CAMBRIDGE LIBRARY COLLECTION

Books of enduring scholarly value

Women's Writing

The later twentieth century saw a huge wave of academic interest in women's writing, which led to the rediscovery of neglected works from a wide range of genres, periods and languages. Many books that were immensely popular and influential in their own day are now studied again, both for their own sake and for what they reveal about the social, political and cultural conditions of their time. A pioneering resource in this area is Orlando: Women's Writing in the British Isles from the Beginnings to the Present (<http://orlando.cambridge.org>), which provides entries on authors' lives and writing careers, contextual material, timelines, sets of internal links, and bibliographies. Its editors have made a major contribution to the selection of the works reissued in this series within the Cambridge Library Collection, which focuses on non-fiction publications by women on a wide range of subjects from astronomy to biography, music to political economy, and education to prison reform.

A Garden Diary

Emily Lawless (1845–1913) was a novelist and a prominent figure in the political circles of nineteenth-century Ireland. She was born at Lyons Castle, County Kildare, the eldest daughter of Edward Lawless, third Baron Cloncurry. Although her grandfather had been an Irish patriot with United Irishmen sympathies, Lawless herself remained emphatically opposed to Home Rule. Her novels often explored Ireland's troubled past and present: her first success was *Hurriah* (1886) which was set in Galway during the Land League campaigns and was dedicated to her friend Margaret Oliphant. Although Lawless enjoyed literary success, her personal life was marked by tragedy: her father and two of her sisters committed suicide. Despite her great love for Ireland, Lawless eventually became disillusioned with its politics and moved to England. In this work, Lawless intersperses an account of a year spent tending to her garden in Surrey, with autobiographical and philosophical ruminations. Cambridge University Press has long been a pioneer in the reissuing of out-of-print titles from its own backlist, producing digital reprints of books that are still sought after by scholars and students but could not be reprinted economically using traditional technology. The Cambridge Library Collection extends this activity to a wider range of books which are still of importance to researchers and professionals, either for the source material they contain, or as landmarks in the history of their academic discipline.

Drawing from the world-renowned collections in the Cambridge University Library, and guided by the advice of experts in each subject area, Cambridge University Press is using state-of-the-art scanning machines in its own Printing House to capture the content of each book selected for inclusion. The files are processed to give a consistently clear, crisp image, and the books finished to the high quality standard for which the Press is recognised around the world. The latest print-on-demand technology ensures that the books will remain available indefinitely, and that orders for single or multiple copies can quickly be supplied.

The Cambridge Library Collection will bring back to life books of enduring scholarly value (including out-of-copyright works originally issued by other publishers) across a wide range of disciplines in the humanities and social sciences and in science and technology.
