- ACETATES of copper and lead as dryers, 179
 Acid, acetic, 57, 143; carbolic, 11; citric, 57; hydrochloric, in zincography, 142; nitric, 13; phosphoric, 142; sulphuric, 142
 Acid stumps, 30
 Acids, action of, in etching chalk-drawings, 72
 Adjusting stones for pressure, 84
 Advantages, relative, of drawing on stone and paper, 48; of etching on copper, 50; of transfer methods, 81
 Advice to young printers, 110
 Albertype or Lichtdruk process, 194
 Albumen, 188, 192
 Alum, use of, 58, 170
 Ammonia bichromate, 188, 191
 Anastatic process, 216
 Angle for laying^rtransferred lines, 170
 Animal fat as addition to ink, 178
 Ante-damping fluid, 215
 Appliances for stone-grinding and polishing, 32
 Architectural bills of quantities, 42
 Aresti's method of imitating India-ink drawings, 169
 Asphaltum, use of, 160, 164
 Autographic transfers by turpentine, 122
 Autography, 47

 BACKING-SHEET, 27; oiled, 113
 Beddings, elastic, 26
 Bed or carriage of press, 24
 Beer, sour, 114
 Bibliography of Lithography, 243
 Bichromates of ammonia and potash, 188, 191
 Blanket backing for printing engraved stones, 139
 Blanketing, printers', for pulling copper-plates, 76; for machine, 228; for transferring, 28
 Blocks for rollers, 28
 Board for hand-rest, 19
 Body-colour inks, 11
 Boiling water for warming stones, 39
 Books on Colour, 174; on Lithography, 243
 Boxwood for scrapers, 26
 Brass for tympan, 26
 Brass point, use of, 52
 Brasses of the press, the, 25
 Bronzing in colour-printing, 126
 Brunswick-black, use of, 160, 164
 Brush for dusting, 16
 Brushes, how to use, 49; for lithographic drawing and writing, 15; mounting, 16

 CABINET paper, peculiar use of, 47
 Callipers, 34
 Camera, use of, in photo-lithography, 190
 Cams, or eccentrics, 22; of the press, 25
 Canada balsam, 127, 180
 Cans, removal of soldered tops of, 98

- Canvas, how to imitate, 184
 Carbohc acid in gum water, 11
 Carriage, or bed of press, 24
 Chalk, imitation of, by white tints, 160
 Chalk, Lemercier's, 6; stumping, 6
 Chalk transfer-paper, 45
 Chalks, copal, 64; lithographic, their general nature, 6; pointing the, 64; red, 121, 146
 Chalk-drawing, how to make transfer-paper for, 210
 Chalk-drawing on stone, 60
 Chalk-drawing on stone, etching, 69
 Chalk-drawings, printing from, 113
 Chemical principles on which lithography is based, 2
 Chisel and mallet for trimming stones, 35
 Chromo-lithography, general hints for, 172; its general conditions, 144; keystone for, 144; making the tints, 159; modes of registering in, 148; order of the colours for, 147; principles of, 144; printing in, 174; rollers for machine-work, 238
 Chromo transfer prints, 184
 Circular writing, 51
 Circulars, how laid on stone, 93-95
 Citric acid, 57
 Cleaning press cylinder, 24
 Cleaning rollers, 29
 Cleaning-up work on stone, 90
 Cloth for damping, 14
 Collodionising or enamelling, process of, 211
 Collodion-varnish, recipe for, 213
 Colouring transfer-paper, 206
 Colours for chromo-lithography, order of, 147; hard to grind, 11; list of, 175; selection of, 177; setting-off upon the stone, 157
 Compasses for engraving, 133
 Copal chalk, 64
 Copal varnish, 127, 185
 Copper-plate style of writing, 42
 Copper-plate transfers, 75, 78; failures in, 79
 Copper-plate, warming, 76
 Correcting, principles of, 57
 Corrections, in chalk drawings, 67, 74; on engraved stones, 137; on polished stones after rolling-up, 56; during the work, *ib.*; on transfer-paper, 41
 Crayon-holders, 18
 Crayons, lithographic, how to make, 203
 Cross-head of press, 22
 Crowbar for raising stones, 35
 Cutting hair pencils or brushes, 15
 Cylinder of the machine and its covering, 227
 Cylinder of the press, 24
 DABBERS for printing engraved stones, 138
 Dabbing style of lithography, 129; recipe for ink for, 203
 Damping-cloth, 14
 Damping, at machine, 235; paper for printing, *rationale* and method of, 105; paper for transfer-pulling, 77
 Damping-rollers, 226
 Decalcomanie, 184
 Defects, and remedies in printing, 107, 110; in etching, 116, 117; in transferring, 88
 Development of photo-litho transfer, 191
 Difficulties of early lithographers, 3
 Dirt, sources of, in chalk drawing, 66
 Distribution of printing-ink, 99, 231
 Dotted lines, how produced, 51
 Double-faced stones, 5
 Drawing on stone, the chalk method, 66; the pen and brush method, 48; precautions to be observed in, 58
 Drawing on transfer-paper, essentials of, 44
 Drawings, chalk, re-etching, 116
 Drawings, rolling-up old ones, 214
 Dryers for inks, 179; influence on rollers, 29
 Drying transfer-paper, 207
 Duct (Ink) in machines, 240

- PALETTE-KNIFE**, the, 31
Paper, cabinet, use of, 47; condition of, in colour printing, 155; for chalk transfers, 45; for machine-printing, 236; for press-printing, 104; how to damp, 105; India, preparation of, for printing, 106; lithography on, 40; tracing, for making copies, 7; lithography on transfer, 40; plain, writing on, 47; transfer, plate, 12; transfer, tracing, 44; transfer, for tinting and drawing, 6
Pencils, hair, or brushes, 15; how used, 49; snake-stone, 14; for tracing, 48
Penetration of the stone by ink and gum, 36
Pens for writing and drawing, how to make, 16; how to make from watch-spring, 17; how used in writing, 42
Pentagraph, for reducing and enlarging, 217
Phosphoric acid, 142
Photographs, tracing from, 119; transferring from, 121
Photo-lithographic transfer-paper, 191
Photo-lithography, general principles of, 187; transposition by, 124
Pigments for coloured inks, 174; hard, to grind, 11
Plaster of Paris, use of, 208, 216
Plate transfer-ink, use of and price, 13; recipe for, 203
Plate transfer-paper, its use and price, 12, 13
Plates for zincography, preparation of, 140; method of taking the impression from, 78; transferring from music, 215; tints from, stippled, 171
Polishing the stone, 38
Porcelain, or enamelled paper, how to make, 211
Precautions in drawing on stone, 58
Preparation of ink for writing, &c., 40; of printing-ink, 98; of stone for machine-work, 229; of rollers, 28; of stone for corrections, 57, 58; of stone for engraving, 133
Preserving gum-water, 11, 12; work on stone, 213
Press, bed, or carriage of the, 24; cross-head of, 22; cylinder, 24; for pulling plate-transfers, 75; framing, the, 22; general principles of the, 20; handle, the, 24; key, 24; lever, the, 25; pressure-screw, 24; scraper, 25; scraper-box of, 24; varieties of construction, 21
Pressure, how to adjust, 84
Printing, at machine, 229; at press, 93; bronzing, in connection with, 126; damping paper for, 105; defects and remedies in, 107; dusting in connection with, 126; from chalk drawings, 113-118; from engravings on stone, 138; from zinc, 142; in the chromo-lithographic method, 174; metalling in connection with, 126; paper for, 104; preparation of India-paper for, 106; "setting-off" in, 112; "slurring" in, 111; temperature in, 104; in tints, 165, 181; treatment of transfers previously to, 89
Printing-ink, black and coloured, 9; influence of varnish on, 10; its preparation, 98; price of, 9
Proving chalk-work, 114; transfer-work, 89
Prints, chromo-transfer, 184
Pumice-stone, 14
QUANTITIES, sheets of, 42
RAGS, how to economize, 217
Rasp, the, 35
Recipes for inks, crayons, varnishes, &c., 197
Red chalk, use of, 121, 146
Re-etching chalk drawings, 116
Registers, setting a stone for, 238
Registering, 148; a new way, 153; machine, 237; by fixed points,

- 150; by lay, 149; by needles, *ib.*; by machine, 154; by points in stone, 151; condition of paper for, 155; mode of, in chromo-lithography, 148
- Retouching on grained stones, 74
- Retransfer ink, stone to stone, 13; for stone, recipe for, 202; for type, 13; for type, recipe for, 202
- Retransfers from stone, 80
- Reversing transfers, 122
- Riders, use of, in machines, 231
- Roller-handles, 29
- Roller, handles of press, 29; manipulation of in printing, 100; the glazed, 30, 181; how prepared for use, 28
- Rollers for colour-printing by machinery, 238; for damping, 226; machine, 226; washable, 239
- Rollers, press, 68
- Rolling, instructions for, 100
- Rolling-up, 56
- Rolling-up drawings, 214
- Rosining-up, 116, 118
- Roughing stones for imitating water-colour drawings, 183
- Rounding edges of stone, 39
- Rubbing in tints and ink for, 162, 163
- Rubbing up work on stone, 89
- Ruling-pen, to reset, 59
- SAL-AMMONIAC, use of, 58, 170
- Salt, its use with turpentine, 29
- Sand, gradation of the, 37; how used, 14
- Sandars, Mr. H., novel method by, of cutting a brush, 15
- Scotch re-transfer paper, how to make, 208
- Scraper-box of press, 24
- Scrapers, 25; adjustment of, 84; for corrections, &c., 18; for zinc plates, 141
- Scraping for dotted lines, 51; roller, 29
- Screw, pressure, of the press, 24
- Senefelder's compositions for crayons, 204; for inks, 202
- Sensitive transfer-paper, preparation of for photo-lithography, 191
- Setting-off in printing, 112, 157, 215; prevention of, 113
- Setting ruling-pen, 59
- Set-off or faint, 146
- Sieves, 33
- Simpson, Mr. William, on litho-writing-ink, 40
- Slab for ink, 31
- Slope for writing, 42, 43, 52
- Slurring in printing, 111
- Smuttiness of impression, 102
- Snake-stone, 14
- Soap, uses of, in the lithographic art, 197
- Speed of lithographic machines, 232
- Spirits of salts, 142
- Sponge, 13; its price, *ib.*; how to prepare, *ib.*
- Sprinkled method, stopping-out in, 54
- Squeegee, usefulness of, 31
- Steatite, or French chalk, 112
- Steel pens, use of in lithography, 17
- Stippled plates for graining-paper, 45
- Stippling, process of, 55
- Stone and paper, relative advantages of drawing on, 48
- Stone, condition of, for reception of transfers, 81; corrections on polished, 56; engraving on, 131; etching chalk drawings on, 69; graining for chalk-drawing, 61; grinding and polishing, 35; appliances for, 32; machines, 39; horse, 35; ink-writing and drawing on, 48; marking, for laying down transfers, 92; precautions to be observed in drawing on, 58; preparation of for engraving, 133; preparation of for machine-printing, 229; recipe for preserving drawings on, 213; prevention of set-off on, 215; setting for register, 238; setting-off in machine-work, 234; setting-off colours upon the, 157; substitutes for, 5; to take retransfers from, 80; tracing on, 135; tracing

- the outline to, for chalk drawing, 62 ; transfer-paper, how to make for warm stone, 206 ; transferring to dry, 83 ; transferring to wet, 86 ; writing on, for circulars, 51
- Stones, cold, transfer-paper for, how to make, 206
- Stones, double-faced, 5 ; how to back, 216 ; marking the depth to be ground, 36 ; their defects, 4 ; their prices, *ib.* ; their varieties and characteristics, 3
- Stone-trough, the, 32
- Stopping-out for tints, 160 ; for transferred machine-ruling, 54 ; in sprinkled method, *ib.* ; varnish, 217
- Straight-edge, 34
- Straining transfer-paper for drawing upon, 43 ; effects of, 44
- Stumped-in tints, 169
- Stumping, 65, 130
- Stumping-chalks, 6
- Stumps, acid, 30
- Substitutes for stone, 5
- Sulphate of zinc as a dryer, 179
- Sulphuric acid, 142
- TALC, 112
- Temperature, avoiding effects of too high, 104 ; in printing, *ib.* ; of stones in transferring, 81
- Testing stones by straight-edge, 34
- Testing the grain of a stone, 38
- Tint-printing, 165, 181
- Tinting in chalk-drawing, 66
- Tints by stippled plates, 171 ; by transferring lines, 170 ; in chromolithography, 159 ; etching of, 167 ; ink for, 180 ; in ink drawing, 50 ; printing in, 165, 181 ; stumped in, 169 ; washing in for chromolithography, 166
- Tools for engraving on stone, 132
- Touching-up work on stone, 58
- Tracing from photographs, paintings, &c., 119 ; on stone, 48, 62, 135
- Tracing, transfer-paper for, 44
- Tracing-paper, 7
- Tracing-papers, coloured, 209
- Tracing-point, to make, 133
- Transfer, for photo-lithography, inking of, 191 ; drawing, essential points in, 44 ; ink, for copper-plates, recipes for, 203 ; lithography, 40 ; methods, advantages of, 81
- Transfer-paper, chalk, 45, 210 ; colouring of, 206 ; for cold stones, 206 ; for colour-work, 210 ; for tracing, 44 ; for warm stones, how to make, 206 ; glazing of, 207 ; how to dry, 207 ; how to strain flat for drawings, 43 ; materials suitable for coating, 7 ; plate, 12, 13 ; price of, 7 ; sensitive, for photo-lithography, 191 ; writing and drawing, general character of, 6
- Transferred machine ruling, stopping-out for, 54
- Transferring, backing for, 28 ; from photographs, 121 ; stone, 88 ; methods of, 82 ; multiplication of colour subjects by, 185 ; photo-lithography, 192 ; taking impressions for, 75 ; to dry stone, 83 ; to wet stone, 86 ; lines, tints formed by, 170
- Transfers, autographic, by turpentine, 122 ; condition of stone for reception of, 81 ; etching, previous to printing, 91 ; from music-plates, 215 ; plate, press for, 75 ; stone, 80 ; from type and woodcuts, 80 ; from zinc, 141 ; marking the stone for laying down, 92 ; reversing, 122 ; treatment of, previous to printing, 89.
- Transposition of black and white, 123 ; by photo-lithography, 124
- Trolley, 35
- Trough, for stone-grinding, 32
- Turn-table, 19 ; substitute for, 20
- Turpentine, or turps, 14 ; autographic transfers by, 122 ; use of in grinding pigments, 11
- Tympan-frame of press, 24
- Tympans, how made, 25
- Type and woodcuts, transfers from, 80 ; re-transfer-ink for, 13 ; recipes for, 202

THE GRAMMAR OF LITHOGRAPHY.

- VARNISH, danger in making, 8 ;
 recipe for, 205 ; its influence on
 printing-ink, 10 ; price of, 9 ;
 recipe for collodion, 213 ; stop-
 ping-out, 217
 Varnishing, process of, 213
 Vanhymbeeck's drawing-ink, 5
- WARMING copper - plates, 76 ;
 stones, 39 ; stones for transfers,
 81
 Washing out tints, 166
 Washable printing-rollers, 239
 Water-of-Ayr stone, 14
 Water, bottle for, 7 ; for dissolving
 writing and drawing ink, 7 ; gum,
 11 ; hot, for warming stones, 39
 Wet stone, transferring to, 86
 White chalk, how imitated, 160
- White letters, &c., on black ground,
 53
 White pigments in ink, 180
 Woodcuts, transfers from, 80
 Writing, copper-plate style, 42 ;
 and drawing on stone, 48 ; fac-
 similes of, 46 ; "old English" or
 "German text," 42 ; on plain
 paper, 47 ; on stone, 51 ; slope
 for, 42, 43, 52 ; ornamental styles
 of, 42 ; recipe for inks for, 198
- ZINC for tympan, 26 ; printing from,
 142 ; transfers from, 141
 Zinc plates, gauges of, 140
 Zinc white in printing ink, 11, 180
 Zinc white in paper, 211
 Zincography, preparation of plates
 for, 140 ; principles of, 139

THE END.
