 in this publication, and does not guarantee that any content on such
 websites is, or will remain, accurate or appropriate.

Every effort has been made in preparing this book to provide accurate and up-to-date
 information which is in accord with accepted standards and practice at the time of
 publication. Although case histories are drawn from actual cases, every effort has been
 made to disguise the identities of the individuals involved. Nevertheless, the authors,
 editors and publishers can make no warranties that the information contained herein
 is totally free from error, not least because clinical standards are constantly changing through
 research and regulation. The authors, editors and publishers therefore disclaim all liability
 for direct or consequential damages resulting from the use of material contained in this book.
 Readers are strongly advised to pay careful attention to information provided by the
 manufacturer of any drugs or equipment that they plan to use.
