## CAMBRIDGE LIBRARY COLLECTION

*Books of enduring scholarly value*

### **Naval and Military History**

This series includes accounts of sea and land campaigns by eye-witnesses and contemporaries, as well as landmark studies of their social, political and economic impacts. The series focuses mainly on the period from the Renaissance to the end of the Victorian era. It includes major concentrations of material on the American and French revolutions, the British campaigns in South Asia, and nineteenth-century conflicts in Europe, such as the Peninsular and Crimean Wars. Although many of the accounts are semi-official narratives by senior officers and their relatives, the series also includes alternative viewpoints from dissenting leaders, servicemen in the lower ranks, and military wives and civilians caught up in the theatre of war.

### **The War: From the Death of Lord Raglan to the Evacuation of the Crimea**

William Howard Russell (1820–1907) is today credited with having shaped the image and role of the modern war correspondent. His dispatches for *The Times* during the Crimean War were so influential that they led to military reforms and the fall of the Aberdeen Government. Moreover, his unflinching accounts of the appalling and insanitary conditions endured by ill-provisioned troops helped inspire the work of Florence Nightingale. He was not afraid to highlight poor leadership and planning, and was quick to praise the heroism of the ‘common’ soldier. Wearing military-style clothes, he obtained his information through his easy relationships with junior officers, helped by his fondness for brandy and cigars. This volume, published in 1856, includes his last Crimean dispatches, concluding with poignant descriptions of visits by the soldiers to the battlefields to erect memorials to their fallen comrades.

Cambridge University Press has long been a pioneer in the reissuing of out-of-print titles from its own backlist, producing digital reprints of books that are still sought after by scholars and students but could not be reprinted economically using traditional technology. The Cambridge Library Collection extends this activity to a wider range of books which are still of importance to researchers and professionals, either for the source material they contain, or as landmarks in the history of their academic discipline.

Drawing from the world-renowned collections in the Cambridge University Library and other partner libraries, and guided by the advice of experts in each subject area, Cambridge University Press is using state-of-the-art scanning machines in its own Printing House to capture the content of each book selected for inclusion. The files are processed to give a consistently clear, crisp image, and the books finished to the high quality standard for which the Press is recognised around the world. The latest print-on-demand technology ensures that the books will remain available indefinitely, and that orders for single or multiple copies can quickly be supplied.

The Cambridge Library Collection brings back to life books of enduring scholarly value (including out-of-copyright works originally issued by other publishers) across a wide range of disciplines in the humanities and social sciences and in science and technology.
