INDEX

Names of ships and newspapers are printed in *italics*. Where doubt exists, it has been thought better to run the risk of making two entries of one person, rather than one entry of two persons. Where pages are connected by a dash, it does not mean that the name occurs on every intervening page, but with considerable frequency between the two pages.

- Abergavenny*, xxxi
Abolition of the slave trade, 117
Acasta, xxxi
Acbar, 367
