978-1-108-05215-3 - Lightning Conductors and Lightning Guards

Oliver Lodge

Table of Contents

[More information](#)

CONTENTS.

CHAPTER	PAGE
I. General Considerations concerning Atmospheric Electricity and Lightning	1
II. General Considerations regarding Damage by Lightning	13
III. General Considerations concerning Conductors for House-protection	19
IV. Further details regarding Conductors	25
V. Experiments establishing the importance of Electrical Inertia, and affording a means of comparing the effectiveness of different Conductors.	31
VI. General explanation of these Experiments	38
VII. Application of the above mode of Experimenting to determine further details	44
VIII. Further Experiments	50
IX. Liability of Objects to be struck	54
X. Experiments bearing on the "Return Stroke" and other unexpected vagaries of Lightning	59
XI. Conclusion of the Society of Arts Lecture	70
XII. Previous Experiments of Messrs. Hughes and Guillemin, and of Rood	74
XIII. On the Theory of Lightning Conductors	87
XIV. Proceedings at the British Association Meeting in Bath	107
XV. Experimental Lightning Conductors and other Observational Matters	130
XVI. Summary and repetition of important points	155
XVII. Instructive Extracts from Reports of Damage by Lightning	191
XVIII. Practical Questions	207

CHAPTER	PAGE
XIX. Discussion	212
XX. Theory of B Circuits, of "Alternative path" experiments, and of Side-flash	240
XXI. Resistance and Impedance for Frequencies comparable to a million per second	245
XXII. On the Melting of Conductors	250
XXIII. On conditions under which points can be preferentially struck in Case B	253
XXIV. Electric Radiation	256
XXV. On the Influence of Self-induction on the Rate of Discharge of a Condenser or Cloud	268
XXVI. Theory and Record of the Experiment of the Alternative Path	274
XXVII. Other experiments on the Discharge of Leyden Jars	342
XXVIII. Lightning Conductors from a modern point of view	366
XXIX. On Lightning Guards for Telegraphic Purposes, and on the Protection of Cables from Lightning	375
XXX. Reply to Criticisms	413
XXXI. Construction and Use of Instruments	419
Appendix I. Concerning Army and Navy Regulations for the Protection of Powder Magazines	429
II. Rules of the War Office	485
III. Rules of the Admiralty	507
IV. Some Special Cases and Other Details	509
Index	539

LIST OF PLATES.

	PAGE
LIGHTNING PHOTOGRAPH BY MR. A. W. CLAYDEN, SHOWING THE CURIOUS PHOTOGRAPHIC APPEARANCE KNOWN AS THE "DARK FLASH" <i>Frontispiece</i>	
I. MULTIPLE FLASHES	12
II. MULTIPLE AND BRANCHING FLASHES	12
III. MEANDERING FLASH AND REPEATED OR INTERMITTENT FLASH IN MOVING CAMERA	12
IV. MEANDERING FLASH	12
V. MULTIPLE FLASH	12
VI. EFFECT OF LIGHTNING ON TREE. DEFLAGRATION OF GOLD LEAF	14
VII. DEFLAGRATED SILVER WIRE. DEFLAGRATED COPPER WIRE	14
VIII. DEFLAGRATED PLATINUM WIRE. DEFLAGRATED IRON WIRE	14
IX. ST. MICHAEL'S CHURCH, CORK. ST. GEORGE'S, LEICESTER	14
X. HOUSE STRUCK BY LIGHTNING, ILLUSTRATING APPA- RENT SIDE-FLASH FROM THE CONDUCTOR TO A RAIN WATER SPOUT	16
XI. FLASH STRIKING MAST AND DECK AND SHORE SIMUL- TANEOUSLY. SNOW HARRIS'S SYSTEM OF PROTEC- TION	18
XII. PROTECTED BUILDINGS	19
XIII. ELABORATELY PROTECTED BUILDINGS	19
XIV. VARIOUS TERMINALS IN USE. CHIMNEY TERMINALS OFTEN EMPLOYED ABROAD. CALLAUD'S MULTIPLE POINT	20
XV. TERMINALS OF THE BRUSSELS HÔTEL DE VILLE	20

LIST OF PLATES.

XVI. COMPENSATOR ALLOWING EXPANSION. SANDERSON'S COPPER TAPE	20
XVII. DR. MANN'S CHEAP EARTH. DIAGRAM INTENDED TO ILLUSTRATE CLERK MAXWELL'S ARRANGEMENT .	22
XVIII. NEGATIVE SPARK TO A DRY PLATE. [J. BROWN.] POSITIVE SPARK TO A DRY-PLATE. [J. BROWN.] .	254
