

INDEX OF NAMES

(NOTE.—So much of this Index as relates to Vols. I—IV is almost identical with the corresponding Index on pp. 599—604 of Vol. IV. The part which relates to Vols. V and VI has been prepared on a fuller scale. In the earlier Index a considerable number of references of relatively minor importance were not included; and it appears that as a rule, when a name occurs on several pages of the same Article, only the first or a few of those pages were cited.)
