CAMBRIDGE LIBRARY COLLECTION

Books of enduring scholarly value

History

The books reissued in this series include accounts of historical events and movements by eye-witnesses and contemporaries, as well as landmark studies that assembled significant source materials or developed new historiographical methods. The series includes work in social, political and military history on a wide range of periods and regions, giving modern scholars ready access to influential publications of the past.

The Paston Letters, A.D. 1422–1509

Archivist and historian James Gairdner, C.B. (1828-1912) began his career in the Public Record Office at 18 and retired as assistant keeper forty-seven years later. The author of numerous historical works, Gairdner is best-known for his archival and editorial work, which forms his most significant contributions to historical scholarship. He oversaw almost entirely the publication of *Letters and Papers, Foreign and Domestic, of the Reign of Henry VIII*; *The Paston Letters* represent a similarly important work. The *Letters* reveal the fortunes of the Norfolk Paston family and of their tumultuous time. Beginning in the reign of Henry VI and continuing through the reigns of Edward IV, Richard III, and Henry VII, the *Letters* are of great interest to early modern historians and literary critics. Volume Six (1478-1506) covers the reigns of Edward IV, Edward V, Richard III, and Henry VII, concluding with an Appendix of the family's wills.

Cambridge University Press has long been a pioneer in the reissuing of out-of-print titles from its own backlist, producing digital reprints of books that are still sought after by scholars and students but could not be reprinted economically using traditional technology. The Cambridge Library Collection extends this activity to a wider range of books which are still of importance to researchers and professionals, either for the source material they contain, or as landmarks in the history of their academic discipline.

Drawing from the world-renowned collections in the Cambridge University Library, and guided by the advice of experts in each subject area, Cambridge University Press is using state-of-the-art scanning machines in its own Printing House to capture the content of each book selected for inclusion. The files are processed to give a consistently clear, crisp image, and the books finished to the high quality standard for which the Press is recognised around the world. The latest print-on-demand technology ensures that the books will remain available indefinitely, and that orders for single or multiple copies can quickly be supplied.

The Cambridge Library Collection will bring back to life books of enduring scholarly value (including out-of-copyright works originally issued by other publishers) across a wide range of disciplines in the humanities and social sciences and in science and technology.
