CAMBRIDGE LIBRARY COLLECTION

Books of enduring scholarly value

Linguistics

From the earliest surviving glossaries and translations to nineteenth-century academic philology and the growth of linguistics during the twentieth century, language has been the subject both of scholarly investigation and of practical handbooks produced for the upwardly mobile, as well as for travellers, traders, soldiers, missionaries and explorers. This collection will reissue a wide range of texts pertaining to language, including the work of Latin grammarians, groundbreaking early publications in Indo-European studies, accounts of indigenous languages, many of them now extinct, and texts by pioneering figures such as Jacob Grimm, Wilhelm von Humboldt and Ferdinand de Saussure.

A Catalogue of Dictionaries, Vocabularies, Grammars, and Alphabets

Born in Ireland, William Marsden (1754–1836) was a pioneer in the study of oriental languages, in particular those of modern-day Malaysia and Indonesia. At the age of seventeen he joined his elder brother to work for the East India Company in Sumatra, and began researching the languages of the East Indies. He moved to London in 1779 and became associated with its scientific and academic circles, attending meetings of the Royal Society and becoming a friend of Sir Joseph Banks. This gave him access to vocabularies compiled by naval officers, and these, combined with his own observations, allowed him to produce the pioneering works that made his reputation. (His *History of Sumatra* and *Dictionary of the Malayan Language* are also reissued in this series.) First published in 1796, this work helped to fuel the growing interest in languages and philology at the turn of the nineteenth century.

Cambridge University Press has long been a pioneer in the reissuing of out-of-print titles from its own backlist, producing digital reprints of books that are still sought after by scholars and students but could not be reprinted economically using traditional technology. The Cambridge Library Collection extends this activity to a wider range of books which are still of importance to researchers and professionals, either for the source material they contain, or as landmarks in the history of their academic discipline.

Drawing from the world-renowned collections in the Cambridge University Library and other partner libraries, and guided by the advice of experts in each subject area, Cambridge University Press is using state-of-the-art scanning machines in its own Printing House to capture the content of each book selected for inclusion. The files are processed to give a consistently clear, crisp image, and the books finished to the high quality standard for which the Press is recognised around the world. The latest print-on-demand technology ensures that the books will remain available indefinitely, and that orders for single or multiple copies can quickly be supplied.

The Cambridge Library Collection brings back to life books of enduring scholarly value (including out-of-copyright works originally issued by other publishers) across a wide range of disciplines in the humanities and social sciences and in science and technology.

THE following Catalogue is intended to comprife the Titles of the Dictionaries, Vocabularies, Grammars, and Alphabets of all Languages, excepting Hebrew, Greek, and Latin, together with the modern derivatives from the Latin and Gothic, viz. French, Italian, Spanish, Portuguese, German, Dutch, Danish, Swedish, and English, and of all Dialects as distinguished from the principal Languages to which they belong; whether separately published, or found in Accounts of Voyages and Travels or other Works. The multiplicity of Elementary Books in the Classical, as well as in the Modern, cultivated Languages of Europe, would have considerably increased the bulk and labour of the Collection, and rendered it at the same time less interesting to the Philologist. It was therefore judged expedient to restrict it to those which are not so generally known and studied. The Russian, in respect of its importance and the improvement it has experienced under its present august Patroness, should also have been excepted; but the progress of Slavonian literature in other Countries being as yet inconsiderable, the opportunity was taken of pointing out those Works by which a knowledge of it may be facilitated.

Explanations of Marks and Abbreviations used.

* Books in the possession of the Editor.

† Books which he has not had an opportunity of seeing.

B. B. Bibliotheca Bodleiana.

B. M. British Museum.

K. L. His Majesty's Library.

B. R. Bibl. du Roi. Parisian Library.

P. S. Library of the Royal Society.

P. F. Published by the Society *de Propaganda Fide*.

Tab. Table or Copper Plate.
