Abbott, D., 73
absorbing state, 472
acceptance-rejection method, 416, 492
accessibility, 472
addition rule, 33, 246
Albert, J., 281
Aldous, D.J., 57
aperiodicity, 484
arc-sine law, 27
array method, 61
axioms of probability, 33, 231

Bachelier, L., 187
Banach match problem, 316
Bayes' rule, 220, 270, 271, 428
Bayes, T., 7, 220
Bayesian statistics, 7, 204, 278, 428
Benford, F., 200
Benford's law, 200
Bennett, D.J., 53
Berger, J.O., 205
Bernoulli, D., 41, 47
Bernoulli, J., 2, 22, 108
Bernoulli distribution, 303
Bernoulli experiment, 108, 304
Berry, D.A., 205, 279
best-choice problem, 14, 37, 62, 69, 95, 105
beta density, 342
Big–Martingale system, 45
binomial coefficient, 534
binomial distribution, 110, 304, 438
birth-and-death process, 526
birthday problem, 11, 16, 76, 103, 116, 248, 439
bivariate normal distribution, 382, 448
Black, F., 196
Black–Scholes formula, 194
Boole's inequality, 238
bootstrap method, 101, 398
Borel–Cantelli lemma, 239
Box–Muller method, 377
boy–girl problem, 277
branching process, 441
Brown, R., 186
Brownian motion process, 186
  gambler's ruin formula, 190
Buffon, G., 209
Buffon's needle problem, 209, 234
Butterworth, W., 70

Cantor, G., 231
card shuffle, 56
Cardano, G., 2
Carson, J., 78
Cauchy density, 385, 443
Caulkins, J.P., 273
central limit theorem, 163, 166, 345, 454
  multidimensional, 393
chance tree, 215
Chapman–Kolmogorov equations, 468
Chebyshev's inequality, 155, 449
Chernoff bound, 448
chi-square density, 351, 372, 447
chi-square test, 399
Chib, S., 500
Chu, S., 121
Chuck-a-Luck, 304
closed set, 481
Coe, P.R., 70
coefficient of variation, 159
coin-tossing, 22, 70, 164, 197, 269, 426
