CAMBRIDGE LIBRARY COLLECTION

Books of enduring scholarly value

Travel and exploration

The history of travel writing dates back to the Bible, Caesar, the Vikings and the Crusaders, and its many themes include war, trade, science and recreation. Explorers from Columbus to Cook charted lands not previously visited by Western travellers, and were followed by merchants, missionaries, and colonists, who wrote accounts of their experiences. The development of steam power in the nineteenth century provided opportunities for increasing numbers of 'ordinary' people to travel further, more economically, and more safely, and resulted in great enthusiasm for travel writing among the reading public. Works included in this series range from first-hand descriptions of previously unrecorded places, to literary accounts of the strange habits of foreigners, to examples of the burgeoning numbers of guidebooks produced to satisfy the needs of a new kind of traveller - the tourist.

The History of Maritime and Inland Discovery

William Desborough Cooley (1795–1883) was a geographer and historian, the author of a collection of influential texts on the development of geographical study, and a key founding member of the Hakluyt Society. First published as a complete set in 1831 as part of Dionysius Lardner's *Cabinet Cyclopaedia*, this is the history in three volumes of the development of the geographical sciences through travel and exploration. Each volume is divided chronologically by historical era, tracing the pursuit of geographical discovery by both land and sea from the Roman Empire to the Himalayan expeditions of the early nineteenth century. Featuring a comprehensive index, this expertly compiled reference text will aid any study of the history of travel and exploration. This third volume includes a detailed section on scholarly contributions to contemporary geographical study. It also features accounts of the voyages of Captain Cook and Alexander von Humboldt.

Cambridge University Press has long been a pioneer in the reissuing of out-of-print titles from its own backlist, producing digital reprints of books that are still sought after by scholars and students but could not be reprinted economically using traditional technology. The Cambridge Library Collection extends this activity to a wider range of books which are still of importance to researchers and professionals, either for the source material they contain, or as landmarks in the history of their academic discipline.

Drawing from the world-renowned collections in the Cambridge University Library, and guided by the advice of experts in each subject area, Cambridge University Press is using state-of-the-art scanning machines in its own Printing House to capture the content of each book selected for inclusion. The files are processed to give a consistently clear, crisp image, and the books finished to the high quality standard for which the Press is recognised around the world. The latest print-on-demand technology ensures that the books will remain available indefinitely, and that orders for single or multiple copies can quickly be supplied.

The Cambridge Library Collection will bring back to life books of enduring scholarly value (including out-of-copyright works originally issued by other publishers) across a wide range of disciplines in the humanities and social sciences and in science and technology.

CONTENTS.

- Traditions respecting European Ships. — Geography of the Natives.
 — Oheteroa. — The Eastern Shores of New Zealand discovered. — Some
 Natives captured. — Found to be Cannibals. — Their Arts. — A large
 River explored. — Queen Charlotte's Sound. — Cook's Straits discovered.
 — New Zealand circumnavigated. — The East Coast of New Holland. —
 Botany Bay. — Narrow Escape from Shipwreck. — Endeavour Straits
 discovered. — Possession taken of New South Wales. — Death of Tupia.
 — Return of Cook. Page 28

CHAP. IV.

COOK'S SECOND VOYAGE.

Question of a Southern Continent still unsettled. — Second Expedition
 under the Command of Cook. — Cape Circumcision. — Ice found towards
 the South. — Aurora Australis. — Arrival at New Zealand. — Course of
 the Adventure. — Van Diemen's Land. — Useful Animals left in New
 Zealand. — Voyage across the Southern Pacific. — Dramatic Performances
 in Otaheite. — Omai and Oedidee embark in the Ships. — Amsterdam
 and Middleburg Islands. — Their Cultivation. — Proofs of Cannibalism
 at New Zealand. — Voyage across the Antarctic Seas. — Land of Juan
 Fernandez. — Easter Island. — Description of the Images. — The Mar-
 quesas. — Beauty of the People. — Otaheite. — Trade in red Feathers. —
 Great naval Review. — Friendly Islands revisited. — Extent of the
 Group. — The New Hebrides examined. — New Caledonia discovered. —
 Norfolk Island. — Voyage from New Zealand to Cape Horn. — The
 Southern Thule or Sandwich Land. — Arrival of Cook in England. —
 Lamentable Occurrence in Queen Charlotte's Sound. 45

CHAP. V.

COOK'S THIRD VOYAGE.

Voyage of Surville. — He discovers the Land of the Arsacides. — He visits
 New Zealand. — Discoveries of Lieutenant Shortland. — Voyage of
 Marion du Fresne. — He touches at New Zealand. — His lamentable
 Death. — Kerguelen discovers Land in the Southern Atlantic. — His
 Reception at Court. — He sails a second Time. — His Disgrace. — Honours
 paid to Cook on his Return. — Hopes of a North-west Passage revived.
 — Expedition of Phipps to the North Pole. — Cook appointed a third
 Time to command an Expedition. — His Instructions. — Regret of Omai
 on leaving England. — The Land of Desolation. — Van Diemen's Land.
 — Error of Captain Furneaux. — Live Stock left in Queen Charlotte's
 Sound. — Mangea discovered. — Wateeo. — Omai's Exaggerations. —
 Shipwrecked Islanders. — Visit to the Friendly Islands. — Generosity of
 the King. — Extent of his Dominion. — Accounts of the neighbouring
 Islands. — Horses landed at Otaheite. — Wonder of the Natives. — Omai
 settled at Huaheine. — Further Accounts of him. 62

CHAP. VI.

COOK'S THIRD VOYAGE CONTINUED.

The Sandwich Islands discovered by Cook. — His Arrival at Nootka Sound.
 — Manners of the People. — Examination of the American Coast. —
