, 182
 adscitus, 6, 35, **116**
 affinis, Fig. 2; 6, 30, **50**
 aggregatus, 39, 159, **163**
 ahenifolius, 37, **127**, 132
 albiflorus, **114**
 albionis, 32, **77**
 alterniflorus, Fig. 19; 15, 33, **92**
althaeifolius, 56
altiarcuatus, 94
 ammobiis, 30, **49**
 amphichlorus, 32, **78**
 amplificatus, 33, **76**
amplificatus, 62, 63
amplifrons, 158
 analogus, 42, **206**
 andegavensis, 35, **115**
anglicanus, 173
anglicus, 77
anglosaxonicus, 166
 angusticuspis, 40, 132, **175**
angustifolius, 144
angustifrons, 205
anomalus, 45
 apiculatiformis, 38, **143**
 apiculatus, 15, 39, 137, **166**
 apricus, 41, 183, **187**
 arcticus, 1, 7, 8, 12, 24, 29, **43**
argenteus, 90
 argutifolius, 38, **147**, 178
 aristisepalus, 41, **197**
armeniacus, 102
 Arrhenii, 35, **106**, 107
 arrheniiformis, 30, **49**
 aspericaulis, 37, **133**
 asperidens, 41, **195**
 atrichantherus, 36, **123**
 atrocaulis, 33, **85**
atrocaulis, 87
 Averyanus, 32, **62**
 axillaris, 35, **107**

 Babingtonianus, 30, **66**
Babingtonii, 170
 badius, 23, 36, **122**
 Bakeranus, 18, 32, **74**
Bakeri, 74
 Balfourianus, Fig. 3; 6, 15, 22, 23, 30, **54**
Banningii, 83
Barbeyi, 22
 bavaricus, 41, **185**
 Bellardii, 9, 15, 42, 181, 198, **201**
Bellardii, 152
 belophorus, 33, **76**
bercheriensis, 187
 Bertramii, 30, **48**
biformis, 48
 bifrons, 34, **101**
 Billotii, 41, 53, **193**
bipartitus, 90, 103
Bloxamianus, 135
 Bloxamii, 38, **139**, 144
 Boraeanus, Fig. 27; 36, **117**
Borreri, 4, 170
botryeros, 4, 159
 Boulayi, 32, **73**
 brachyadenes, 38, **149**
bracteatus, 69
 bracteosus, 36, **127**
 Braeuckeri, 8, 35, **105**
 breconensis, 40, **180**
breviglandulosus, 4, 170
Briggsianus, 50
 Briggsii, 36, **123**
 britannicus, 31, **58**
Brittonii, 104
 broensis, 23, 33, **84**
