**NOTICE TO TEACHERS**

References to Activities contained in these resources are provided 'as is' and information provided is on the understanding that teachers and technicians shall undertake a thorough and appropriate risk assessment before undertaking any of the Activities listed. Cambridge University Press makes no warranties, representations or claims of any kind concerning the Activities. To the extent permitted by law, Cambridge University Press will not be liable for any loss, injury, claim, liability or damage of any kind resulting from the use of the Activities.

The photocopy masters in this publication may be photocopied or distributed free of charge for classroom use within the school or institution that purchased the publication. Worksheets and copies of them remain in the copyright of Cambridge University Press, and such copies may not be distributed or used in any way outside the purchasing institution.

The publisher is grateful to the experienced teachers Mansoorah Shoaib Shah, Lahore Grammar School, 55 Main, Gulberg, Lahore and Lynne Ransford for their careful reviewing of the content.

# Contents

Introduction	5	2.3 Soil habitat for earthworms	59
		2.4 Make an identification key	61
		2.5 A different style of key	62
		2.7 Wonderful water	63
<b>Unit 1</b>		<b>Unit 3</b>	
<i>Teaching ideas</i>	12	<i>Teaching ideas</i>	64
1.1 Skeletons	14	3.1 Matter	66
1.2 The human skeleton	16	3.2 Matter is made of particles	68
1.3 Why do we need a skeleton?	18	3.3 How do solids, liquids and gases behave?	70
1.4 Skeletons and movement	20	3.4 Melting, freezing and boiling	73
1.5 Drugs as medicines	23	3.5 Melting in different solids	75
1.6 How medicines work	25	3.6 Melting points and boiling points	78
1.7 Check your progress	26	3.7 Check your progress	79
<i>Worksheets</i>		<i>Worksheets</i>	
1.2 Label a skeleton	28	3.2 Make a particle model	81
1.3a Measuring bones	29	3.3a Squashing gases, liquids and solids	83
1.3b Draw a bar chart of bone size	30	3.3b Making crystals	85
1.4 Make a model of arm muscles	31	3.4a Observing boiling water	86
1.5 Analyse data on smoking	33	3.4b Observing a lit candle	87
		3.5 Draw a bar chart of melting times	88
<b>Unit 2</b>		3.6 Draw a bar chart of water temperatures	89
<i>Teaching ideas</i>	35	<b>Unit 4</b>	
2.1 Amazing birds	37	<i>Teaching ideas</i>	90
2.2 A habitat for snails	39	4.1 Sound travels through materials	92
2.3 Animals in local habitats	42	4.2 Sound travels through different materials?	94
2.4 Identification keys	43		
2.5 Identifying invertebrates	45		
2.6 How we affect the environment	47		
2.7 Wonderful water	49		
2.8 Recycling can save the Earth!	51		
2.9 Check your progress	53		
<i>Worksheets</i>			
2.1a Notes for a bird watcher	55		
2.1b The habitats of birds	56		
2.2 Habitats for snails	57		

4.3	How sound travels	96	<b>Unit 5</b>	
4.4	Loud and soft sounds	99	<i>Teaching ideas</i>	129
4.5	Sound volume	102	5.1	Electricity flows in circuits 132
4.6	Muffling sounds	104	5.2	Components and a simple circuit 134
4.7	High and low sounds	106	5.3	Switches 136
4.8	Pitch on percussion instruments	108	5.4	Circuits with more components 138
4.9	Having fun with wind instruments	109	5.5	Circuits with buzzers 140
4.10	Check your progress	110	5.6	Mains electricity 142
	<i>Worksheets</i>		5.7	Magnets in everyday life 144
4.1	Plan an investigation	112	5.8	Magnetic poles 145
4.2	Which material does sound travel through best?	114	5.9	Strength of magnets 149
4.3	Observe how vibrations cause sound	116	5.10	Which metals are magnetic? 151
4.4a	Make a stethoscope	118	5.11	Check your progress 153
4.4b	Research how deaf people make sounds louder	120		<i>Worksheets</i>
4.5a	Draw a bar chart of sound volumes	121	5.1	The sweetie model 154
4.5b	Record sound volumes	123	5.3	Make a clothes peg switch 155
4.6	Ways to muffle sound	124	5.5	Compare two circuits 156
4.7a	Make a matchbox guitar	125	5.7	Record results in a table 158
4.7b	Recall what you know about pitch	125	5.8a	Make a floating magnet 159
4.9	Fun with wind instruments	128	5.8b	Make a compass 160
			5.9a	Draw a bar chart to compare the strength of magnets 161
			5.9b	Use paper clips to test strength of magnets 162
			5.10	Record results about magnetic metals in a table 164

# Introduction

The *Cambridge Primary Science* series has been developed to match the Cambridge International Examinations Primary Science curriculum framework. It is a fun, flexible and easy to use course that gives both learners and teachers the support they need. In keeping with the aims of the curriculum itself, it encourages learners to be actively engaged with the content, and develop enquiry skills as well as subject knowledge.

This Teacher's Resource for Stage 4 gives extensive support for teaching Stage 4 of the curriculum framework. It frequently references the Learner's Book, ISBN 978-1-107-67450-9, and Activity Book, 978-1-107-65665-9, for Stage 4, offering guidance on how to get the best out of using those products. There are also many additional teaching ideas for you to choose from.

The main sections in this Teacher's Resource are:

*Teaching ideas.* These give you a whole range of ideas for how to present the topics in the classroom. This includes ideas for classroom activities, assessment and differentiation, and suggestions for ICT resources. References to the Learner's Book and Activity Book are provided throughout, including guidance notes on the activities suggested in the Learner's Book. The Teaching ideas are also available in editable format on the CD-ROM included with this Teacher's Resource, so that you can include your own notes.

*Worksheets.* A large collection of worksheets offers further activity and exercise ideas in addition to those included in the Learner's Book and Activity Book, while some of the worksheets are intended to support the Learner's Book activities. The worksheets are also available in editable format on the CD-ROM included with this Teacher's Resource, so that you can adapt them to your own needs.

*Answers to questions.* Answers to all the questions from the Learner's Book, the exercises in the Activity Book and the worksheets in this resource are provided.

We hope you enjoy using this series.

With best wishes,  
the Cambridge Primary Science team.
