.....  
Every effort has been made in preparing this book to provide accurate and  
up-to-date information which is in accord with accepted standards and  
practice at the time of publication. Although case histories are drawn from  
actual cases, every effort has been made to disguise the identities of the  
individuals involved. Nevertheless, the authors, editors and publishers can  
make no warranties that the information contained herein is totally free  
from error, not least because clinical standards are constantly changing  
through research and regulation. The authors, editors and publishers  
therefore disclaim all liability for direct or consequential damages resulting  
from the use of material contained in this book. Readers are strongly  
advised to pay careful attention to information provided by the  
manufacturer of any drugs or equipment that they plan to use.
