[An Asterisk means that the paper is not printed in full.]

	PAGE
486. <i>Note on Dr. Glaisher's paper on a theorem in definite integration</i> . . . . .	1
Quart. Math. Jour. t. x. (1870), pp. 355, 356	
487. <i>On the quartic surfaces <math>(*\mathfrak{X}U, V, W)^2 = 0</math></i> . . . . .	2
Quart. Math. Jour. t. xi. (1871), pp. 15—25	
488. <i>Note on a relation between two circles</i> . . . . .	12
Quart. Math. Jour. t. xi. (1871), pp. 82, 83	
489. <i>On the porism of the in-and-circumscribed polygon, and the (2, 2) correspondence of points on a conic</i> . . . . .	14
Quart. Math. Jour. t. xi. (1871), pp. 83—91	
490. <i>On a problem of elimination</i> . . . . .	22
Quart. Math. Jour. t. xi. (1871), pp. 99—101	
491. <i>On the quartic surfaces <math>(*\mathfrak{X}U, V, W)^2 = 0</math></i> . . . . .	25
Quart. Math. Jour. t. xi. (1871), pp. 111—113	
492. <i>Note on a system of algebraical equations</i> . . . . .	29
Quart. Math. Jour. t. xi. (1871), pp. 132, 133	
493. <i>On evolutes and parallel curves</i> . . . . .	31
Quart. Math. Jour. t. xi. (1871), pp. 183—200	
494. <i>Example of a special discriminant</i> . . . . .	46
Quart. Math. Jour. t. xi. (1871), pp. 211—213	
495. <i>On the envelope of a certain quadric surface</i> . . . . .	48
Quart. Math. Jour. t. xi. (1871), pp. 244—246	

C. VIII.

496. <i>Tables of the binary cubic forms for the negative determinants <math>\equiv 0 \pmod{4}</math> from <math>-4</math> to <math>-400</math>; and <math>\equiv 1 \pmod{4}</math> from <math>-3</math> to <math>-99</math>; and for five irregular negative determinants.</i>	51
Quart. Math. Jour. t. xi. (1871), pp. 246—261	
497. <i>Note on the calculus of logic</i>	65
Quart. Math. Jour. t. xi. (1871), pp. 282, 283	
498. <i>On the inversion of a quadric surface</i>	67
Quart. Math. Jour. t. xi. (1871), pp. 283—288	
499. <i>On the theory of the curve and torse</i>	72
Quart. Math. Jour. t. xi. (1871), pp. 294—317	
500. <i>On a theorem relating to eight points on a conic</i>	92
Quart. Math. Jour. t. xi. (1871), pp. 344—346	
501. <i>Review. Pineto's tables of logarithms</i>	95
Quart. Math. Jour. t. xi. (1871), pp. 375, 376	
502. <i>On the surfaces divisible into squares by their curves of curvature</i>	97
Proc. Lond. Math. Society, t. iv. (1871—1873), pp. 8, 9	
503. <i>On the surfaces each the locus of the vertex of a cone which passes through <math>m</math> given points and touches <math>6 - m</math> given lines</i>	99
Proc. Lond. Math. Society, t. iv. (1871—1873), pp. 11—47	
504. <i>On the mechanical description of certain sextic curves</i>	138
Proc. Lond. Math. Society, t. iv. (1871—1873), pp. 105—111	
505. <i>On the surfaces divisible into squares by their curves of curvature</i>	145
Proc. Lond. Math. Society, t. iv. (1871—1873), pp. 120, 121	
506. <i>On the mechanical description of a cubic curve</i>	147
Proc. Lond. Math. Society, t. iv. (1871—1873), pp. 175—178	
507. <i>On the mechanical description of certain quartic curves by a modified oval chuck</i>	151
Proc. Lond. Math. Society, t. iv. (1871—1873), pp. 186—190	
508. <i>On geodesic lines, in particular those of a quadric surface</i>	156
Proc. Lond. Math. Society, t. iv. (1871—1873), pp. 191—211

522. <i>Note on the theory of invariants</i> . . . . .	385
Math. Ann. t. III. (1871), pp. 268—271	
523. <i>On the transformation of unicursal surfaces</i> . . . . .	388
Math. Ann. t. III. (1871), pp. 469—474	
524. <i>On the deficiency of certain surfaces</i> . . . . .	394
Math. Ann. t. III. (1871), pp. 526—529	
525. <i>An example of the higher transformation of a binary form</i> . . . . .	398
Math. Ann. t. IV. (1871), pp. 359—361	
526. <i>On a surface of the eighth order</i> . . . . .	401
Math. Ann. t. IV. (1871), pp. 558—560	
527. <i>On a theorem in covariants</i> . . . . .	404
Math. Ann. t. V. (1872), pp. 625—629	
528. <i>On the non-Euclidian geometry</i> . . . . .	409
Math. Ann. t. V. (1872), pp. 630—634	
529. <i>A “Smith’s Prize” paper [1868]; solutions by Prof. Cayley</i> . . . . .	414
Oxford, Camb. and Dubl. Messenger of Mathematics, t. IV. (1868), pp. 201—226	
530. <i>Solution of a Senate-House problem</i> . . . . .	436
Oxford, Camb. and Dubl. Messenger of Mathematics, t. V. (1871), pp. 24—27	
531. <i>A “Smith’s Prize” paper [1869]; solutions by Prof. Cayley</i> . . . . .	439
Oxford, Camb. and Dubl. Messenger of Mathematics, t. V. (1871), pp. 41—64	
532. <i>Note on the integration of certain differential equations by series</i> . . . . .	458
Oxford, Camb. and Dubl. Messenger of Mathematics, t. V. (1871), pp. 77—82	
533. <i>On the binomial theorem, factorials, and derivations</i> . . . . .	463
Oxford, Camb. and Dubl. Messenger of Mathematics, t. V. (1871), pp. 102—114	
534. <i>A “Smith’s Prize” paper [1870]; solutions by Prof. Cayley</i> . . . . .	474
Oxford, Camb. and Dubl. Messenger of Mathematics, t. V. (1871), pp. 182—203
