## CONTENTS.

## INTRODUCTION.

SECT.	PAGE
1. The Study of Variation . . . . .	1
2. Alternative Methods . . . . .	6
3. Continuity or Discontinuity of Variation . . . . .	13
4. Symmetry and Meristic Repetition . . . . .	17
5. Meristic Variation and Substantive Variation . . . . .	22
6. Meristic Repetition and Homology . . . . .	28
7. Meristic Repetition and Division . . . . .	33
8. Discontinuity in Substantive Variation: Size . . . . .	36
9. Discontinuity in Substantive Variation: Colour and Colour-Patterns . . . . .	42
10. Discontinuity in Substantive Variation: Miscellaneous Examples . . . . .	54
11. Discontinuity in Meristic Variation: Examples . . . . .	60
12. Parallel between Discontinuity of Sex and Discontinuity in Variation . . . . .	66
13. Suggestions as to the nature of Discontinuity in Variation . . . . .	68
14. Some current conceptions of Biology in view of the Facts of Variation 1. Heredity. 2. Reversion. 3. Causes of Variation. 4. The Variability of "useless" Structures. 5. Adaptation. 6. Natural Selection.	75

## PART I.

## MERISTIC VARIATION.

Linear Series . . . . .	87—422
Radial Series . . . . .	423—447
Bilateral Series . . . . .	448—473
Secondary Symmetry and Duplicity . . . . .	474—566

CHAPTER I. ARRANGEMENT OF EVIDENCE . . . . . 83

CHAPTER II. SEGMENTS OF ARTHROPODA . . . . . 91

## xiv

## CONTENTS.

	PAGE
CHAPTER III. VERTEBRÆ AND RIBS . . . . .	102
CHAPTER IV. SPINAL NERVES . . . . .	129
CHAPTER V. VARIATION IN ARTHROPODA . . . . .	146
CHAPTER VI. CHÆTOPODA, HIRUDINEA AND CESTODA . . . . .	156
CHAPTER VII. BRANCHIAL OPENINGS OF CHORDATA AND STRUCTURES IN CONNEXION WITH THEM . . . . .	171
1. Ascidians. 2. Cyclostomi. 3. Cervical Fistulæ and Supernumerary Auricles in Mammals	
CHAPTER VIII. MAMMÆ . . . . .	181
CHAPTER IX. TEETH . . . . .	195
Preliminary. Primates. Canidæ. Felidæ. Viverridæ. Mustelidæ. Pinnipedia. Marsupialia. Selachii. Radulæ of <i>Buccinum</i> .	
CHAPTER X. TEETH—RECAPITULATION . . . . .	265
CHAPTER XI. MISCELLANEOUS EXAMPLES . . . . .	274
Scales. Kidneys; Renal Arteries; Ureters. Tentacles and Eyes of Mollusca. Eyes of Insects. Wings of Insects. Horns of Sheep, Goats and Deer. Perforations of shell of <i>Haliotis</i> .	
CHAPTER XII. COLOUR-MARKINGS . . . . .	288
Ocellar Markings. Simultaneity of Colour-Variation in Parts repeated in Linear Series (Larvæ of Lepidoptera: Chitonidæ)	
CHAPTER XIII. MINOR SYMMETRIES: DIGITS . . . . .	311
CAT. Pp. 313—324.	
MAN AND APES. Pp. 324—360.	
Increase in number of digits, p. 324.	
<i>Cases of Polydactylism associated with change of Symmetry.</i> A. Digits in one Successive Series, p. 326. B. Digits in two homologous groups forming "Double-hands," p. 331. Complex cases, p. 338.	
<i>Polydactylism not associated with change of Symmetry,</i> p. 344. (1) A. Single extra digit external to minimus, p. 345. (1) B. Single extra digit in other positions, p. 349. (2) Duplication of single digits, p. 349. (3) Combinations of the foregoing, p. 352. (4) Irregular examples, p. 353.	
Reduction in number of phalanges, p. 355. Syndactylism, p. 356.	
Absence of digits and representation of two digits by one, p. 358.	
HORSE, pp. 360—373. Extra digits on separate metacarpal or metatarsal, p. 361. More than one digit borne by metacarpal III., p. 369. Intermediate cases, p. 371.	
ARTIODACTYLA, pp. 373—390. Polydactylism in Pecora, p. 373. Polydactylism in Pig, p. 381. Syndactylism in Artiodactyla, p. 383.	
BIRDS, pp. 390—395.	
Possibly Continuous numerical Variation in digits: miscellaneous examples, pp. 395—398 ( <i>Chalcides. Cistudo. Rissa. Erinaceus. Elephas.</i> ) Inheritance of Digital Variation. Association of Digital Variation with other forms of Abnormality.

## CONTENTS.

xv

	PAGE
CHAPTER XIV. DIGITS: RECAPITULATION . . . . .	400
CHAPTER XV. MINOR SYMMETRIES: SEGMENTS IN APPENDAGES . . . . .	410
CHAPTER XVI. RADIAL SERIES . . . . .	423
Cœlenterata. Pedicellariae of Echinoderms. Cell-Division.	
CHAPTER XVII. RADIAL SERIES: ECHINODERMATA . . . . .	432
CHAPTER XVIII. BILATERAL SERIES . . . . .	448
CHAPTER XIX. FURTHER ILLUSTRATIONS OF THE RELATIONSHIP BETWEEN RIGHT AND LEFT SIDES . . . . .	463
CHAPTER XX. SUPERNUMERARY APPENDAGES IN SECONDARY SYMMETRY . . . . .	474
Introductory.—The Evidence as to Insects.	
CHAPTER XXI. APPENDAGES IN SECONDARY SYMMETRY . . . . .	525
The Evidence as to Crustacea.	
CHAPTER XXII. DUPLICITY OF APPENDAGES IN ARTHROPODA . . . . .	539
CHAPTER XXIII. SECONDARY SYMMETRY IN VERTEBRATES. RE- MARKS ON THE SIGNIFICANCE OF REPETITION IN SECONDARY SYMMETRY: UNITS OF REPE- TITION . . . . .	553
CHAPTER XXIV. DOUBLE MONSTERS . . . . .	559
CHAPTER XXV. CONCLUDING REFLEXIONS . . . . .	567

INDEX OF SUBJECTS, p. 576.

INDEX OF PERSONS, p. 593.
