CAMBRIDGE LIBRARY COLLECTION

Books of enduring scholarly value

History

The books reissued in this series include accounts of historical events and movements by eye-witnesses and contemporaries, as well as landmark studies that assembled significant source materials or developed new historiographical methods. The series includes work in social, political and military history on a wide range of periods and regions, giving modern scholars ready access to influential publications of the past.

A Selection from the Letters and Despatches of the First Napoleon

Napoleon Bonaparte (1769–1821) is best remembered for establishing the First French Empire, declaring himself Emperor of the French in 1804. His military campaigns across Europe sparked the Napoleonic Wars (1803–1815) and profoundly shaped European political and economic activities during the early nineteenth century. These volumes, edited by military officer and historian Denis Arthur Bingham and first published in 1884, contain translations of a selection of Bonaparte's letters. Bonaparte was a prolific letter writer, and the translations in these volumes describe a variety of domestic and international situations, including his early military career, his reports on the invasion of Egypt, and his criticism of his relatives who he had installed on the thrones of various conquered countries. Arranged by year with concise explanatory notes, these volumes provide a valuable and fascinating resource for the study of Bonaparte's career and character. Volume 3 covers the years 1811–1815.

Cambridge University Press has long been a pioneer in the reissuing of out-of-print titles from its own backlist, producing digital reprints of books that are still sought after by scholars and students but could not be reprinted economically using traditional technology. The Cambridge Library Collection extends this activity to a wider range of books which are still of importance to researchers and professionals, either for the source material they contain, or as landmarks in the history of their academic discipline.

Drawing from the world-renowned collections in the Cambridge University Library, and guided by the advice of experts in each subject area, Cambridge University Press is using state-of-the-art scanning machines in its own Printing House to capture the content of each book selected for inclusion. The files are processed to give a consistently clear, crisp image, and the books finished to the high quality standard for which the Press is recognised around the world. The latest print-on-demand technology ensures that the books will remain available indefinitely, and that orders for single or multiple copies can quickly be supplied.

The Cambridge Library Collection will bring back to life books of enduring scholarly value (including out-of-copyright works originally issued by other publishers) across a wide range of disciplines in the humanities and social sciences and in science and technology.
