## CAMBRIDGE LIBRARY COLLECTION

*Books of enduring scholarly value*

### History

The books reissued in this series include accounts of historical events and movements by eye-witnesses and contemporaries, as well as landmark studies that assembled significant source materials or developed new historiographical methods. The series includes work in social, political and military history on a wide range of periods and regions, giving modern scholars ready access to influential publications of the past.

### Cartulaire de l'Abbaye de Saint-Victor de Marseille

One of the most powerful religious institutions in medieval France, the Abbey of Saint-Victor, Marseille, stood at the centre of the intellectual, political and spiritual life in the European middle ages. The two-volume Cartulary of the Abbey of Saint-Victor, first published in 1857, collects the abbey's charters dating from the seventh to the fourteenth centuries. These documents provide especially valuable insight into the abbey's history prior to 1000 CE, and bear witness to the influence of an institution whose possessions extended as far as Syria and Spain. They offer a wealth of information concerning the abbey's economic, diplomatic, and political history. This edition, newly available again to scholars, includes both the 'large' and 'small' cartularies together with additional documents. Volume 2 contains the continuation of the *Liber magnus cartarum* together with the small cartulary, a complete index, and additional historical sources attesting abbey charters.

Cambridge University Press has long been a pioneer in the reissuing of out-of-print titles from its own backlist, producing digital reprints of books that are still sought after by scholars and students but could not be reprinted economically using traditional technology. The Cambridge Library Collection extends this activity to a wider range of books which are still of importance to researchers and professionals, either for the source material they contain, or as landmarks in the history of their academic discipline.

Drawing from the world-renowned collections in the Cambridge University Library, and guided by the advice of experts in each subject area, Cambridge University Press is using state-of-the-art scanning machines in its own Printing House to capture the content of each book selected for inclusion. The files are processed to give a consistently clear, crisp image, and the books finished to the high quality standard for which the Press is recognised around the world. The latest print-on-demand technology ensures that the books will remain available indefinitely, and that orders for single or multiple copies can quickly be supplied.

The Cambridge Library Collection will bring back to life books of enduring scholarly value (including out-of-copyright works originally issued by other publishers) across a wide range of disciplines in the humanities and social sciences and in science and technology.
