CONTENTS.

	Page
CHAP. I. INTRODUCTORY.	1
CHAP. II. DEFINITION OF THE HAND	16
Its Mechanism	18
Conformity of the Skeleton to the Extremity	19
Bones of the Extremity not adapted to Man alone	20
Fossil Bones exhibit the Extent of the System	22
Animals the most uncouth, in every Respect adapted to their Condition	25
Mistaken Compassion for Animals of peculiar Form	26
Animals suited to the progressive Changes of the Earth and Elements	31
Succession and Grouping of Animals	36
CHAP. III. THE COMPARATIVE ANATOMY OF THE HAND	41
Comparative View of the Anatomy of the <i>Shoulder</i>	45
The Arms wanting in a Boy	51
The Structure of the Horse's Shoulder	53
Of the Elephant and Camel	56
In the Batrachia	58
In the Chelonian Order	60
The <i>Humerus</i> . Spirit in which the Demonstration should be given	65
Peculiarities in the Mole	68
Bat	69
Ant-eater	71
Adaptation of the Anatomy in Birds	73

xiv	CONTENTS.	Page
	Of the Pterodactyle	77
	<i>The Anatomy of the Fore Arm</i>	78
	Conclusions drawn from a Fragment of the Radius .	79
	The Action of the Splint Bone in the Horse . . .	86
	Horse's Foot	88
	Of Ruminants	92
	Contrast in the Foot of the Elephant and the Camel	94
	Megalonix	95
	Mechanism of the Lion's Claw	96
	Criticism by Cuvier	97
	The Foot of the Quadrumana	99
	Megatherium	100
	Of Amphibia	102
	Plesiosaurus and Ichthyosaurus	104
	Peculiarities and Provisions of the Human Hand .	107
	 CHAP. IV. OF THE MUSCLES OF THE ARM AND HAND.	 110
	Action of the Muscles of the Arm	111
	Interchange of Velocity for Force, exemplified in the Muscles of the Arm	115
	Illustrated by the Lever and Fly-wheel	116
	Muscles of the Lion's Extremity	120
	Vital Property of the Muscles	121
	Peculiarities in the Circulation of the Extremities as subservient to Muscular Action	122
	Of the Right and Left Hands	124
	 CHAP. V. THE SUBSTITUTION OF OTHER ORGANS FOR THE HAND	 126
	 CHAP. VI. THE ARGUMENT PURSUED FROM THE COM- PARATIVE ANATOMY	 134
	 CHAP. VII. OF SENSIBILITY AND TOUCH	 150
	The Sensibility of the Surface compared with that of the deeper Parts	154
	Pain the Safeguard of the Body	158
	The protecting Sensibility of the Eye compared with the Sensibility of the Heart	162

Cambridge University Press

CONTENTS.	xv
	Page
Pleasurable Sensations could not have been the Motives of Action	168
 CHAP. VIII. OF THE SENSES GENERALLY INTRODUCTORY TO THE SENSE OF TOUCH	
The Sense of Touch	171
Of the Cuticle	178
The Hoofs of Animals and their Sensibility	182
 CHAP. IX. OF THE MUSCULAR SENSE	
Of the Sensibility of the Infant to Impressions, and gradual Improvement of the Sense of Touch	191
Of the same in Insects and Fishes	200
Loss of the Sense	204
Pleasures arising from the Muscular Sense	205
 CHAP. X. THE HAND NOT THE SOURCE OF INGENUITY OR CONTRIVANCE, NOR CONSEQUENTLY OF MAN'S SUPERIORITY	
The Capacities of the Mind correspond with the Instrument	208
Instincts. Young of the Alligator	210
Malignant Passions find their Instruments without Hands.—The Beggar of Moscow	212
The Subject illustrated by the Organs of Speech	213
Improved Ingenuity defeats the Ancient Arts of Design	214
Expression in the Hand. Quintilian	217
Changes in the Globe and successive Epochs	218
Concluding Remarks	220
 ADDITIONAL ILLUSTRATIONS.	
THE MECHANICAL PROPERTIES OF THE SOLID STRUCTURE OF THE ANIMAL BODY CONSIDERED	
Substitute for the Skeleton in the Lower Animals	237
Mechanical Properties in Bone, or in the true Skeleton	238
Of the Muscular and Elastic Forces	243
	253

<i>On the Position of the Head of Animals, and its Relation to the Spine: in Illustration of the Statement made in the body of the Work, that ALL PARTS OF THE SKELETON CORRESPOND WITH EACH OTHER, AND THAT THE VARIATIONS IN THEIR FORM DEPEND SOLELY ON THE FUNCTIONS</i>	255
COMPARISON OF THE EYE WITH THE HAND	275
THE MOTION OF THE EYE CONSIDERED IN REGARD TO THE EFFECT OF SHADE AND COLOUR IN A PICTURE	296
EXPRESSION IN THE EYE	305

APPENDIX.

Explanation of Terms	309
