Cambridge University Press & Assessment has no responsibility for the persistence  
 or accuracy of URLs for external or third-party internet websites referred to in this  
 publication and does not guarantee that any content on such websites is, or will  
 remain, accurate or appropriate.

Every effort has been made in preparing this book to provide accurate and up-to-date  
 information which is in accord with accepted standards and practice at the time of  
 publication. Although case histories are drawn from actual cases, every effort has been  
 made to disguise the identities of the individuals involved. Nevertheless, the authors,  
 editors and publishers can make no warranties that the information contained herein  
 is totally free from error, not least because clinical standards are constantly changing  
 through research and regulation. The authors, editors and publishers therefore  
 disclaim all liability for direct or consequential damages resulting from the use of  
 material contained in this book. Readers are strongly advised to pay careful attention  
 to information provided by the manufacturer of any drugs or equipment that they plan  
 to use.
