

## CAMBRIDGE LIBRARY COLLECTION

*Books of enduring scholarly value*

### **Art and Architecture**

From the middle of the eighteenth century, with the growth of travel at home and abroad and the increase in leisure for the wealthier classes, the arts became the subject of more widespread appreciation and discussion. The rapid expansion of book and periodical publishing in this area both reflected and encouraged interest in art and art history among the wider reading public. This series throws light on the development of visual culture and aesthetics. It covers topics from the Grand Tour to the great exhibitions of the nineteenth century, and includes art criticism and biography.

### **My Autobiography and Reminiscences**

The celebrated Victorian narrative painter William Powell Frith (1819–1909) was a born raconteur. His two-volume autobiography of 1887 ran to three editions in the same year. The third edition is reissued here, together with its supplementary volume of 1888. Frith was an ideal commentator on his age. He never lost his early interest in literary and historical subjects, and moved in the highest artistic and literary circles. Yet he also saw himself as a man of the people. His most famous works were his ‘modern-life’ panoramas, *Ramsgate Sands* (1854), *Derby Day* (1858) and *The Railway Station* (1862). Discussing such projects, he reflects on everything from costume to portraiture, art dealers to female artists, and even picture frames. Volume 1 covers his childhood, training, friendships with Dickens and others, and the phenomenal success of his first crowd scenes, up to and including *The Marriage of the Prince of Wales* (1865).

Cambridge University Press has long been a pioneer in the reissuing of out-of-print titles from its own backlist, producing digital reprints of books that are still sought after by scholars and students but could not be reprinted economically using traditional technology. The Cambridge Library Collection extends this activity to a wider range of books which are still of importance to researchers and professionals, either for the source material they contain, or as landmarks in the history of their academic discipline.

Drawing from the world-renowned collections in the Cambridge University Library and other partner libraries, and guided by the advice of experts in each subject area, Cambridge University Press is using state-of-the-art scanning machines in its own Printing House to capture the content of each book selected for inclusion. The files are processed to give a consistently clear, crisp image, and the books finished to the high quality standard for which the Press is recognised around the world. The latest print-on-demand technology ensures that the books will remain available indefinitely, and that orders for single or multiple copies can quickly be supplied.

The Cambridge Library Collection brings back to life books of enduring scholarly value (including out-of-copyright works originally issued by other publishers) across a wide range of disciplines in the humanities and social sciences and in science and technology.
