INDEX.
INDEX.

Adams, Captain William, 516.
Admiralty Inlet, 39.
Agassiz, Professor L., instructions by, 659 to 662.
Allen, Captain William, 512.
Allyn, Zilker, 47.
American Bible Society, 62.
American Geographical Society, reception of Hall by the, 37.
Anowaytok, 426, 483, 490.
Appropriation for Arcticle Expedition, 27.
“Arctic”, receives 11 Polaris men, 516; arrives at
at Dundee, 517.
Arches, 506; seen, 492, 493, 501, 502; killed, 492, 494,
500, 502.
Auroras, 48, 230, 240, 257, 258, 268, 281, 282, 290, 297,
Avash Island, Polaris passes, 71.

Baird, Professor S. F., a member of the Board of In-
quiry, 597; instructions by, 653 to 655.
Barnes, Surgeon-General J. K., U. S. A., medical cer-
ificate of, 183.
Bartlett, Captain, recuses the ice-fooe party, 572.
Beals, Surgeon-General J., U. S. N., medical cer-
ificate of, 183.

Beans, encounter with dogs, 538; pursued, 549; a
visit from, 561; traces of, seen, 248, 349, 436,
439, 531, 535, 544, 550; seen, 425, 533; killed,
349, 473, 552, 568.

Besse, Dr. Emil, scientific operations intrusted to,
32; gathers specimens at Fiskerannes, 49;
takes photographs, 63; keeps watch, 85; opin-
ion of, as to course, 92; collects specimens, 115;
attends Hall in his sickness, 173; qualifications,
210; assists in meteorological work, 219; con-
sultation with Captain Rudington, 227; anx-
xiety for, 233; lost in a storm, 266; plan of op-
erations, 305 to 311; photographs the ship, 324;
starts on journey toward the south, 339; re-
turns, 340; starts on sledge-journey north, 478;
returns, 479; starts again, 481; visits Foulke
Fort, 482; letter of, 671 to 672.

Birds seen, 80, 372, 430, 506, 565; land, seen, 563
(See under head of the different kinds of birds.)

Bishop, Mr. R. M., 191.

Blackwood Point, Budington party land on, 605.
Board of Inquiry, report of, 598 to 620.

Boats (Budington’s party), finished, 492; under
weigh, 509; heet, 503; pass Cape York, 529;
steve, 510; picked up, 512; brought to the
United States, 514.

Boatswain, killed, 378, 388, 403.

Bourne, Jonathan, Jr., gives Hall a free passage to
the United States, 201.

Braime, Commander D. L., U. S. N., commands the
Junias, 560; describes the seal on the Wabai,
631.

Brent geese, seen, 113, 492; killed, 117, 369, 394, 402,
403. (See Geese)

Brovoort, Mr. J. Carson, authority for what relates to
Hall personally, 25; estimate of Hall, 41.

Brooklyn, N. Y., Hall lectures in, 24.

Brother John’s Glacier, visited, 492.

Bryan, Rev. E. D., 57.

Bryan, R. W. D., astronomer of the Expedition, 37;
appointed chaplain, 62; keeps watch, 85; sur-
veying, 120, 124, 125, 134; unconscious, 130;
qualifications, 210; banks up the observatory,
218; observes moon-calculations, 279; starts on
journey to the south, 239; collects fossils, 272;
makes meteorological observations, 374; his
records placed on the ice, 430; visits Russel’s
Harbor, 487 to 491; visits Port Foulke, 493 to
496; arrives in New York, 519; letter of, 667 to
676.

Budington, Captain James, 57.

Budington, Captain S. O., to receive special written
directions from Hall, 33; sailing and ice mas-
ter of the Expedition, 37; advice of, to seek a
harbor, 91; opinion of, as to course, 93; qual-
ifications, 211; the command devolves upon,
227; consultation with Dr. Besse, ib.; discon-
tinues daily prayers, 232; makes preparations for
sledge-journey, 255; statement of the ex-
Bedington, Captain S. O.—Continued.

posure of the Polaris, 65 to 68; replies to Dr.
Bessels' plan of operations, 314; prepares for
the boat-journeys, 337; account of sledging-jour-
ney from, journal, 340 to 361; deposits a record
at Newmar's Bay, 357; determines to push
North, 358, 359; decides to start South, 401;
maintains discipline, 460; the boat-crowd of,
455; party arrive in Washington, 517; exam-
ined, 690.

Bergamaster gulls, see, 378, 486. (See Gulls)

Cairn Point, the Polaris abreast of, 75; two miles
distant, 492.

Calcutta, Dundee jute-trade with, 49.

Cape Alexander, Polaris opposite, 76.

Brevoort, named, 160.

Constitution, Polaris passing, 408.

Dudley Diggles, Polaris abreast of, 71.

Frazier, Polaris passes, 79.

Hawks, on the port-team, 76.

Joseph Henry, coast sketched as far as, 357.

Lawrence, Polaris passes, 79.

Lieber, recognized, 81; appears near the ves-
sel, 261; seen during the Polar night, 285;
the Polaris near, 383.

Luppton, named, 159; appears near the vessel,
261; much open water seen from, 289; Pol-
aris rounding, 383.

McClintock, Polaris passes, 79.

Norton Shaw, Polaris passes, 79.

Perry, Polaris off, 74.

Summer, pack near, found impenetrable, 383.

Union, seen from Cape Luppton, 117.

York, sighted, 70; Polaris north of, 71; the
Little Juniata in the pack near, 589.

Carey Islands, ice-floe party below, 530.

Caterpillars, 328.

Chester, H. C., first mate of the Polaris, 37; dis-
patched for Mr. K. Smith, 54; brings Hans and
family from Proven, 69; opinion of, as to course,
92; looking for a harbor, 98; conducts a hunt-
ing-party, 131; mountains named after, 133;
accompanied Hall on sledging-journey, 147; visits
Cape Brevoort, 156; qualifications, 219; his
estimate of the crew, 318; visits the open wa-
ter, 299; to command one of the boats, 337;
reports open water, 374; starts with crew to
Cape Luppton, 375; loses boat and returns, 86;
account of journey, 376; prepares the canvas
boat, 377; starts from ship, 378; sends to Cap-
tain Bodington for provisions, 384; a letter and

Chester, H. C.—Continued.
supplies sent to, 387; arrives from Newman's
Bay, 394; adds inscription on Hall's grave, 395;
looks for floe-party, 442; builds boats, 472; the
boat-crowd of, 455; journal of, while on boat-
journey, 675 to 678.

Christmas, its celebration, 262 to 265; the floe-party
celebrate, 335.

Cincinnati, Ohio, Hall lectures in, 21.

Clift, Mr. J. C., 17.

Coal, purchased at Upernavik, 63; used during Oc-
tober, 228; November, 248; December, 269;
January, 291; February, 318; March, 333;
quantity of, much reduced, 290; exhausted,
468; found on the Waligut, 601.

Coffin, N. J., makes a wagon, 134; his ability, 213;
finishes the sleds, 285, 289.

Colfax, Hon. Schuyler, secures Arctic amendment
by his casting vote, 27.

Collinson, Rear-Admiral C. B., list of Froebisher's
relies in "Three Voyages of M. Froebisher," ed-
ited by, 193.

Conical Rock, Bodington party encamps on, 607.

Cooper, Captain, kind treatment from, 518.

Cox, Judge Joseph, letter from, respecting Hall's
health, 179.

Crew, employments of, during Hall's sickness, 217;
health of, 283.

Crows, seen, 502, 565.

Crow's-nest, secured in its place, 54.

Cumberland Sound, value of whale-fishery in, 40.

Cylinders, to be thrown overboard, 38; thrown over-
board, 39, 68, 96, 269, 261, 294; put in Hall's
grave, 388.

Cyrus Field's Bay, Hall winters in, on first Expedi-
tion, 191.

Dalrymple Island, Bodington party lands on, 505.

Dalv, Judge C. P., introduces Hall to the American
Geographical Society, 38; Hall's letter to, 39,
201 to 209.

Davenport, Captain H. K., U. S. N., commands the
Congress, 65; presents to Inspector Smith let-
ters from the Secretary of the Navy, 48; ad-
dresses the crew of the Polaris, 57.

Deer, none found at Holsteinborg, as expected, 52;
traces seen, 378, 449, 453, 477; seen, 453, 454,456,
457; killed, 478.

De Lang, Captain, visits the ice-floe party on the
Tigris, 573.
De Long, Lieutenant G. W., U. S. N., commands the Little Juniata, 582.

Dogs, purchased at Saint John's, 48; at Upernavik, 62; at King-itoke, 64; troublesome, 133; number and condition, 231; feeding, 231; food, 201; in good condition for sledge-journeys, 298; fit, 329, 335.

Ducks, seen, 372, 379, 503, 565, 569; killed, 385, 394.

Dundee, Buddington party arrive at, 517, 518.

"Eagle," sighted by the ice-foo party, 573.

Ebersling, present at Hall's lecture, 35. (See under Joe)

Eider ducks, seen, 370, 420, 421, 423; killed, 377.

Elberg, Governor of Holsteinborg, an old friend of Hall's, 52.

Elberg, Governor of Upernavik, visits the Polaris, 61; accompanies Hall to Tessim, 63; receives Hall's last dispatches, 65.

"Eric," receives three of the Buddington party, 518; arrives with them at Dundee, 68.

Eqnimumax, of Fiskernæs, described, 49; divine service of the, 54; photographs of, taken, 63; remains of summer tents of, discovered, 119; first sight of Etah, 445; 102, visited Polaris House, 483; funeral ceremonies, 484; divorce, 68.

Etah, the settlement of, 455.

Fish, Hon. Hamilton, letter of, 606.

Fiskernæs, the Polaris leaves, 60.

Fitz Clarence Rock, Polaris passes, 74; Buddington's boat near, 505.

Flies, 359, 360.

Pever, Dr., conducts divine service on the Polaris, 47.

Foxes, traces of, 149, 349; seen, 125, 444, 445, 453, 503, 542, 562; killed, 327, 450, 463, 453, 454, 456, 457, 465, 469, 468, 470, 523, 535, 550; eaten, 450.

Franklin Island, Polaris passes, 498.

Franklin, Sir John, Hall's mission relative to, 60; Hall ranked with, 51; Hall's efforts to rescue, and their results, 191 to 209.

"Frolic," U. S. S., brings the ice-foo party from Saint John's to Washington, 575.

Gale Point, Polaris due west of, 425.

Geese, seen, 379, 396, 503; killed, 394, 403.

Geographical Society of Paris awards the Roquette Prize to Hall, 625.

Godhavn, the Polaris at, 53; the Juniata at, 591; the Tigress at, 524.

Goellings, caught, 394, 403.

Grant, President U. S., at Hall's lecture, 36; commissions Hall, 23; inspects the Polaris, 29; crew of the boat named after, 537.

Greenwood, Mr. Miles, assists Hall in his first Expedition, 191.

Greer, Commander J. A., U. S. N., commands the Tigress, 584.

Grinnell, Mr. Henry, Hall's letter to, 20; authority for what relates to Hall personally, 25; assists Hall in his first Expedition, 191.

Grinnell Land, sun hidden by, 77.

Guils, seen, 134, 336, 379, 390, 392, 375, 379, 381, 491, 502; killed, 190, 388, 391, 392, 394.

Hakluyt Island, Polaris off, 74; Buddington party on, 500.

Hall, Captain Francis, originates the Expedition, 17; extracts from journal of, showing purpose of reaching the Pole, 18; ranked with other Arctic heroes, 21; Arctic training, 18; arrives in Washington, 25; impressed by the sympathy of The President, 18; lectures in Lincoln Hall, 20; his commission, 28; instructions from Secretary of the Navy, 30 to 36; details his plans before the American Geographical Society, 27; letters to Messrs. Index.

Hall, Captain Charles Francis—Continued.
world, 65; sends his last dispatches, 66; sounds the entrance to a bay near Cape Frazier, 70; determines latitude of highest point reached by the Polaris, 85; explores a small bay, 89 and 90; calls a council, 92; decision as to course, 94; orders each man to be ready to leave the vessel, 97; looks for a harbor, 98; takes possession of the land, 101; decides to winter, 105; seeks a more suitable harbor, 113; names Polaris Bay, 119; names the harbor, 16; observes for longitude, 16; the accuracy of, estimate of distances, 120; receives letter from seamon, 153; promises to redress their grievances, 18; object in sending out hunting-party, 133; anxious to make sledge-journey, 134; prepares for it, 135; prescribes ship-routine, 136;condemns profanity, 137; instructions to Badington, 141 to 147; starts on sledge-journey, 147; returns, 149; last sight of the sun, 151; extracts from journal, 152, 153, 169 to 170, 176; encamps in sight of a bay, 153; reads prayers, 154; visits Cape Brevoort, 156; his highest on land, 177; observations from Cape Brevoort, 156; determines latitude of last encampment, 160; deposits dispatch, 163; returns to the Polaris, 170; takes sick, 173; condition critical, 174; improves rapidly—his relapse and death, 175; grief for, 176; extracts from journal respecting former sickness, 177 and 178; illness in Washington, 178; under medical treatment before sailing, 179; the funeral of, 184; the grave, 185; death of, fatal to the Expedition, 189; interest in Expeditions for Franklin's relief, 190; starts on first expedition, 191; discovers relics of Frobisher's Expeditions, 192; discovers Frobisher's Bay, 192; starts on second Expedition, 194; visits King William's Land, 199; letter to Judge Daly detailing results, 201 to 209; qualifications previous to taking command of the Polaris, 209; lacked only good health, 213; grave of, found undisturbed, 501; inscription placed on grave, 350, 355; Arctic library of, caked, 499; first news of the death of, 574.

Hall, Mrs. C. F., Roquette prize sent to, 631.

Hall, Robert, Secretary of the Admiralty, letter of, 655, 721.

Hall's Basin, named by Captain Badington, 396.

Halos, 131, 243, 255, 297, 280, 292, 474.

Hannah, on the Polaris, 37; Hall's first meeting with, 193; her services, 213; makes skin clothing, 235.

Hans, 40; services secured, 59; accompanies Hall on sledge-journey, 147; his services, 213; babo born to, 403; taken to Greenland, 654.

Hans Island, the Polaris passes, 407.

Hares, seen, 265, 474, 486; killed, 119, 123, 332, 353, 359, 477, 485, 487, 493.

Hartstone Bay, Hall's wish to be landed in, 43.

Hawks, seen, 149, 359.

Hayes, Dr. L. I., tidal apparatus used, 136; iron boat left on McGary's Island, sought, 453; observatory destroyed by natives, 463.

Henry, Professor Joseph, letter of, 637 to 640; instructions of, 545 to 653.

Highest land, seen by Hall, 105; returned by Tyson and Moger, 366.

Hilgard, Professor J. E., instructions by, 640, 641 to 645.

Holsteinborg, the Polaris at, 50; the Juniat at, 581.

Howgate, Capt. H. W., U. S. A., a member of the Board of Inquiry, 597.

Ice, 73, 97; pack first encountered, 70; close, 71, 602; stopped by, 74, 600, 607, 578, 570; patch, 75; heavy pack, 76, 352, 359, 570; 100 feet thick, 77; patches of, 59; large floes, 81, 285, 297; heavy, 88, 411; solid from shore to shore, 84, 353, 344, 387; floes, 89, 90, 98, 100; a wall of, 94; pressure of, 95, 95, 244, 259, 389, 390, 393, 402, 405, 418, 429, 505, 509; loosened, 101, 553, 559, 566; opens, 103, 136, 146, 227, 252, 359, 520, 415, 403, 472; young, 118, 240, 284, 288, 327, 549, 406, 413, 415.

Ice floe party, the members, 524; sight the Polaris, 532; drift near the west land, 527; build three igloos, 528; drift to the south, 593; scarcity of food, 540; loss of strength, 543; opposite Cumberland Gulf, 549; opposite Cape Farewell, 553; in great peril, 560; sight a vessel, 571; picked up by the Tigress, 572; at Washington, 575; examined, 597.

Igloo, building an, 341.

Indianapolis, Indiana, Hall lectures in, 21.

Inland Island, Hall's ninth encampment near, 169.

Iowan Line of Steamships, passage given to part of the Budington party, 617.

Insects, 368.

Intrepid, three of the Budington party on the, 516.

Ivory gull, seen, 413.

Jackmann, Captain, 572.
Jeuess, Governor of Tussi-Ussak, declines to accompany Hall, 64; pilots the Polaris, 66.
Joo, on the Polaris, 37; accompanies Hall on sledge-journey, 147; Hall's first meeting with, 193; his services, 213; on board the Tigress, 584.
Johnson, Mr. A. B., letter from Hall, 19.
"Julianhope," the brig, met by the Polaris, 60.
"Juniaut," U. S. S., made ready for sea, 579; complement of, 569; sails from New York, ib.; arrives at St. John's, 592; arrives at New York, 593.
Jupiter, observations of, 159, 167, 166, 200.
Kane, Dr. E. K., Hallranked with, 21.
Kamarcok, passed, 65.
Kennedy Channel, the Polaris enters, 70, 407; the scene of a powder explosion, (occurred in Smith Strait) 60.
Kerosene-oil, the freezing-point, 330.
King ducks, killed, 573, 579, 591.
King-hoake, the Polaris reaches, 63.
King William's Land, Hall's desire to reach, 19; Hall reaches, 199.
Koldewey, Captain Carl, views of an open Polar sea, 95.
Kroft, Rev. Mr., missionary at Lichtefelds, 50.
Kregar, J. W. C., placed in charge of the tidal observations, 523.
Lancaster Sound, land seen near, 539.
Laor, Captain, kindness to part of the Badington party, 517.
Lemmings, traces of, seen, 149, 396, 351; caught, 309, 311, 334, 396.
Lichtefelds, visited by a party from the Polaris, 50.
Life-boat Cove, Polaris opposite, 442.
Lime-juice, given out, 269.
Lister, T. V., Under Secretary of State, for England, letter of, 655.
"Little Juniaut," dispatched, 562; in Melville Bay, 590; rejoins the Juniaut, 591.
Littleton Island, Polaris passes, 75.
Lookout Mountain, Hall's first snow-house near, 150.
Loosen, P., Governor of Godhavn, receives Hall cordially, 53; assists Commander Brando, 581.
Lumnes, a rookery of, 501; killed, 391.
Magnetometer, observations with, 289; term-day, 295.
Markham, Captain A. E., R. N., visits the Ravenscrag, 516.
Maucho, J., surveying, 124, 126; searched for, 130; assistant to yeoman, ib.; clerk to Hall, ib.; qualifications, 218; assists Mr. Meyer in observing, 280; experiments with kerosene-oil, 330; describes a ravine, 339; reports unfavorably as to ice in Strait, 386; meteorological observations, 375, 454; his duties, 379.
Mees, Professor F. B., instructions by, 655 to 659.
Mercury, frozen, 303, 311, 329, 471, 637, 594.
Meteor, 586.
Meyer, Mr. Frederick, meteorologist of the Expedition, 57; determination of highest latitude, 85; keeps watch, ib.; surveying, 120, 124, 125, 124, 331, 355, 357; qualifications, 211; banks up observatory, 218; goes to the relief of Dr. Bossel, 321; attacked by scurvy, 491; his records placed on the ice, 492; determines position, 428, 425, 553, 553, 541, 549, 560, 570, nearly frozen to death, 561; suffers from hunger, 563.
Mirage, 48, 273.
Morton, Mr. William, second mate of the Polaris, 37; recognized by Haus, 60; goes in search of Mauch, 120; appointed yeoman, 130; qualification, 218; loses use of foot, 259.
