

## CAMBRIDGE LIBRARY COLLECTION

*Books of enduring scholarly value*

### **Cambridge**

The city of Cambridge received its royal charter in 1201, having already been home to Britons, Romans and Anglo-Saxons for many centuries. Cambridge University was founded soon afterwards and celebrates its octocentenary in 2009. This series explores the history and influence of Cambridge as a centre of science, learning, and discovery, its contributions to national and global politics and culture, and its inevitable controversies and scandals.

### **The Cambridge Portfolio**

The University of Cambridge has always inspired artists and writers, and these sumptuous volumes from 1840 portray some of its most important historic buildings, institutions and people. Each volume includes a collection of essays, anecdotes, poems and reminiscences on the colleges, museums, gardens, streets and character of the town, as well as historical essays on the Boat Race and university teaching. The many illustrations of major sights and important views, such as the Backs, the river Cam and Grantchester meadows, include works by or after several well-known artists, engraver Charles George Lewis and landscape painter John Murray Ince among them. With contributors drawn from the various colleges, the volumes include much interesting material on the history and customs of the University up to 1840. This miscellany is an ideal gift or collector's item for all those interested in the University of Cambridge.

Cambridge University Press has long been a pioneer in the reissuing of out-of-print titles from its own backlist, producing digital reprints of books that are still sought after by scholars and students but could not be reprinted economically using traditional technology. The Cambridge Library Collection extends this activity to a wider range of books which are still of importance to researchers and professionals, either for the source material they contain, or as landmarks in the history of their academic discipline.

Drawing from the world-renowned collections in the Cambridge University Library, and guided by the advice of experts in each subject area, Cambridge University Press is using state-of-the-art scanning machines in its own Printing House to capture the content of each book selected for inclusion. The files are processed to give a consistently clear, crisp image, and the books finished to the high quality standard for which the Press is recognised around the world. The latest print-on-demand technology ensures that the books will remain available indefinitely, and that orders for single or multiple copies can quickly be supplied.

The Cambridge Library Collection will bring back to life books of enduring scholarly value across a wide range of disciplines in the humanities and social sciences and in science and technology.

THE  
C A M B R I D G E  
P O R T F O L I O .

EDITED BY THE REV. J. J. SMITH, M.A.,  
FELLOW AND TUTOR OF GONVILLE AND CAIUS COLLEGE.

BAS.                               What have we here?  
ANTIP. A trimly-wrought Portfolio, my Lord,  
Full of rich things and rare devices.—I  
Have heard it was his love, his pet, his joy,—  
To glean by day, and sow for it by night:—  
Would it might please you!

VOLUME THE SECOND.

LONDON :  
JOHN W. PARKER, WEST STRAND.  
CAMBRIDGE: J. AND J. J. DEIGHTON.
