CAMBRIDGE LIBRARY COLLECTION

Books of enduring scholarly value

Classics

From the Renaissance to the nineteenth century, Latin and Greek were compulsory subjects in almost all European universities, and most early modern scholars published their research and conducted international correspondence in Latin. Latin had continued in use in Western Europe long after the fall of the Roman empire as the lingua franca of the educated classes and of law, diplomacy, religion and university teaching. The flight of Greek scholars to the West after the fall of Constantinople in 1453 gave impetus to the study of ancient Greek literature and the Greek New Testament. Eventually, just as nineteenth-century reforms of university curricula were beginning to erode this ascendancy, developments in textual criticism and linguistic analysis, and new ways of studying ancient societies, especially archaeology, led to renewed enthusiasm for the Classics. This collection offers works of criticism, interpretation and synthesis by the outstanding scholars of the nineteenth century.

A History of Greece

Widely acknowledged as the most authoritative study of ancient Greece, George Grote's twelve-volume work, begun in 1846, established the shape of Greek history which still prevails in textbooks and popular accounts of the ancient world today. Grote employs direct and clear language to take the reader from the earliest times of legendary Greece to the death of Alexander and his generation, drawing upon epic poetry and legend, and examining the growth and decline of the Athenian democracy. The work provides explanations of Greek political constitutions and philosophy, and interwoven throughout are the important but outlying adventures of the Sicilian and Italian Greeks. Volume 8 takes the story from the overthrow of the Four Hundred in Athens to the death of Alkibiades in 404 BCE, and also contains chapters on drama and rhetoric, and on the philosophy of the Sophists and of Sokrates.

Cambridge University Press has long been a pioneer in the reissuing of out-of-print titles from its own backlist, producing digital reprints of books that are still sought after by scholars and students but could not be reprinted economically using traditional technology. The Cambridge Library Collection extends this activity to a wider range of books which are still of importance to researchers and professionals, either for the source material they contain, or as landmarks in the history of their academic discipline.

Drawing from the world-renowned collections in the Cambridge University Library, and guided by the advice of experts in each subject area, Cambridge University Press is using state-of-the-art scanning machines in its own Printing House to capture the content of each book selected for inclusion. The files are processed to give a consistently clear, crisp image, and the books finished to the high quality standard for which the Press is recognised around the world. The latest print-on-demand technology ensures that the books will remain available indefinitely, and that orders for single or multiple copies can quickly be supplied.

The Cambridge Library Collection will bring back to life books of enduring scholarly value (including out-of-copyright works originally issued by other publishers) across a wide range of disciplines in the humanities and social sciences and in science and technology.

HISTORY OF GREECE.

BY

GEORGE GROTE, Esq.

VOL. VIII.

LONDON:

JOHN MURRAY, ALBEMARLE STREET.

1850.

PREFACE TO VOL. VIII.

I HAD hoped to be able, in this Volume, to carry the history of Greece down as far as the battle of Knidus ; but I find myself disappointed.

A greater space than I anticipated, has been necessary, not merely to do justice to the closing events of the Peloponnesian war, especially the memorable scenes at Athens after the battle of Arginusæ—but also to explain my views both respecting the Sophists and respecting Sokratês.

It has been hitherto common to treat the Sophists as corruptors of the Greek mind, and to set forth the fact of such corruption, increasing as we descend downwards from the great invasion of Xerxês, as historically certified. Dissenting as I do from former authors, and believing that Grecian history has

been greatly misconceived, on both these points—I have been forced to discuss the evidences, and exhibit the reasons for my own way of thinking, at considerable length.

To Sokratês I have devoted one entire Chapter. No smaller space would have sufficed to lay before the reader any tolerable picture of that illustrious man—the rarest intellectual phænomenon of ancient times, and originator of the most powerful scientific impulse which the Greek mind ever underwent.

G. G.

London, February 1850.

VOL. VIII.

CHAPTER LXII.

Twenty-first Year of the War.—Oligarchy of Four Hundred at Athens.

	Page
Rally of Athens, during the year after the defeat at Syracuse. B.C. 412.—Commencement of the conspiracy of the Four Hundred at Athens—Alkibiadês.—Order from Sparta to kill Alkibiadês.—He escapes, retires to Tissaphernês, and becomes adviser of the Persians.—He advises the satrap to assist neither of the Grecian parties heartily—but his advice leans towards Athens, with a view to his own restoration.—Alkibiadês acts as negotiator for Tissaphernês at Magnesia.—Diminution of the rate of pay furnished by Tissaphernês to the Peloponnesians.—Alkibiadês opens correspondence with the Athenian officers at Samos. He originates the scheme of an oligarchical revolution at Athens.—Conspiracy arranged between the Athenian officer and Alkibiadês.—Oligarchical Athenians—the hetæries or political clubs. Peisander is sent to push forward the conspiracy at Athens.—Credulity of the oligarchical conspirators.—Opposition of Phrynichus at Samos to the conspirators and to Alkibiadês.—Manceuvres and counter-manceuvres of Phrynichus and Alkibiadês.—Proceedings of Peisander at Athens—strong opposition among the people both to the conspiracy and to the restoration of Alkibiadês.—Unwilling vote of the assembly to relinquish their democracy, under the promise of Persian aid for the war. Peisander is sent back to negotiate with Alkibiadês.—Peisander brings the oligarchical clubs at Athens into organised action against the democracy.—Peisander leaves Athens for Samos—Antiphon takes the management of the oligarchical conspiracy—Theramênês and Phrynichus.—Military operations near	

the Asiatic coast.—Negotiations of Peisander with Alkibiadés.—Tricks of Alkibiadés—he exaggerates his demands with a view of breaking off the negotiation—indignation of the oligarchs against him.—Reconciliation between Tis-saphernês and the Peloponnesians.—Third convention concluded between them.—Third convention compared with the two preceding.—Loss of Orôpus by Athens.—Peisander and his colleagues persist in the oligarchical conspiracy, without Alkibiadés.—They attempt to subvert the democracy at Samos—assassination of Hyperbolus and others.—The democracy at Samos is sustained by the Athenian armament.—The Athenian Parali—defeat of the oligarchical conspiracy at Samos.—The Paralus is sent to Athens with the news.—Progress of the oligarchical conspiracy at Athens—dexterous management of Antiphon.—Language of the conspirators—juggle about naming Five Thousand citizens to exercise the political franchise exclusively.—Assassination of the popular speakers by Antiphon and the oligarchical party.—Return of Peisander to Athens—oligarchical government established in several of the allied cities.—Consummation of the revolution at Athens—last public assembly at Kolônus.—Abolition of the Graphê Paranomôn.—New government proposed by Peisander—oligarchy of Four Hundred.—Fictitious and nominal aggregate called the Five Thousand.—The Four Hundred install themselves in the senate-house, expelling the senators by armed force.—Remarks on this revolution.—Attachment to constitutional forms at Athens—use made of this sentiment by Antiphon, to destroy the constitution.—Demagogues the indispensable counterpoise and antithesis to the oligarchs.—Proceedings of the Four Hundred in the government.—They make overtures for peace to Agis, and to the Spartans.—They send envoys to the camp at Samos.—First news of the revolution is conveyed to the camp by Chæreas—strong sentiment in the camp against the Four Hundred.—Ardent democratical manifestation, and emphatic oath, taken both by the Athenian armament at Samos and by the Samians.—The Athenian democracy is reconstituted by the armament—public assembly of the soldiers—new generals chosen.—Alkibiadés opens correspondence with the democratical armament at Samos.—Alkibiadés comes to Samos, on the invitation of the armament.—Confidence placed by the armament in his language and promises—they choose him one of their generals.—New position of Alkibiadés—present turn of his

ambition.—The envoys of the Four Hundred reach Samos—
 —are indignantly sent back by the armament.—Eagerness
 of the armament to sail to Peiræus—is discountenanced by
 Alkibiadês—his answer to the envoys.—Dissuasive advice
 of Alkibiadês—how far it is to be commended as sagacious.
 —Envoys sent from Argos to the “Athenian Demos at
 Samos.”—Return of the envoys of the Four Hundred from
 Samos to Athens—bad prospects of the oligarchy.—Mis-
 trust and discord among the Four Hundred themselves.
 An opposition party formed under Theramenês.—Thera-
 menês demands that the Five Thousand shall be made a
 reality.—Measures of Antiphon and the Four Hundred—
 their solicitations to Sparta—construction of the fort of
 Eetioneia, for the admission of a Spartan garrison.—Un-
 accountable backwardness of the Lacedæmonians.—Assas-
 sination of Phrynichus—Lacedæmonian fleet hovering near
 Peiræus.—Rising at Athens against the Four Hundred—
 demolition of the new fort at Eetioneia.—Decline of the
 Four Hundred—concessions made by them—renewal of the
 public Assembly.—Lacedæmonian fleet threatens Peiræus
 —passes by to Eubœa.—Naval battle near Eretria—Athe-
 nians defeated—Eubœa revolts.—Dismay at Athens—her
 ruin inevitable, if the Lacedæmonians had acted with
 energy.—The Four Hundred are put down—the demo-
 cracy in substance restored.—Moderation of political an-
 tipathies, and patriotic spirit, now prevalent.—The Five
 Thousand—a number never exactly realised—were soon
 enlarged into universal citizenship.—Restoration of the
 complete democracy, all except pay.—Psephism of Dêmo-
 phantus—democratical oath prescribed.—Flight of most of
 the leaders of the Four Hundred to Dekeleia.—Theramenês
 stands forward to accuse the remaining leaders of the Four
 Hundred, especially in reference to the fort at Eetioneia,
 and the embassy to Sparta.—Antiphon tried, condemned,
 and executed.—Treatment of the Four Hundred generally.
 —Favourable judgment of Thucydîdês on the conduct of
 the Athenians.—Oligarchy at Athens, democracy at Samos
 —contrast

generals—they affirm that they had commissioned Thera-
menês himself to undertake the duty.—Reason why the
generals had not mentioned this commission in their des-
patch.—Different account given by Diodorus.—Probable
version of the way in which the facts really occurred.—
Justification of the generals—how far valid?—The alleged
storm. Escape of Eteonikus.—Feelings of the Athenian
public—how the case stood before them—decision adjourned
to a future assembly.—Occurrence of the festival of Apa-
turia—the great family solemnity of the Ionic race.—Burst
of feeling at the Apaturia—misrepresented by Xenophon.—
Proposition of Kallixenus in the senate against the generals
—adopted and submitted to the public assembly.—Injustice
of the resolution—by depriving the generals of the customary
sécurities for judicial trial. Psephism of Kannônus.—Op-
position taken by Euryptolemus on the ground of constitu-
tional form.—Graphê Paranomôn.—Excitement of the as-
sembly—constitutional impediment overruled.—The Pryta-
nes refuse to put the question—their opposition overruled,
all except that of Sokratês.—Altered temper of the assem-
bly when the discussion had begun—amendment moved
and developed by Euryptolemus.—Speech of Euryptolemus.
—His amendment is rejected—the proposition of Kallixenus
is carried.—The six generals are condemned and executed.
—Injustice of the proceeding—violation of the democratical
maxims and sentiments.—Earnest repentance of the people
soon afterwards—disgrace and end of Kallixenus.—Causes
of the popular excitement.—Generals—not innocent men. . 184–284

CHAPTER LXV.

From the Battle of Arginusæ to the Restoration of the Demo-
cracy at Athens, after the Expulsion of the Thirty.

Alleged propositions of peace from Sparta to Athens—doubt-
ful.—Eteonikus at Chios—distress of his seamen—conspi-
racy suppressed.—Solicitations from Chios and elsewhere
that Lysander should be sent out again.—Arrival of Lysan-
der at Ephesus—zeal of his partisans—Cyrus.—Violent
revolution at Milêtus by the partisans of Lysander.—Cyrus
goes to visit his dying father—confides his tributes to Ly-
sander.—Inaction of the Athenian fleet after the battle of
Arginusæ. Operations of Lysander.—Both fleets at the
Hellespont.—Athenian fleet at Ægospotami.—Battle of

Page

and Euripidês — modifications of tragedy. — Popularity arising from expenditure of money on the festivals. — Growth and development of Comedy at Athens. — Comic poets before Aristophanês — Kratinus, &c. — Exposure of citizens by name in Comedy — forbidden for a time — then renewed — Kratês and the milder Comedy. — Aristophanês. — Comedy in its effect on the Athenian mind. — Mistaken estimate of the comic writers, as good witnesses or just critics. — Aversion of Solon to the drama when nascent. — Dramatic poetry as compared with the former kinds of poetry. — Ethical sentiment, interest and debate, infused into the drama. — The drama formed the stage of transition to rhetoric, dialectics, and ethical philosophy. — Practical value and necessity of rhetorical accomplishments. — Rhetoric and dialectics. — Empedoklês of Agrigentum — first name in the rhetorical movement. — Zeno of Elea — first name in the dialectical movement. — Eleatic school — Parmenidês. — Zeno and Melissus — their dialectic attacks upon the opponents of Parmenidês. — Zeno at Athens — his conversation both with Periklês and with Sokratês. — Early manifestation, and powerful efficacy, of the negative arm in Grecian philosophy. — Rhetoric and dialectics — men of active life and men of speculation — two separate lines of intellectual activity. — Standing antithesis between these two intellectual classes — vein of ignorance at Athens, hostile to both. — Gradual enlargement of the field of education at Athens — increased knowledge and capacity of the musical teachers. — The Sophists — true Greek meaning of that word — invidious sentiment implied in it. — The name Sophist applied by Plato in a peculiar sense, in his polemics against the eminent paid teachers. — Misconceptions arising from Plato's peculiar use of the word Sophist. — Paid teachers or Sophists of the Sokratic age — Protagoras, Gorgias, &c. — Plato and the Sophists — two different points of view — the reformer and theorist against the practical teacher. — The Sophists were professional teachers for active life, like Isokratês and Quintilian. — Misinterpretations of the dialogues of Plato as carrying evidence against the Sophists. — The Sophists as paid teachers — no proof that they were greedy or exorbitant — proceeding of Protagoras. — The Sophists as rhetorical teachers — groundless accusations against them in that capacity, made also against Sokratês, Isokratês and others. — Thrasymachus — his rhetorical precepts — Prodikus — his discrimination of words analogous in meaning. — Protagoras —

his treatise on Truth—his opinions about the Pagan gods.—His view of the cognitive process and its relative nature.—Gorgias—his treatise on physical subjects—misrepresentations of the scope of it.—Unfounded accusations against the Sophists.—They were not a sect or school, with common doctrines or method: they were a profession, with strong individual peculiarities.—The Athenian character was not really corrupted, between 480 B.C. and 405 B.C.—Prodikus—The Choice of Hercules.—Protagoras—real estimate exhibited of him by Plato.—Hippias of Elis—how he is represented by Plato.—Gorgias, Pôlus, and Kalliklês.—Doctrine advanced by Pôlus.—Doctrine advanced by Kalliklês—anti-social.—Kalliklês is not a Sophist.—The doctrine put into his mouth could never have been laid down in any public lecture among the Athenians.—Doctrine of Thrasymachus in the ‘Republic’ of Plato.—Such doctrine not common to all the Sophists—what is offensive in it is, the manner in which it is put forward.—Opinion of Thrasymachus afterwards brought out by Glaukon—with less brutality, and much greater force of reason.—Plato against the Sophists generally. His category of accusation comprehends all society, with all the poets and statesmen.—It is unjust to try either the Sophists, or the statesmen of Athens, by the standard of Plato.—Plato distinctly denies that Athenian corruption was to be imputed to the Sophists.—The Sophists were not teachers of mere words, apart from action.—General good effect of their teaching upon the youth.—Great reputation of the Sophists—evidence of respect for intellect and of a good state of public sentiment 434–544

CHAPTER LXVIII.

Sokratês.

Different spirit shown towards Sokratês and towards the Sophists.—Birth and family of Sokratês.—His physical and moral qualities.—Xenophon and Plato as witnesses.—Their pictures of Sokratês are in the main accordant.—Habits of Sokratês.—Leading peculiarities of Sokratês.—His constant publicity of life and indiscriminate conversation.—Reason why Sokratês was shown up by Aristophanês on the stage.—His persuasion of a special religious mission.—His Dæmon or Genius—other inspirations.—Oracle from Delphi declaring that no man was wiser than he.—His mission to

test the false conceit of wisdom in others.—Confluence of the religious motive with the inquisitive and intellectual impulse in his mind—numerous enemies whom he made.—Sokratês a religious missionary, doing the work of philosophy.—Intellectual peculiarities of Sokratês.—He opened ethics as a new subject of scientific discussion.—Circumstances which turned the mind of Sokratês towards ethical speculations.—Limits of scientific study as laid down by Sokratês.—He confines study to human affairs, as distinguished from divine—to man and society.—Importance of the innovation—multitude of new and accessible phænomena brought under discussion.—Innovations of Sokratês as to method—dialectic method—inductive discourses—definitions.—Commencement of analytical consciousness of the mental operations—genera and species.—Sokratês compared with previous philosophers.—Great step made by Sokratês in laying the foundation of formal logic, afterwards expanded by Plato, and systematised by Aristotle.—Dialectical process employed by Sokratês—essential connexion between method and subject.—Essential connexion also between the dialectic process and the logical distribution of subject-matter—One in Many and Many in One.—Persuasion of religious mission in Sokratês, prompting him to extend his colloquial cross-examination to noted men.—His cross-examining purpose was not confined to noted men, but of universal application.—Leading ideas which directed the scrutiny of Sokratês—contrast between the special professions and the general duties of social life.—Platonic dialogues—discussion whether virtue is teachable.—Conceit of knowledge without real knowledge—universal prevalence of it.—Such confident persuasion, without science, belonged at that time to astronomy and physics, as well as to the subjects of man and society—it is now confined to the latter.—Sokratês first lays down the idea of ethical science, comprising the appropriate ethical end with theory and precepts.—Earnestness with which Sokratês inculcated self-examination—effect of his conversation upon others.—Preceptorial and positive exhortation of Sokratês chiefly brought out by Xenophon.—This was not the peculiarity of Sokratês—his powerful method of stirring up the analytical faculties.—Negative and indirect scrutiny of Sokratês produced strong thirst, and active efforts, for the attainment of positive truth.—Inductive process of scrutiny, and Baconian spirit, of Sokratês.—Socratic method tends to create minds capable of forming

b

conclusions for themselves—not to plant conclusions ready-made.—Grecian dialectics—their many-sided handling of subjects—force of the negative arm.—The subjects to which they were applied—man and society—essentially required such handling—reason why.—Real distinction and variance between Sokratês and the Sophists.—Prodigious efficacy of Sokratês in forming new philosophical minds.—General theory of Sokratês on ethics—he resolved virtue into knowledge or wisdom.—This doctrine defective as stating a part for the whole.—He was led to this general doctrine by the analogy of special professions.—Constant reference of Sokratês to duties of practice and detail.—The derivative reasonings of Sokratês were of larger range than his general doctrine.—Political opinions of Sokratês.—Long period during which Sokratês exercised his vocation as a public converser.—Accusation against him by Melêtus, Anytus and Lykon.—The real ground for surprise is, that that accusation had not been preferred before.—Inevitable unpopularity incurred by Sokratês in his mission.—It was only from the general toleration of the Athenian democracy and population, that he was allowed to go on so long.—Particular circumstances which brought on the trial of Sokratês.—Private offence of Anytus.—Unpopularity arising to Sokratês from his connexion with Kritias and Alkibiadês.—Enmity of the poets and rhetors to Sokratês.—Indictment—grounds of the accusers—effects of the ‘Clouds’ of Aristophanês, in creating prejudice against Sokratês.—Accusation of corruption in teaching was partly founded on political grounds.—Perversion of the poets alleged against him.—Remarks of Xenophon upon these accusations.—The charges touch upon the defective point of the Socratic Ethical theory.—His political strictures.—The verdict against Sokratês was brought upon him partly by his own concurrence.—Small majority by which he was condemned.—Sokratês defended himself like one who did not care to be acquitted.—The ‘Platonic Apology.’—Sentiment of Sokratês about death.—Effect of his defence upon the Dikasts.—Assertion of Xenophon that Sokratês might have been acquitted if he had chosen it.—The sentence—how passed in Athenian procedure.—Sokratês is called upon to propose some counter-penalty against himself—his behaviour.—Aggravation of feeling in the Dikasts against him in consequence of his behaviour.—Sentence of death—resolute adherence of Sokratês to his own convictions.—Satisfaction
