

## INDEX.

—•••—

N.B.—The Numbers refer to the Paragraphs, except in the case of the Coloured and other Plates, where they refer in the former to the number of plate, and in the latter to the page.

- ABUTILON THOMPSONII**, plate p. 248.  
 Acclimatization of plants, 136.  
 Achimenes, 547, 1511, 1661, 1866.  
 Achimenes, pink perfection and grandis, col. plate No. 2.  
 Acre of land garden, 184.  
**ADENOPHERAS**, 1471.  
**ADIANTUM CONCINNUM LATUM**, plate p. 416.  
**AGERATUM COELESTINUM**, 850, 1258.  
 Allotment gardens, 193.  
**ALOCASIA INTERMEDIA**, plate p. 100.  
**ALOCASIA JENNINGSII**, plate p. 176.  
 Alumina, 61.  
**AMARYLLIS ALBERTI**, plate p. 32.  
**AMARYLLIS**, Prince Teck, col. plate No. 11.  
 American blight, to get rid of, 403.  
 American plants, 1170.  
 American plants, choice lists of, 2248.  
 Ammonia from decomposed bodies, 1692.  
 Ammonia from electric discharges, 1693.  
 Ammonia a great source of fertility, 1694.  
 Ammonia in soils, 1684.  
 Ammonia, uses of, 1685.  
**ANAGALLIS**, 1602.  
**ANCYLOGYNE LONGIFLORA**, plate p. 184.  
 Anemone beds for spring gardens, 755.  
 Anemones, cultivation of, 678.  
 Angle of ascent in roads, 272.  
 Ants, to destroy, 373.  
 Aphides, or plant lice, and their congeners, 369.  
 Apparatus for ventilation, 779.  
 Apples for orchard houses, 951.  
 Apples for small gardens, 192.  
 Approach grafting, 319.  
**APRICOTS**, 1194.  
 Apricots for orchard houses, 952.  
 Apricots for small gardens, 192.  
 April—aspect of the month, 962; temperature of, 964.  
 April—cottage gardens, 1081.  
 April—flower garden, 965; rose garden, 971; florists' flowers, 979; carnations, 980; tender annuals, 981; half-hardy do., 982; perennials and biennials, 984.  
 April—flowers under glass, 1082; green-  
 house plants, 1085; heaths, 1087; pelargoniums, 1088; fuchsias, 1089; orchids, 1092.  
 April—fruit culture under glass, 1093  
 vines, 1094; pines, 1095; figs, 1096  
 the orchard house, 1097.  
 April—fruit garden, 1048; apples and pears, 1051; vines, 1052; strawberries, 1053.  
 April—gravel walks and lawns, 985.  
 April—hot-bed and frame, 1099; cucumbers, 1101; melons, 1100; melon pits, 1101; seakale, 1102; asparagus, 1103; potatoes, 1104; French beans, 1105; strawberries, 1106; mushroom beds, 1107; tender annuals, 1108; salads, 1109.  
 April—kitchen garden, 1055; asparagus, 1056; celery, 1057; rhubarb, 1060; Jerusalem artichokes, 1061; globe do., 1062; parsley, 1064; spinach, 1065; potatoes, 1066; turnips, 1068; carrots, 1069; onions, 1070; 1 eks, 1071; red beet, 1072; Spanish beet, 1073; peas, 1075; salading, 1076; scorzoneras, 1077; radishes, 1078.  
 April—mixed flowers and kitchen garden, 986.  
 Aquatic plants, lists of, 265.  
**ARABIA PAPHYRIFERA**, plate p. 208.  
**ARALIA JAPONICA**, 2143.  
 Arbours, construction of, 285.  
 Arums, 1475.  
 Arums, the treatment of, 345.  
 Arums as window plants, 1263.  
 Ash, varieties of, 138.  
 Ashes, useful for plunging plants in, 1387.  
 Asparagus, cultivation of, 1816.  
 Asparagus culture, Mr. Cuthill's remarks on, 1466.  
 Asparagus, the French mode of cultivation, 1821.  
 Asparagus, to force, 586.  
 Asparagus from seed, 1819.  
 Aster, giant Emperor, plate p. 48.  
 Aster, Imbrique Victoria, plate p. 400.  
 Atriplex, purple-leaved, 1171.

- Aucuba japonica variegata*, col. plate No. 11.  
 August—aspect of the month, 1593; temperature of, 1597.  
 August—flower garden and shrubbery, 1598; double wallflowers, 1604; rose garden, 1608; geraniums, 1610; flower borders, 1611; autumnal bulbs, 1612; florists' flowers, 1613; dahlias, 1614; hollyhocks, 1615; pinks, 1616; tulips, 1617.  
 August—fruit garden, 1650; training wall trees, 1651; standard trees, 1652; raspberries, 1653; strawberries, 1654; budding fruit trees, 1655.  
 August—fruit under glass, 1664; grapes, 1665; pines, 1667; peaches, 1670; melons, 1671; cucumbers in houses, 1672.  
 August—hotbed and frame culture, 1673; cucumbers in frame, 1674; melons in frame, 1675; mushrooms, 1676.  
 August—kitchen garden, 1625; asparagus, 1628; artichokes, 1629; beans, 1630; runner beans, 1631; peas, 1632; celery, 1633; carrots, 1634; onions, 1635; leeks, 1636; parsnips, 1637; potatoes, 1638; turnips, 1639; French beans, 1640; lettuce, 1641; endive, 1642; spinach, 1643; radishes, 1644; tomatoes, 1645; broccoli, &c., 1646; cabbages, 1647; cauliflowers, 1648; herbs, 1649.  
 August—mixed flower and kitchen garden, 1618; early celery, *ib.*; broccoli, 1619; fruit garden, 1621; strawberries, 1622.  
 August—plant-culture under glass, 1656; the conservatory, *ib.*; climbing plants, 1658; orchids, 1659; stove plants, 1662; plants in bloom in conservatories, 1663.  
 Auricula, col. plate No. 1.  
 Auriculas, 679.  
 Auriculas, top dressing of, 680.  
 Austrian briars, 1974.  
 Autumnal bulbs, 1612.  
 Autumnal crocuses, 1162.  
 Autumnal flowering plants, 1116.  
 Autumnal roses, cultivation of, 1140.  
 Autumnal roses, select list of, 1142.  
 Ayrshire rose, 1946.  
 Azalia fascination, col. plate No. 12.
- BACK-ROAD TO HOUSE**, construction of, 274.  
 Balm, 1329.  
 Balsams, 1386, 1518.  
 Balsams, plate p. 64.  
 Balsam carnation, *ib.*  
 Balsam double camellia, *ib.*  
 Balsam Solferino, *ib.*  
 Banksian rose, 1951.  
 Barking of trees by cattle, to prevent, 384.  
 Barnes's plan of mushroom growing, 1681.  
 Basins and tanks, 861.  
 Basket beds of ivy, 864.  
 Basket beds, 2127.  
 Baskets, drainage of, 746.  
 Baskets, fuchsias for, 748.  
 Baskets, hard-wooded plants for, 749.  
 Baskets, to plant, instructions, 745.  
 Baskets for windows, 743.  
 Beans, early sowing of, in October, 521.  
 Bedding plants, to grow to perfection, 500.  
 Beds, formation of, 427.  
 Beds for spring gardens, 754.  
 Beech, varieties of, 141.  
 Beet, red, 1072.  
 Beet, Spanish, 1073.  
 Beet, to purchase, for winter use, 1583.  
 Begonia Boborensis, plate p. 80.  
 Begonia Boborensis, col. plate No. 12.  
 Begonia Digswelliana, col. plate No. 3.  
 Begonia Veitchii, col. plate No. 3, plate p. 96.  
 Begonia, varieties of, 1516.  
 Begonias, well worthy of cultivation, 1515.  
 Bell's composition for mildew, 413.  
 Belt moths very destructive, 363.  
 Belvedere gardens, 173.  
 Berberis, 148.  
 Bertemoise graft, 302.  
 Bill-hook, 627.  
 Black currants, 1114.  
 Blights in orchards, to prevent, 392.  
 Blinds for garden walls, 238.  
 Blinds for garden walls, construction of, 239.  
 Blossom-buds, to form, 605.  
 Bog plants, to renovate, 1295.  
 Boilers, forms of, 814.  
 Boilers, tubular, 815.  
 Bone dust, 1704.  
 Borders in Autumn, 488.  
 Borders in orchard houses, 937.  
 Borecole, 1025.  
 Boundary fences of parks, 199.  
 Bourbon roses, 973.  
 Bourbon rose, 1954.  
 Bourbon, varieties of, 1952.  
 Bourneville rose, 1958.  
 Branch cutting, how to perform, 601.  
 Brassicæ, or cabbage tribe, 1003.  
 Brassicæ, derivation of, 1004.  
 Brassicæ, history of, 1007.  
 Brassicæ tribe, deteriorators, 483.  
 Bridge, iron, for a park, design of, 279.  
 Brient's shelter for stone fruit, 231.  
 Broccoli, 1043.  
 Broome's crysanthemums, 1136.  
 Brugmansias, 1519.  
 Brushwood for lighting furnaces, 1544.  
 Brussels sprouts, 1024.  
 Budding, explanation of, 297.  
 Budding knife, 624.  
 Budding, process of, 310.

- Budding, questions concerning, by Mr. Saul, 323.  
 Budding roses, 1911.  
 Budding, weather best suited for, 322.  
 Buglos, 1474.  
 Bulbous rooted plants, culture of, 665.  
 Bulbous rooted plants, rest to, 666.  
 Bulbs, collections of, 762.  
 Bulbs for greenhouses in early spring, 821.  
 Bulbs in borders, treatment of, 1176.  
 Bulbs taken up when leaves decay, 1162.  
 Burning soil, 114.  
 Burnt clay for roads, 116.  
 Burnt peat, 119.  
 Bush fruit, 1110.  
 Bush fruit, to protect from birds, 1507.  
 Buxus or Box, varieties of, 150.
- CABBAGES, analyses of, 1028; first mentioned among English authors by Gerarde, 1011; among the Greeks, 1010.  
 Cabbages among the Romans, three kinds, 1007.  
 Cabbages, best varieties of, 1021.  
 Cabbages, medical virtues of, 1009.  
 Cabbages, sorts now cultivated, 1012.  
 Cabbages, to plant out, 1020.  
 Cabbages, to sow seed of, 1019.  
 Caeti, varieties of, 1554.  
 Caladium, plate p. 592.  
 Calceolarias, bird of paradise, col. plate No. 4.  
 Calceolarias, best varieties, 2306.  
 Calceolarias from seed, 566.  
 Calceolarias for bedding, to strike, 339.  
 Calceolarias, treatment of, 551.  
 Camellias, 568.  
 Camellias, choice new varieties, 1358.  
 Canal, artificial, for gardens, 259.  
 Capsicum, 1549.  
 Carboniferous system, 26.  
 Cardoons, 878, 1824.  
 Carnation, eccentric, col. plate No. 7.  
 Carnation variegated, col. plate No. 7.  
 Carnations, compost for, 1737.  
 Carnations, cultivation of, 1733.  
 Carnations from cuttings, 1735.  
 Carnations from layers, 1734.  
 Carnations from pipings, 1736.  
 Carnations, how they differ from picees, 1739.  
 Carnations, to prepare for exhibition, 1740.  
 Carriage road, plan of, 269.  
 Carriage road, planting of, 270.  
 Carriage road, construction of, 267.  
 Carrots, 1069.  
 Carrots, early to grow, 538.  
 Carrots, to preserve for winter use, 1583.  
 Carthusian, the, on gardening, 174.  
 Cattleya Dominiana alba, col. plate No. 4.  
 Cauliflowers, Autumn sown, plants of, 1036.  
 Cauliflowers, cultivation of, 1035.  
 Cauliflowers, Mr. Baily's treatment of, 1039.  
 Cauliflowers, origin of, 1032.  
 Cauliflowers, protection of, 1041.  
 Cauliflower, seed sown in March, 882.  
 Cauliflowers, to sow, 1034.  
 Cauve Troughuda, 1227.  
 Cedrus deodara, 154.  
 Cedrus, varieties of, 154.  
 Celery, 875, 1351.  
 Celery, cultivation of, 1802.  
 Celery for late supply, 1057.  
 Celery in frosty weather, 1814.  
 Celery, lifting of, 1813.  
 Celery, Mr. Cathill's plan of cultivating, 1803.  
 Celery, Mr. R. Fish's plan, 1811.  
 Celery, Mr. Macintosh's plan with, 1810.  
 Celery, sorts of, 1815.  
 Celery, the earthing up of, 1807.  
 Celery, to blanch, 1058.  
 Celery, to have crisp, 1804.  
 Centaurea gymnocarpa, 2228.  
 Chalk formation, 31.  
 Chara, transparent water plant, 287.  
 Charcoal, how to make, 1710.  
 Chatsworth conservatory, 774.  
 Cheiranthus, col. plate No. 2.  
 Cherries for orchard houses, 953.  
 Cherries for small gardens, 192.  
 Cherries suited for orchards, 454.  
 Chervil, 1223.  
 China roses, 974.  
 Chinese crimson roses, 1960.  
 Chinese roses, 1959.  
 Chisel, the, 626.  
 Chitty's acre and half garden, 191.  
 Chitty, Mr., on small gardens, 185.  
 Chlorine, 67.  
 Chorozemas, 1378.  
 Chorozemas, from cuttings, 1379.  
 Chorozemas, list of, 1384.  
 Chorozemas, potting of, 1381.  
 Chorozemas, proper compost for, 1380.  
 Chorozemas subject to the spider, 1383.  
 Chrysanthemum, the, 1136.  
 Chrysanthemums, cuttings of, 1136.  
 Chrysanthemums, lists of, 2187.  
 Chrysanthemums, staking of, 1759.  
 Cineraria, flower of the day, col. plate No. 12.  
 Cinerarias, 1861.  
 Cinerarias, best varieties, 2305.  
 Cinerarias from seed, 567.  
 Cineraria maritima, 2228.  
 Circle grafting, 316.  
 Circular beds, 1793.  
 Citrus Aurantium, the common orange, 1267.  
 Cleft or tongue grafting, 298.  
 Clematis John Gould Veitch, plate p. 112.  
 Clematis Sophia, flore pleno, plate p. 112.  
 Clematis Veitchii, col. plate No. 1.  
 Clerodendron Speciosum, plate p. 128

- Clinthus Dampieri*, plate p. 144.  
 Clivedon gardens, 761.  
 Cloth of gold rose, 1973.  
 Clubbing in broccoli, to prevent, 391.  
 Cocoa-nut fibre, 1703.  
 Cold frames, 2222.  
 Cold pits, 547.  
*Coleus Veitchii*, plate p. 208.  
 Collections of seeds for one year's supply, 493.  
 Colours, Dr. Lindley's observations, 1785.  
 Colours, divided into warm and cold, 1792.  
 Colours, experiments upon, 1789.  
 Colours, Hay's observations on, 1784.  
 Composts and soils, 835.  
 Composts, harvesting of, 1682.  
 Conifers, varieties of, 152, 153.  
 Conservatories, plan of, 769.  
 Conservatories, style of, 768.  
 Conservatories, to construct, 765.  
 Conservatory in February, 706.  
 Conservatory in March, 897.  
 Conservatory at Horticultural Gardens, 169.  
 Conservatory, Mr. Humphreys, 777.  
*Convolvulus*, col. plate No. 6.  
 Copings for garden walls, 229.  
 Coping for walls, by Mr. Fish, 238.  
 Coping for walls, by Mr. Gorrie, 232.  
 Corn salad, 1677.  
 Corridors, 170.  
*Cotoneasta* for hedges, 244.  
 Cottage gardening, May, 1257.  
 Cottage gardens and allotments, 1439.  
 Cottagers' horticultural societies, 196.  
 Cottagers' kale, 1027.  
 Cotyledon, illustration of, 290.  
 Cow-dung, 835.  
 Cow-dung, charred, a good manure, 1698.  
 Cow-litter, properties of, 1689.  
 Crocuses and other bulbs planted in Oct., 503.  
 Crops for allotment gardens, 195.  
 Crops, rotation of, in small gardens, 497.  
 Cross shaped beds for lawns, 867.  
*Oxton interruptum*, plate p. 272.  
*Oxton irregulare*, plate p. 288.  
 Cucumber plants, stopping of, 535.  
 Cucumber plants, to set the fruit, 534.  
 Cucumbers in pits, 736.  
 Cucumbers on a trellis, 1423.  
 Cucumbers on ridges, 731.  
 Culinary plants for ornamental use, 1171.  
 Cup trained trees, 1850.  
*Cupressus*, varieties of, 155.  
 Currants for small gardens, 192.  
 Currants, new plantations of, 896.  
 Currants, to grow, 1113.  
 Currants, varieties of, 10.  
 Curtains for garden walls, 230.  
 Cuttings, observations on, 336.  
 Cuttings, to preserve from frost, 342.  
 Cuttings of scarlet geraniums, 337.  
*Cyclamen*, Persian varieties, col. plate No. 2.  
*DAHLIA*, origin of, 1117.  
 Dahlias, dividing the roots of, 1124.  
 Dahlias for exhibition, 1122.  
 Dahlias from cuttings, 1120.  
 Dahlias from seed, 1119.  
 Dahlias in autumn, 1125.  
 Dahlias in shrubberies, 1123.  
 Dahlias, Mr. Turner's collection of, 1126.  
 Dahlias, preparation of soil for, 1121.  
 Dahlias put into heat in January, 505.  
 Dahlias, supporting flowers of, 1758.  
 Dahlias, to increase, 1118.  
 Daisies on lawns, to get rid of, 382.  
 Daisy hoe, 382.  
 Dandelions, to kill, 381.  
*Daphnes*, 1170.  
*Davallia Alpina*, plate p. 416.  
 December—aspect of the month, 2233.  
 December—flower-garden and shrubberies, 2235; the pinetum, 2243; treatment of flower-beds, 2257; reserve garden, 2258; florists' flowers, 2259; dahlias, 2259; pinks and carnations, 2261; pansies, 2262; tulips, 2263.  
 December—fruit culture under glass, 2309; vines, 2310; pines, 2314; peach-house, 2319; fig-house, 2320.  
 December—fruit-garden, 2280; peaches and nectarines, 2281; apples and pears, 2282; bush fruit, 2287; strawberries, 2288; standard fruit trees, 2289.  
 December—kitchen-garden, 2270; sea-kale, 2272; rhubarb, 2273; peas and beans, 2274; celery, 2275; parsnip, 2276; endive, 2277; broccoli, 2278.  
 December—plant culture under glass, 2290; stove plants, 2300; orchid, 2302; greenhouses, 2303; pelargoniums, 2304; cinerarias, 2305; calceolarias, 2306.  
 Deciduous flowering shrubs, 348.  
 Deciduous shrubs, 2247.  
 Decomposition of organized bodies, 1692.  
 Deepeners of the soil, 480.  
 Deep drains, 101.  
*Delphinium consolida*, plate p. 520.  
 Deteriorators, the Brassica tribe, 483.  
*Devoniensis* rose, 975.  
 Diagonal flower-beds, 2121.  
*Dianthus barbatus*, col. plate No. 7.  
*Dieffenbachia Pearcei*, plate p. 312.  
 Dilestone's early emperor, 579.  
 Disbudding, 1196.  
 Docks, to destroy, 381.  
 Double grafting, 300.  
 Double ribbon border, 2108.  
 Drainage, Fish's *rationale* of, 112.  
 Drainage, general directions, 92.  
 Drainage implements, 100, 106.  
 Drainage, materials for, 99.  
 Drainage, object of, 93.  
 Drainage of baskets, 746.  
 Drainage of various sub-soils, 96, 97, 98.  
 Drainage, remarks upon, 834.

- Drainage, system of, 103.  
 Drains inserted during levelling, 424.  
 Drooping and pillar roses, 2057.  
 Duc van Thol tulip, 827.  
 Dutch flower-garden plan, 2113.  
 Dutch garden, diagram of, 432.  
 Dutch, the inventors of warmed green-houses, 809.  
 Dwarf feather grass, for edgings, 969.  
 Dwarf fruit trees, 1627.
- EARWIGS, to destroy, 374.  
 Edging plants, 969, 1300.  
 Eggs of insects, to destroy, 368.  
 Egg-shaped figure, to form, 430.  
 Eglantine, the sweet briar, col. plate No. 7.  
 Elm, varieties of, 139.  
 Endive, 1360.  
 Endive, to blanch, 540.  
 Epacris, choice varieties of, 1398.  
 Epacris, cultivation of, 2215.  
 Epiphyllum truncatum elegans, col. plate No. 10.  
 Epiphyllum truncatum, cultivation of, 2290.  
 Eranthemum, 1662.  
 Erica, varieties of, for the garden, 671.  
 Ericas, choice new varieties of, 1398.  
 Errington's remarks on arranging flowers, 1601.  
 Espalier trees, 1367.  
 Euphorbia Jaquiniflora, 2301.  
 Evelyn's remarks on pruning, 389.  
 Evergreen roses, 1950.  
 Evergreen roses, lists of, 1950.  
 Evergreen shrubs, lists of, 2245.  
 Evergreens, to clip, 1175.  
 Evergreens, to renovate, 1289.  
 Exhaustion of soil for bedding plants, 500.
- FANCY GERANIUMS, list of, 2040.  
 Fancy pelargoniums: Anne Page, col. plate No. 8; Edgar Turner, *ib.*; Charles Rouillard, *ib.*; for autumn flowering, 1530.  
 Feather grass, 969.  
 February—aspect of the month, 647; mean temperature of, 649.  
 February—fruit garden, 698; strawberries, *ib.*; raspberries, 699; gooseberries and currants, 700.  
 February—fruit under glass, 704.  
 February—hot beds and frames, 724; cucumbers in, *ib.*; seakale in frame, 726; forced asparagus, 727; potatoes in frame, 729; French beans in frame, 730; carrots, early, to sow, 732; strawberries, in pots, 733.  
 February—melons, 735.  
 February—melons and cucumbers in pits, 736.  
 February—operations in flower-garden, 650; the rose garden, 652; provision for summer planting, 667; management of shrubbery, 669.  
 February—seed-beds in, 734.

 September—dahlia cultivation in, 1773.  
 September—flower culture under glass, 1853 ; the conservatory, *ib.* ; the greenhouse, 1854 ; stove, 1856 ; orchid house, 1857.  
 September—flower garden and shrubbery, 1770.  
 September—fruit culture under glass, 1869 ; peaches, 1871 ; vines, 1872 ; figs, 1877 ; pines, 1879.  
 September—fruit garden, 1838 ; early apples, 1839 ; peaches and nectarines, 1840 ; apples and pears, 1843 ; plums, 1844 ; cherries, 1845 ; gooseberries, 1847 ; strawberries, 1852.  
 September—rose cultivation in, 1774.  
 September—the kitchen garden, 1800 ; celery, 1801 ; asparagus, 1816 ; seakale, 1823 ; cardoons, 1824 ; cauliflowers, 1825 ; cabbages, 1826 ; broccoli, 1827 ; broccoli seed, 1826 ; Brussels sprouts, 1828 ; endive seeds, 1830 ; small saladings, 1831 ; lettuces, 1832 ; spinach, 1833 ; turnip radishes, 1834 ; onions, 1835 ; carrots, 1836 ; turnips, 1837.  
 September the month for propagation, 1772.  
 Sewage for garden purposes, 124.  
 Shears of various kinds, 630.  
 Shelters, 83.  
 Shield grafting, 315.  
 Short prunings, 592.  
 Shrubberies on poor soils, 501.  
 Shrubberies, renovation of, 1284.  
 Side grafting, 308.  
 Silica, 64.  
 Silica, a constituent of grasses, 1701.  
 Silurian group, 24.  
 Silver sand, 825.  
 Silver sand indispensable, 1699.  
 Silver tricolor geraniums, new, 1559.  
 Skeleton leaves, 1591.  
 Slit grafting, 304.  
 Slugs, to destroy, 375.  
 Snails on walls, to prevent, 376.  
 Soda, 58.  
 Soils and composts, 835.  
 Soils, chemical analysis of, 44.  
 Soils, constituents of, 68.  
 Soils, Dr. Scoffern's chemistry of, 1683.  
 Soils, formation of, p. 20.  
 Soils, harvesting in, 1682.  
 Soils, improvement of, 1695.  
 Soils, mechanical preparation of, 91.  
 Soils, sections of, magnified, 439.  
 Sowing seeds, Messrs. Henderson's observations upon, 355.  
 Spade for garden purposes, 617.  
 Span-roof fruithouse, 784.  
 Spanish chestnut, varieties of, 144.  
 Spinach between peas, 516.  
 Spring flowering heaths, list of, 1396.  
 Spring gardens, 751.  
 Stable dung, 835.  
 Statues in garden scenery, 280.  
 Sterile soils, to improve, Mr. Loudon's plan, 436.  
 Stocks, to select for double flowering, 343.  
 Stone for rockwork, 510.  
 Stone walls, 225.  
 Stony soils, 470.  
 Stony soils retentive, *ib.*  
 Strawberries for small gardens, 192.  
 Strawberries, picking and packing, 1370.  
 Strawberries, to ensure fine fruit in dry seasons, 1509.  
 Strawberries, to force, 1369.  
 Strawberry banks, 1624.  
 Strawberry beds, new, to make, 551.  
 Strawberry beds, new, to make, American plan, 352.  
 Strawberry planting, 1622.  
 Strawberry planting in market gardens, 1623.  
 Stumps, 180.  
 Succulents for rockwork, 574.  
 Sulphur, 65.  
 Summer flowering heaths, list of, 1396.  
 Superphosphate of lime, how to use, 1705.  
 Surface crops, what they are, 482.  
 Surface draining, 162.  
 Surface of carriage roads, 273.  
 Sweet herb garden, 1321.  
 Sweet herbs, 868.  
 Sweet peas, 849.  
 Sweet Williams, 1158.  
 Swindon's "Beautés of Flora," 966.  
 Syringe, 632.  
 TAGETES SIGNATA PUMILA, plate 64.  
 Tallies for plant, 628.  
 Tanks and basins, 861.  
 Tanks by Mr. Randle, 819.  
 Tanks useful in kitchen gardens, 264.  
 Taxus, varieties of, 158.  
 Tea scented roses, 975.  
 Tea scented roses, Mr. Paul's classification of, 1964.  
 Tea scented roses, hardy, list of, 1965.  
 Tea scented roses, tender varieties, 1966.  
 Temple Garden chrysanthemums, 1138.  
 Terrace, ribbon border, 2106.  
 Terraces, formation of, 161.  
 Tertiary formation, p. 33.  
 Thorns, varieties of, 146.  
 Thrifts, 1476.

- Thrip, 1871.  
Thrip, remedy for, 394.  
Thuja; or, arborvitæ genus, 157.  
Thunbergias, 1518.  
Thunbergia fragrans, col. plate No. 12.  
Thyme, 1324.  
Tile beds for grass-plats, 863.  
Tobacco paper, 410.  
Tomato; or, love apple, 1178.  
Tongue grafting, 298.  
Tool-house, arrangement of, 283.  
Tools improved by Messrs. Gidney, 464.  
Tools, price list of, 645.  
Tools required in gardening, 615.  
Training of pear trees, French method, 612.  
Training trees, new method, 646.  
Training to form pyramid trees, 607.  
Transplanting, a remedy for over-luxuriance, 598.  
Transplanting, useful hints upon, 654.  
Tree carnation, 1865.  
Tree mignonette, 569.  
Trees near kitchen garden, 472.  
Trellis-work, 862.  
Trenching ground in January, 498.  
Tricolor geraniums, new, 1559.  
Tropæolum, Mrs. Treadwell, col. plate No. 5.  
Tubular boilers, 815.  
Tubular boilers of Mr. Messenger, 816.  
Tulips, best time for planting, 1722.  
Tulips, classification of, 1723.  
Tulips, early varieties of, col. plate No. 5.  
Tulips, enormous sums given for, 1716.  
Tulips for greenhouses in spring, 827.  
Tulips, management of, 1720.  
Tulips, peculiarities of, 1718.  
Tulips, proper soil for, 1719.  
Turban ranunculuses, 677.  
Turfs from the pasture for soil, 835.  
Turnips, 1068.  
Tydeas, 1867.
- VALLOTA EXIMIA, col. plate No. 11.  
Variegated leaved plants for rockwork, 573.  
Variegated verbena, popular, col. plate No. 9.  
Vases in mixed gardens, 1002.  
Vases, stages for, 260.  
Vegetable marrow, 1332.  
Vegetables for small gardens, 192.  
Vegetables to preserve, 1580.  
Vegetation, principles of, 286.  
Ventilating and warming, 803.  
Ventilating apparatus, 799.  
Ventilation for lean-to houses, 794.  
Ventilation, Mr. Messenger's system of, 800.  
Ventilation of forcing-houses at Frogmore, 776.  
Ventilation, Paxton's system of, 773.
- Verbenas, good varieties of, 1992.  
Verbenas, Miss Turner and Thomas Harris, col. plate No. 9.  
Verbenas, treatment of, during January, 504.  
Verrier's plan, objections to, 614.  
Verrier's plan of training pear trees, 612.  
Veronica for hedges, 245.  
Villa, suburban, kitchen garden for, 473.  
Vine, long rod pruning of, 1340.  
Vine, out of doors culture of, 1192.  
Vine, the propagation of, 1332.  
Vine, the pruning of, 1339.  
Vinery and plant house, section of, 785.  
Vines, out-door, for small gardens, 194.  
Vines, the sorts of, 1342.  
Vines in January, 564; February, 715; March, 909; April, 1094; May, 1244; June, 1404; July, 1531; August, 1664; September, 1872; October, 2048; November, 2210; December, 2310.  
Viola lutea, parent of the pansy, 1729.  
Violets for forcing, 1153.  
Violets in pots, 927.
- WALKS for pleasure grounds, arrangement of, 278.  
Walks in horticultural gardens, 164.  
Walks in kitchen garden, 476.  
Wall-fruit borders, 187.  
Walls, 83.  
Walls, coloured experiments with, 220.  
Walls, coping to, 229.  
Walls, economical, 223.  
Walls for fruit trees, by Rev. J. Lawrence, 233.  
Walls, forms of, Mr. Fish's remarks, 238.  
Walls, hollow, 226.  
Walls, mode of heating, 228.  
Walls of rubble stone, 227.  
Walls of stone, 225.  
Walls with curvatures, 474.  
Wardian case, 738.  
Wardian case, construction of, 738.  
Warming and ventilating, 808.  
Warming by steam, 812.  
Wasps, to destroy, 372.  
Water arrangements at Horticultural Gardens, 160.  
Water, artificial, for gardens, 256.  
Water, artificial, to stock with plants, 265.  
Water barrow, 641.  
Water for garden purposes, 125.  
Water, pure, 81.  
Water, soft, importance of, 837.  
Watering fresh potted plants, 924.  
Watson's lawn sand, 414.  
Way's experiments with ammonia, 1693.  
Weeds on gravel walks, to get rid of, 379, 396.  
Weeds, to kill, 1276.

- Weeping roses, 2067.  
 Weevil, the little, destroys rose flowers, 366.  
 Wheelbarrow, 636.  
 White lily, col. plate No. 6.  
 Wild flowers for rockwork, 577.  
 Window gardening, 737.  
 Windows, baskets for, 742.  
 Windows, troughs for, 742.  
 Winter-pruning of fruit trees, 599.  
 Wire fences, 201.  
 Wire fences, patterns of, 207, 208.  
 Wire training of trees, 646.  
 Wireworm, 390.  
 Wood ashes as a manure, 1710.  
 Wood lice, 414.
- Wooden fences, 201.  
 Worms in pots, injury done by, 353.  
 Worms on lawns, to destroy, 389, 402.  
 Wych elm, 136.
- YEW HEDGES, to construct, 242.
- ZIGZAG WALLS, 219.  
 Zonale geraniums, cultivation of, 1556.  
 Zonale geraniums, double-flowered, 1558.  
 Zonale geraniums, bedded, seedlings of 1560.  
 Zonale geraniums, varieties of, 1556.  
 Zonale geranium, Venus, col. plate No. 8.
